---

Hello Redistricting Advisory Committee (RAC) members:

### **DistrictR Demo Video**

Wednesday's RAC Training Session #3 was quite productive with additional insights into the redistricting process. Likewise, the August 17th RAC Outreach Workshop #1 will be structured to reinforce the redistricting process and tools. Specifically, it will include a DistrictR demonstration video with San Joaquin content, direction on how to build a Community of Interest, and instruction on how to draw your own District lines.

### **RAC Email Accounts**

As discussed in the RAC Training Session, next week we will set up dedicated RAC email accounts for those of you who are interested in having such an account.

### **RAC Member Parking**

We are very close to confirming a more convenient parking alternative for you and expect to have details to share with you early next week.

### **RAC Community Contact List**

Attached is the RAC Community Contact list capturing the contacts that RAC members had between the last two RAC Training Sessions. In this regard, you're welcome to send me your Community Contacts prior to our meetings and I'll read them aloud in the meetings, or you can share them yourselves in the meetings (it's always good to have options).

### **RAC Outreach Talking Points**

We are amending the Talking Points to include a "State Redistricting" summary, Examples of Communities of Interest, and as presented in the Training Session: "Three Critical Things to Think About When Defining YOUR Community".

### **2011 Communities of Interest (COI) Boundaries**

In the RAC Training Session, Pam inquired about COI boundaries from the 2011 Supervisorial Redistricting effort. Attached is a document that Dave Bollinger drafted that addresses the question.

### **Supervisorial Redistricting Video and Social Media Platforms**

The San Joaquin County (SJC) staff created a video for the public to learn more about Supervisorial Redistricting and how to participate in the process - it's posted midway down the

Supervisory Redistricting webpage: <https://wedrawthelines.sjgov.org/>

Also, the SJC staff created Supervisory Redistricting social media pages:

Facebook: [facebook.com/sjredistricting](https://facebook.com/sjredistricting)

Twitter: <https://twitter.com/SJRedistricting>

To recap, early next week I'll connect with you about RAC email accounts (for those interested) and parking at our upcoming meetings - and I'll share the amended Outreach Talking Points.

Thank you all for your important role in San Joaquin County's Supervisory Redistricting effort.

Have a terrific weekend!

Glen

**Glen Fowler**
