**Comments:**

If possible, I believe San Joaquin County US Representative District should be represented by one US Representative. Currently my address is included with people in Contra Costa County. I'm in rural Manteca, east of 99. I know that this may not be possible if the total county population is over 500,000. Perhaps the western part of the county such as Tracy could be included with the Bay Area.

Good day,

I may have already sent this question...

Are the shared drawings(DISTRICTS) submitted to the Redistricting Advisory Committee expected to be FREE OF ERROR i.e. gaps, non-contiguous border, etc... in order to be considered and used to influence the "official" map-drawing?

Respectfully,

Draft AI Zone Ordinance

Title 9 - DEVELOPMENT TITLE  
DIVISION 6. AGRICULTURAL ZONES

DIVISION 6. AGRICULTURAL ZONES

CHAPTER 9-600.3 AGRICULTURAL ZONES: INTENT AND ORGANIZATION

9-600.3 TITLE AND INTENT.

Division 6 constitutes the agricultural zones. The intent of this Division is to prescribe use, lot, and structure regulations for agricultural zones within San Joaquin County, consistent with the Land Use portion of the General Plan. The names and intents of the agricultural zones are as follows:

- (a) **AG Zone.** The General Agriculture (AG) Zone is established to preserve agricultural lands for the continuation of commercial agricultural enterprises. This zone is intended to implement the General Agriculture land use category of the General Plan.
- (b) **AI Zone.** The Agriculture-Industrial zone is established to provide limited dry uses that complement both agricultural and industrial businesses on parcels not considered ideal locations for farming due to site location, irregular shape, or classification of farmland. This zone is intended to implement the Agriculture-Industrial land use category of the General Plan.
- (c) **AL Zone.** The Limited Agriculture (AL) Zone is intended to recognize and preserve areas that contain existing concentrations of small-scale agricultural operations and dwellings. This zone is intended to implement the Limited Agriculture land use category of the General Plan.
- (d) **AU Zone.** The Agriculture-Urban Reserve (AU) Zone is intended to retain in agriculture those areas planned for future urban development in order to facilitate compact, orderly urban development and to ensure the proper timing and economical provision of services and utilities. This zone also is intended to implement the Agriculture-Urban Reserve land use category of the General Plan.
- (e) **ARMA Zone.** The goal of the Agricultural Resource Management (ARMA) zone is to ensure the long-term viability of commercial agriculture properties. This zone is intended to provide areas for the continued production of commercial agriculture and to protect lands that are best suited for permanent agriculture from encroachment by incompatible land uses. The ARMA zone also is intended to complement General Plan policies regarding the preservation of agricultural land and the protection of compatibility thereof in the Williamson Act contracts.

One of the primary objectives of the ARMA zone is to permit only those uses and activities that will not compromise the viability of surrounding agricultural operations. The magnitude of any compatible, accessory recreational activities shall be proportional to the size of the parcel. Any nature preserve buffer area needed to separate or reduce conflicting activities shall be located on-site. The Agricultural Resource Management (ARMA) zone shall be applied to land that is under Williamson Act contracts or under permanent security cover contracts and land in the primary delta.

This first of all is illegal, in September of 2020, when I first came inside of the Central Valley Housing Office for assistance, my information was suppose to be verified at this time, no more than a month process, and for me personally, when I processed these types of application, I would process them, as I receive the information, for several years I have been personally discriminated against, for a variety of reasons, that are not valid to housing, or any type of assistance, especially when it has to do with your individual livelihood. This is extremely upsetting, as I have completed online applications, the computer gets hacked, and I am unable to submit my information, this goes back to 2013, at another agency, during an interview for part time work, as I stated because of a shooting I ended up losing memory, and it seems that I was taken completely advantage of. There Has been many people playing games with my personal life, my personal finances, and harassing me every chance they recieve. Being that I cannot obtain justice through the local police department, or advocacy agencies, I simply just have t stand my ground and protect myself, from low life drug addicts apparently, that hate my father Mr. Godfrey, there are many people that I no longer like for a variety of reasons;however, it gives none of you involved the right to harass me through services, and agencies that I actually created, funded and implemented. Another issue, Visionary Home Builders, my sons Anthony Adams prostitute and mother of five of his children, just took my agency and did as they choose, these people many of them, don't even have green cards, meaning they are illegals, then I also deal with the hate and harassment from local agencies, such as Victims witnesses, in which I created, and funded for the sake of an abused victim in the past. Nonetheless, I am not able to receive assistance because of drama, between individuals, that has nothing to do with me , as well as literally having serpents inserted inside of me, because of hateful, low life, no moral compass having people. This goes against the conduct and work ethics, that's allowed by law, but the law is not even legitimate law. Ive been homeless and living like this for several years illegally because of racism, prostitutes, and hate towards my father who hasnt done anything to these people, that they didnt want done, my sons sex addictions, and his affiliates cleaming out agencies, when funds are desperatly needed to clean communities. I don't support drug habits, nor do I enable addicts to get drugs from my hard earned money and properties. To This day I am still at the bus stops, because of people not caring, and playing games with my life. When do I see justice, and when do these people get out my properties, so that I can go home. If this had been myself and my father , we would have been arrested, this is certainly an injustice, many attempts of homicide towards my life, and just thrown out to the apes, sheeps , wolves, and scavengers. Completely racist, ignorant, and unfair. I've contacted the victims witness program for years, completed my application, and received nothing, myrape kit was thrown out in the parking lot, a racist nurse hurt me badly, just doing something simple like drawing blood. All I have constatly endured, is attacks, false imprisonment, theft on a major scale, rape, abuse, tauting, bullying towards my daughters, brainwashing towards my daughters, nothing godd at

all, and I have submitted everything that was needed, to housing, central valley housing, many , many online applications to affordable housing, even to my own project, Visionary Home Builders, so where is my justice, certainly there isnt peace left in me, after this. In and out of three shelters, laced, harassed, and discriminated against, was sick, then I go to pay rent in a legal motel I own on Plymouth Rd, and harassed by a huge pacific islander he/she from Anthony's group of racist people, that I simply will no longer tolerate. I don't care about no one's personal feelings, especially in these agencies that were created for specific reasons, of aiding those in need of the services, and when I contact these people, all I have gotten is my legal rights, civil rights, housing rights, humanity rights, women's rights, parental rights, are all violated because of racism, and hate, envy and greed, which has caused others in my personal homes, and me being on bus stops since September 5th, 2020. Where is my justice???????????????????? I copied a lot of individuals on this email, to reach these agencies that are not doing their jobs, and to express to those involved, how you people have ruined a part of me forever. Because of racism, harsh forms of discrimination, in a variety of ways, lack of professionalism, and hatred. None of which has anything to do with adequate services, to those in need of affordable housing assistance, which is the point of each agency created and funded.

The recent Redistricting workshop, RAC, [SIGOV.org](#) was appreciated. It was Sept. 28, in the afternoon, in Lodi, CA. A panelist suggested adding the "community of interest", "COI".  
So, Coalition seemed the given way to do so.

ADD SUPERVISOR 6, AT LARGE, AGRICULTURE INDUSTRY PLUS VETERANS. That is outside of towns and cities, including Mokelumne River plus a Veteran Hospital Center (See Attached snapshot of map proposed). Agriculture Industry is the #1 economy with fresh food crops (trees of nuts, olives & cherries; grape vines; and variety row crops, with much 50% to USA, including dairy. Also, 2/3 of the Delta is San Joaquin County. Yet farmers are taxed without rural representation, with increasing taxes. All five [sigov.org](#) supervisors are urban.

\*Note "COI": See Attached snapshot of map proposed, with Coalition Builder, and Community of Interest, COI: Farmers Industrial plus Veterans. This includes voters, like taxpaying farmers, in all areas — outside of towns and cities.

Add Supervisor 6, At Large, Agriculture Industry plus Veterans. That is outside of towns and cities, including Mokelumne River plus a Veteran Hospital Center. (See Attached snapshot of map proposed.) Agriculture Industry is the #1 economy with fresh food crops (trees of nuts, olives & cherries; grape vines; and variety row crops, with much 50% to USA, including dairy. Also, 2/3 of the Delta is San Joaquin County. Yet farmers are taxed without rural representation, with increasing taxes. All five [sigov.org](#) supervisors are urban. (See Attached snapshot of map proposed.)  
Presently, 1/3 of county is District 4. (North and East sides of SJ County), yet Mokelumne River is threatened in upstream Lockford (from out-of-state company funding for greenhouses with trucking on 23 acres), and from west by Terminus Tunnel plan toward Los Angeles (with ocean) and East Bay, EBMUD (since Pardee Dam, 1929, towards Port of Oakland). In 1977, Desalination was invented at UCB by J. Lebowitz, PhD, 1977, since used in 100 nations, and Stanford has salt-energy in Desalination research, as more cost effective than concrete conveyances. Moreover, USACE Funds for dredging Delta River and levee maintenance, were sent to Washington State by a former US Senator, and then flooding with costs for water bonds, to say the least (Sacramento, 2014-15). San Joaquin County  
Total 777,112  
Coalition 730,866 94%

This map refers to the county. With Agriculture Industry concerns, others have suggested two Assembly representatives for the area. Also, the Congressional district needs to recognize the SJ County for #1 Agriculture Economy, plus continued concerns for Veteran voices for a county veteran hospital.

Sincerely, (Prof) [REDACTED] Ed Admin. Curriculum; and Grower JJJJShawPR Lodi, CA 95242 (562) 233-7300 private (not for texting)

Note: DISTRICT 4, Current and proposed 1/3 of San Joaquin County (North and East side Mokelumne River (East to West), features GREEN outline of towns and cities. At large is PURPLE (for red, white & blue) since most agriculture industry families have veteran members. Altho, Tracy is purple on the map, it does have the Army Depot (?) and Tracy River bridge, with potential for salt energy in desalination. APN: Since the privacy of APN/parcels are registered, this is a count, but Ag Commissioner department needed more time to count parcels for data. (They were contacted after the last workshop, which was held in Lodi, Sept. 28.) One sixth of 777,000 for the county is 130,000 if that helps, for a 6th Supervisor, to be added at-large for outside of towns and cities.

The San Joaquin (County) Farm Bureau wrote concerns a year ago for farmers with fresh food crops and youth (given in the county planning binder, for the meeting during the pandemic, April 15, 2021).

P S LEGION/VETERANS HALL: The almost 75 year American Legion Hall, Lodi Post 22, was recently sold to a Sacramento Pakistani. But presently, it is with a Legion Office (at \$1,000 per month rent, where insurance was costly). It is near youth sports, three highways and the National Guard.

VETERAN CENTER: Also, under US Rep. Pombo the needed Veterans Hospital Center was approved for funding, yet never built. Veterans have to drive 2 1/2 hours and round trip to San Jose, and nationwide it is almost 20 veterans a day in suicide. For the #1 Economy, Agriculture Industry, possibly adding District 6 for Supervisor-at-large could include the needed Veteran Hospital Center (including rehabilitation for habitual addictions, alcoholism, PTSD syndrome, etc.) (Congressman McNerney has held a town hall hearing for veterans.)

AGRICULTURE, LODI WEST: The "Concrete jungle" of new housing — creeps westward on top fertile soil in the world (San Jose grew vegetable crops, but now has

housing blocks, some with no green trees )

SAN JOAQUIN COUNTY: May the voice by vote of farm families, 3rd-6th generation families as taxpayers, be heard by rural votes That is even by adding a District 6 Supervisor for at-large in Farmer Industry as well as honorable service of USA Veterans, as our borders are compromised

NOTES ON RIVER(S): Drought Recycles (worst since 1977) with Water Exports:

RIVERS: Presently, 1/3 of county is District 4, (North and East sides of SJ County), yet Mokelumne River is threatened in upstream Lockeford (from out-of state company funding for greenhouses with trucking on 23 acres), and from west by Terminus Tunnel plan toward Los Angeles (with ocean) and East Bay, EBMUD (since Pardee Dam, 1929, towards Port of Oakland In 1977 In Mokelumne Hill there were a four marijuana drug busts, by that Calaveras county's Sheriff Deputies (SacBee, about July 2021)

DESAL: Desalination was invented at UCB by J Leibovitz, PhD, 1977, since used in 100 nations Further, Stanford has salt-energy in Desalination research, as more cost effective than concrete conveyances

Moreover, USACE Funds for dredging Delta River and levee maintenance — are needed Funds were sent to Washington State by a former US Senator, and then flooding with costs for water bonds, to say the least (Sacbee, 2014-15) In 2015 the Clarksburg Workshop reported 80% non-compliance in Delta Levee Maintenance
