Hello Redistricting Advisory Committee (RAC) members:

Wednesday's RAC meeting went really well - the RAC is making some incredible progress!

RAC 2 (10/27) and RAC 3 (11/10) Meeting Times:

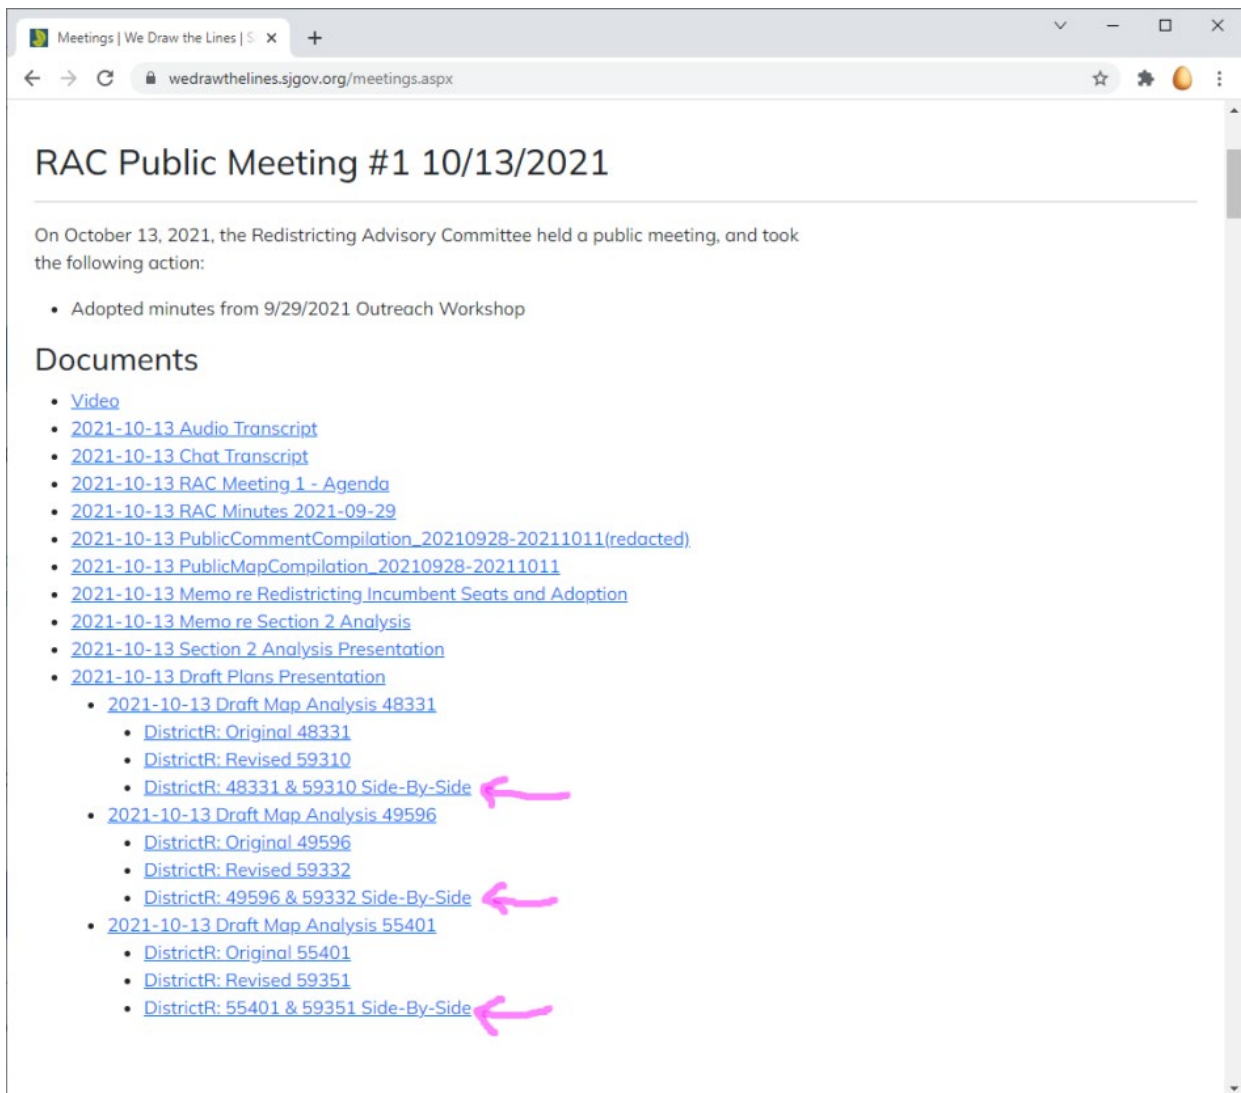

Per Chair DeBrum, the plan is to keep the RAC meeting times as posted: 6 to 8 PM. Should more time be needed to conduct RAC business, the RAC can move to extend the meeting time (in 15-minute increments).

Side-by-Side Maps:

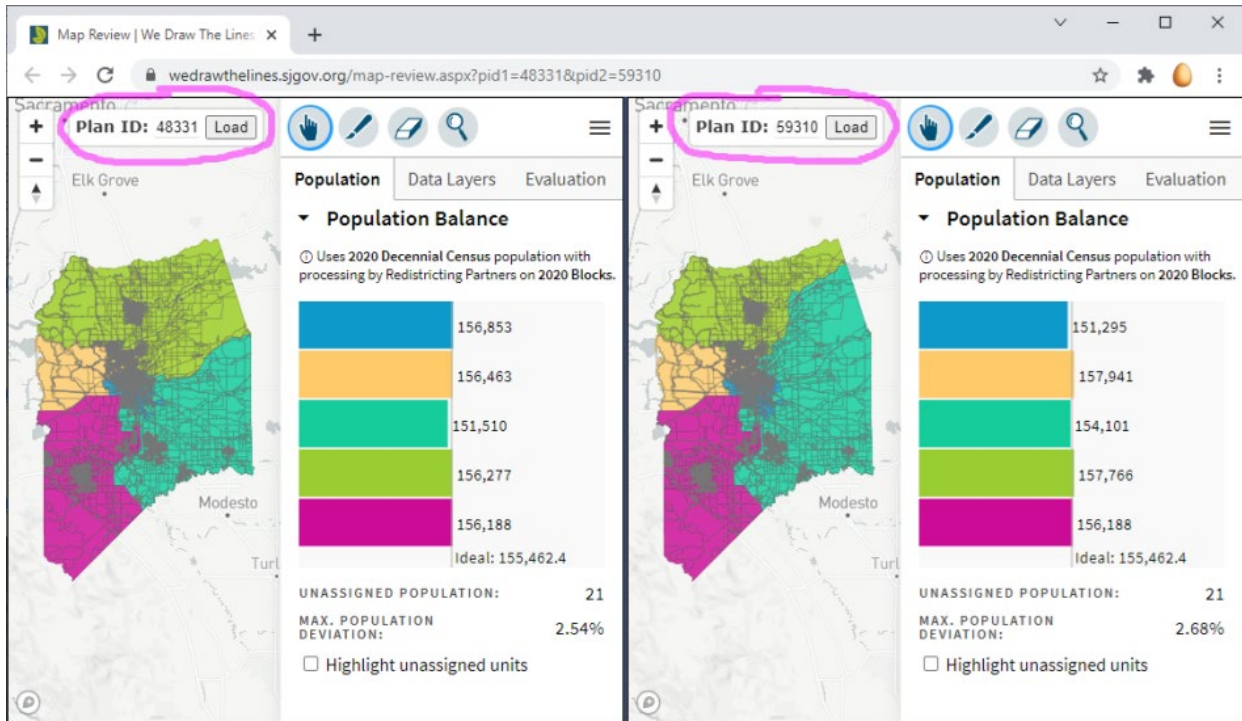

Per the RAC's request, staff will provide maps in side-by-side iterations, both in PowerPoint presentations and in print.

In addition, the IT and GIS staff added a tool that allows viewing two DistrictR plans side-by-side for comparison.

Staff added links to the 10/13 Meeting (available here: <https://wedrawthelines.sjgov.org/meetings.aspx>) to view side-by-side the as-submitted and as-elevated versions of the three public map submissions considered during the RAC meeting:

The result will be similar to this:

Note that you can use this tool to compare ANY two plans side-by-side – you only need to know the “plan id” numbers of the desired plans, then type them in and press the “Load” button.

Wishing you all a fantastic weekend!

Glen
