Hello,

This email is to provide you with an update on the San Joaquin County (SJC) redistricting effort. As you may be aware, we are in the process of redrawing the boundaries of the county's five supervisorial districts. Redistricting takes place every 10 years after the federal census, when district boundaries for federal, state, and local elected offices are redrawn to reflect new population data and shifting populations. District lines can shape a community's ability to elect the representative of their choice, so it's important to get it right. That's why residents are encouraged to provide input on what kind of boundaries should be drawn to best represent their community.

**We are hoping you can continue to share this information with your email lists, so that we can broaden our outreach to all the residents, municipalities, and community groups within San Joaquin County.** Here are some resources to learn more and get involved.

During and after each RAC workshop, the public is invited to provide comments either in-person or by [email](#). The RAC outreach workshops are among a number of public meetings to provide redistricting information and receive input from the public. Videos of each RAC workshop/hearing will be available [online](#) for the public to view at their convenience.

**Schedule SJC representatives to present to your community group**

SJC has a redistricting group who are well-versed about the redistricting process and are available to meet with any community groups to explain how they can participate in the process by drawing proposed lines for their districts. If you would like to arrange for a SJC Redistricting Group Representative to present virtually or in-person to your group, please send an email to [redistricting@sjgov.org](mailto:redistricting@sjgov.org).

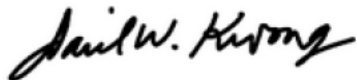

**How to participate in redistricting and stay informed**

SJC encourages county residents to participate in the process, including drawing their own districting boundaries online and submitting them to the county for consideration. To learn more about the redistricting process and ways to get involved, including a complete schedule of meetings, visit the [SJC redistricting website](#).

In addition to the webpage, SJC is providing information to county residents through an array of channels. To stay up to date with the latest information, we encourage you to [sign up for email updates](#), and follow SJC on [Facebook](#) and [Twitter](#). We will also be reaching out to local media, and community-based organizations and partners throughout the process.

As always, you can contact us at [redistricting@sjgov.org](mailto:redistricting@sjgov.org) with any questions about the redistricting process. Thank you for your help in spreading the word about this important process, and we look forward to your participation.

Sincerely,

David W. Kwong, AICP
