

WEBVTT

1

00:00:21.750 --> 00:00:22.140
right here.

2

00:00:44.610 --> 00:00:57.180
Welcome to the same AMI AMI redistricting advisory committee mapping tool demonstration, this is one way that information in your community of interest and inform the redistricting advisors.

3

00:02:39.720 --> 00:02:46.620
SJC Redistricting: you're starting a few minutes here just want to make sure that you sign in for the supervisor or district effort.

4

00:02:47.400 --> 00:02:59.280
SJC Redistricting: restaurant right here to my left or use the ones outside and in case of emergency, please let us know, and we will basically take you out one SEC doors Okay, thank you and i'm going to hand it over here, thank you.

5

00:03:37.980 --> 00:03:46.320
SJC Redistricting: Quick announcement and we, because this is a workshop, I want to go ahead and make an announcement to encourage alternate to participate.

6

00:03:46.500 --> 00:03:57.930
SJC Redistricting: I think I may have chilled that when we were really concerned about an alternate participation in the formal meeting and so we're realizing that that I made a mistake by sort of chilling that in that.

7

00:03:58.500 --> 00:04:09.840
SJC Redistricting: involvement and I want to encourage that so to the extent that ultimately want to make comments and, of course, obviously, submit maps, please go ahead and feel free to do that the Rules of Procedure in regards to.

8

00:04:09.840 --> 00:04:12.750
Diane Alcorn: Participation apply to the formal meetings in regards to the.

9

00:04:12.780 --> 00:04:17.010
SJC Redistricting: Actual map so i'm just trying to make them nothing so go ahead.

10

00:04:28.860 --> 00:04:29.820

Please come to order.

11

00:04:31.980 --> 00:04:32.610

SJC Redistricting: NATO leaders in the.

12

00:04:41.190 --> 00:04:50.880

anne baird: United States of America America, which is one nation under God indivisible with liberty and justice for.

13

00:04:55.530 --> 00:04:56.580

All called place.

14

00:05:08.460 --> 00:05:09.270

anne baird: I can't hear.

15

00:05:12.180 --> 00:05:14.010

alice: You we can't hear you.

16

00:05:15.180 --> 00:05:16.950

alice: Steve from frozen.

17

00:05:18.060 --> 00:05:18.480

I bet.

18

00:05:19.980 --> 00:05:22.020

alice: Alice English President.

19

00:05:23.520 --> 00:05:27.270

SJC Redistricting: And Baird here Bob mooney.

20

00:05:29.160 --> 00:05:36.030

james woods grunsky: James prensky President Mike morell with frozen Mitchell Oscar.

21

00:05:37.560 --> 00:05:39.480

oscar valdez: Oscar Valdez person.

22

00:05:40.650 --> 00:05:42.480

American, you know as an.

23

00:05:43.680 --> 00:05:46.470

AngelAnn Flores: angel and Flores hasn't.

24

00:05:47.580 --> 00:05:48.930

AngelAnn Flores: He saw Fernandez.

25

00:05:51.690 --> 00:05:52.590

Steve white.

26

00:05:54.510 --> 00:05:55.260

mamie store.

27

00:05:56.610 --> 00:05:59.040

Rich Silverman: Richard silberman Rosa.

28

00:06:01.680 --> 00:06:23.580

SJC Redistricting: Thank you very much, just an announcement in today's rat outreach workshop, we will be doing math visualizations as we did in the prior direct outreach workshop and the Rack will be begin drawing maps with the Rack meets on October the 13th so just want to make that announcement.

29

00:06:24.660 --> 00:06:26.190

SJC Redistricting: Item number three.

30

00:06:29.040 --> 00:06:38.490

SJC Redistricting: Item number three is the action items from the 915 minutes for approval like i've had the most in place.

31

00:06:40.710 --> 00:06:41.640

anne baird: Second, second.

32

00:06:42.180 --> 00:06:49.170

SJC Redistricting: Property moved and seconded to move on the minutes of 915 all in favor signify by saying Aye.

33

00:06:52.200 --> 00:06:52.770

Kashara Ryno: pose.

34

00:06:54.990 --> 00:06:55.860

fortune carries.

35

00:06:57.420 --> 00:07:02.340

SJC Redistricting: going on to item for, are there any agenda additions or deletions.

36

00:07:04.950 --> 00:07:05.850

I mean one online.

37

00:07:09.180 --> 00:07:11.550

It has anything, no one here.

38

00:07:12.840 --> 00:07:13.860

SJC Redistricting: Thank you very much.

39

00:07:14.910 --> 00:07:19.380

SJC Redistricting: move on to public comment, we have anyone who wishes to address.

40

00:07:20.400 --> 00:07:20.700

or.

41

00:07:22.260 --> 00:07:22.920

Anyone.

42

00:07:24.270 --> 00:07:24.660

mine.

43

00:07:26.100 --> 00:07:26.880

No one online.

44

00:07:27.900 --> 00:07:28.710

Anyone here.

45

00:07:32.820 --> 00:07:34.650

Mary Mitracos: Thank you Alex is there.

46

00:07:39.300 --> 00:07:40.920

SJC Redistricting: So if you have any comments or.

47

00:07:40.920 --> 00:07:43.230

Mary Mitracos: Questions then in the team.

48

00:07:44.730 --> 00:07:46.320

Mary Mitracos: yeah okay.

49

00:07:50.610 --> 00:07:51.090

Mary Mitracos: For.

50

00:07:52.320 --> 00:07:52.560

Mary Mitracos: It.

51

00:07:54.810 --> 00:07:55.470

Mary Mitracos: Okay.

52

00:07:57.990 --> 00:08:00.900

SJC Redistricting: i'll make it brief was 500 words like.

53

00:08:03.000 --> 00:08:10.740

SJC Redistricting: Okay, one is we have major concerns with taxation without representation.

54

00:08:12.150 --> 00:08:17.490

SJC Redistricting: All the supervisors are were urban and we're rural.

55

00:08:18.870 --> 00:08:21.630

SJC Redistricting: Most of them county its agricultural.

56

00:08:22.860 --> 00:08:23.760

SJC Redistricting: The second it.

57

00:08:24.960 --> 00:08:25.170

Is.

58

00:08:26.340 --> 00:08:29.640

SJC Redistricting: we're concerned about the trend towards divisiveness.

59

00:08:30.780 --> 00:08:37.830

SJC Redistricting: Which is mark sister mark I sleep pulling globalist, so I think we need to watch that.

60

00:08:39.750 --> 00:08:43.770

SJC Redistricting: And third, the drought recycles with mcollum a river.

61

00:08:45.390 --> 00:08:51.420

SJC Redistricting: site for different directions, we need to be represented, to protect protect mcollum a river.

62

00:08:54.090 --> 00:09:02.760

SJC Redistricting: To the upper election integrity, I had been a little specter at an orange county and Bob dornan and what.

63

00:09:07.410 --> 00:09:08.100

Dan: doesn't see that.

64

00:09:08.370 --> 00:09:08.850

When.

65

00:09:11.430 --> 00:09:11.640

Dan: I.

66

00:09:14.250 --> 00:09:16.260

Dan: drop balance as.

67

00:09:19.380 --> 00:09:20.730

SJC Redistricting: Electronic machines.

68

00:09:21.990 --> 00:09:26.640

SJC Redistricting: Thank you to hang on a second because seems like we've got some some background noise.

69

00:09:27.780 --> 00:09:28.560

that's coming in.

70

00:09:31.620 --> 00:09:32.130

i'm sorry.

71

00:09:48.360 --> 00:09:48.960

Dan: We got that.

72

00:09:50.400 --> 00:09:52.890

SJC Redistricting: Thank you very much, I apologize go ahead.

73

00:09:56.400 --> 00:09:59.250

SJC Redistricting: The last one was election integrity.

74

00:10:01.080 --> 00:10:03.690

SJC Redistricting: With pull centers because we.

75

00:10:05.130 --> 00:10:14.910

SJC Redistricting: Back in 2004 California, a lot and I said that the electronic machines are subject to fraud just moving to.

76

00:10:17.250 --> 00:10:23.250

SJC Redistricting: The impersonal voting was to a dropbox, so this is a serious issue.

77

00:10:24.450 --> 00:10:27.240

SJC Redistricting: So I hope I made it clear, those four points.

78

00:10:28.560 --> 00:10:30.750

Thank you, thank you very much you're welcome.

79

00:10:32.280 --> 00:10:40.050

SJC Redistricting: Yes, Sir his chair, we did receive a couple public comments through the redistricting email.

80

00:10:41.460 --> 00:10:51.240

SJC Redistricting: let's see i'll read off the first one here, this is just a summary of the ones we received, we had an email from darryl me baumbach asking how is it possible that mcnerney.

81

00:10:51.780 --> 00:10:56.340

SJC Redistricting: became the representative Tracy Lodi and stocked and residents when he is a Bay area resident.

82

00:10:57.150 --> 00:11:03.210

SJC Redistricting: And Mr bomb bomb concluded that it was made possible by redistricting making the bay area part of the same law King area.

83

00:11:04.110 --> 00:11:13.050

SJC Redistricting: Mr baumbach added that he finds it ridiculous that any honest person would include that Bay area interests of any relationship to Sam walking interests.

84

00:11:13.920 --> 00:11:26.730

SJC Redistricting: Also, we received an email from a resident who wants to participate in redistricting and finally we received an email from a resident who requested to be removed from our email distribution list, since he had moved to Georgia.

85

00:11:27.960 --> 00:11:35.490

SJC Redistricting: also wanted to note chair that we received some proposed maps that were submitted by the public and.

86

00:11:36.510 --> 00:11:38.370

SJC Redistricting: The those map map maps.

87

00:11:39.540 --> 00:11:47.760

will be reviewed today through part of redistricting partners consultants presentation so that'll be further down the agenda.

88

00:11:48.930 --> 00:11:53.070

Thank you, thank you Is there anyone else, yes, sir.

89

00:11:58.380 --> 00:11:58.830

sure.

90

00:12:00.150 --> 00:12:03.270

Now you, you will be able to ask questions and have input.

91

00:12:05.910 --> 00:12:07.920
anyone else any other comments.

92

00:12:10.680 --> 00:12:20.460

SJC Redistricting: And no one online correct, thank you very much we'll move on to the Rack Member disclosures, are there any disclosures by Members.

93

00:12:21.150 --> 00:12:22.350

anne baird: Yes, I have one.

94

00:12:23.580 --> 00:12:29.190

anne baird: I talked to a group called Stockton strong on the 15th of September.

95

00:12:30.420 --> 00:12:35.970

anne baird: They were formed when covert hit, to make sure that folks understood.

96

00:12:36.990 --> 00:12:41.220

anne baird: How they could get help and I told them about this Lodi meeting.

97

00:12:42.630 --> 00:12:43.140

Thank you miss.

98

00:12:46.440 --> 00:12:47.250

anyone else.

99

00:12:49.020 --> 00:12:49.710

alice: I have one.

100

00:12:50.730 --> 00:12:52.710

alice: Here, this is Alice English.

101

00:12:53.970 --> 00:12:54.510

alice: Before.

102

00:12:56.130 --> 00:13:10.860

alice: Okay, hear me okay um I I met with Tracy noon Rotary yesterday and I provided them with the information of the websites for the redistricting and also for.

103

00:13:11.340 --> 00:13:19.770

alice: district are for the mapping I also gave them the websites for today's meeting and the website for future meetings.

104

00:13:20.610 --> 00:13:38.970

alice: It was done through zoom and I left a hard copies of some of the hive mappings that we have when will when Tracy I left that information at his office I left about 15 or 20 of them for for the guests that were at the meeting on.

105

00:13:40.140 --> 00:13:47.700

alice: Tuesday September 21 I also announced it at the City Council meeting about the meeting today and I also gave them the website for today.

106

00:13:49.110 --> 00:13:54.060

alice: And next Thursday October 7 I will be meeting with South site community.

107

00:13:55.380 --> 00:14:11.910

alice: organization and I will be giving them the Spanish version and just a brief update how to get into the website for future meetings and the mappings and the tools that are available and that's all I have to disclose for now, thank you very much, Miss English, the side becky.

108

00:14:13.260 --> 00:14:26.550

AngelAnn Flores: All right, on September 23 I gave a presentation to the Stockton younger women's Task Force and that presentation i'd like to thank redistricting partners, I.

109

00:14:27.150 --> 00:14:36.750

AngelAnn Flores: used the wonderful outreach workshop materials and also sent participants to the website where they're able to access and download it themselves.

110

00:14:38.430 --> 00:14:49.110

SJC Redistricting: Then on September 28 I gave a presentation to the united way board of directors, as well as the CEOs of the not for profits in San Joaquin county.

111

00:14:49.770 --> 00:15:07.290

SJC Redistricting: Were guarding redistricting I have scheduled in the future, a meeting with a Thornton Community district on October six and a little later on November 13 with the League of women voters, I did explain to them our work would

be completed by that date.

112

00:15:08.640 --> 00:15:19.680

And, but they are have i'm able to tell them in retrospect, what we did, and then they're also having somebody from the state redistricting effort at that meeting.

113

00:15:21.300 --> 00:15:32.340

Very good, and on October 28 I will have a presentation before the mantega sunrise corners and making the presentation at that group.

114

00:15:34.620 --> 00:15:35.370

SJC Redistricting: Anything else.

115

00:15:36.690 --> 00:15:38.160

AngelAnn Flores: hi angel and Flores.

116

00:15:39.660 --> 00:15:50.820

AngelAnn Flores: I just want to also let you know that I met with tricia from aclu and I just provided her with the dates of the meetings and the website for the mapping.

117

00:15:52.320 --> 00:15:52.710

Thank you.

118

00:15:55.320 --> 00:15:55.950

AngelAnn Flores: anyone else.

119

00:15:57.300 --> 00:16:05.010

james woods grunsky: yeah James currency here just let you know I plan on meeting with the California trucking association probably before next meeting next meeting.

120

00:16:06.660 --> 00:16:07.980

james woods grunsky: will probably be the time disclose it but.

121

00:16:09.330 --> 00:16:10.260

james woods grunsky: that's something that's in the works.

122

00:16:12.780 --> 00:16:15.570

james woods grunsky: And i'm sorry, who do we have on online and speaking.

123

00:16:17.670 --> 00:16:17.970

james woods grunsky: James.

124

00:16:19.440 --> 00:16:20.580

james woods grunsky: Thank you, Mr Brown skin.

125

00:16:23.580 --> 00:16:24.240

anyone else.

126

00:16:27.630 --> 00:16:29.160

E's Iphone 13 Pro Max : Yes, he saw Hernandez.

127

00:16:31.440 --> 00:16:50.910

E's Iphone 13 Pro Max : i'm sorry he saw Hernandez I did talk, yes, I did talk with the San Joaquin Labor Council about the redistricting and I do give them the information on this meeting I also gave them the Web link for the map the drawing that for the map, we also did it for a per se I you tend to ones.

128

00:16:51.150 --> 00:16:51.810

cope committee.

129

00:17:00.810 --> 00:17:01.500

Anything else.

130

00:17:03.420 --> 00:17:05.250

E's Iphone 13 Pro Max : No, Sir, thank you.

131

00:17:06.810 --> 00:17:10.710

E's Iphone 13 Pro Max : anyone else here in the room, or on online.

132

00:17:12.750 --> 00:17:27.030

SJC Redistricting: No public funding very good Thank you we'll move on to Community contacts we I think we discussed that upcoming events that the participants of the Rack committee will be working on.

133

00:17:28.920 --> 00:17:33.390

SJC Redistricting: And let's move on to the REC outreach presentation.

134

00:17:38.040 --> 00:17:38.910

And that'd be missed it.

135

00:17:42.900 --> 00:17:44.370

From redistricting partners.

136

00:17:54.180 --> 00:17:57.930

SJC Redistricting: hi oh good to see everyone again.

137

00:18:00.870 --> 00:18:05.850

SJC Redistricting: So welcome and especially welcome at to.

138

00:18:06.900 --> 00:18:08.370

see if I can get this working.

139

00:18:13.890 --> 00:18:14.670

A little closer.

140

00:18:17.280 --> 00:18:17.610

Okay.

141

00:18:21.270 --> 00:18:31.470

SJC Redistricting: especially welcome to the public, this is incredibly important to have people from the Community involved in the process.

142

00:18:31.890 --> 00:18:42.330

SJC Redistricting: You are going to know your communities, better than any demographer or any elected official, so we are thrilled to have.

143

00:18:42.960 --> 00:18:57.990

SJC Redistricting: folks out here today, and hopefully online today will be will be going through what is redistricting the basics traditional redistricting principles what our communities of interest and why they matter.

144

00:18:58.950 --> 00:19:18.690

SJC Redistricting: The mapping tool which is district, or that the county is using to collect community of interest input then we'll get into public testimony and the best way you can provide your own testimony and then we'll get into the public hearing schedule.

145

00:19:22.020 --> 00:19:33.450

SJC Redistricting: Okay, so what is redistricting as the slide says redistricting is the process of adjusting district lines every 10 years after the release of the US census.

146

00:19:34.410 --> 00:19:43.260

SJC Redistricting: So folks tend to be a little bit more familiar with this happening at the federal level and the state level so Assembly and Senate seats.

147

00:19:43.860 --> 00:19:57.270

SJC Redistricting: But every local government has to balance their districts again so just like San Joaquin county did 10 years ago, we are going through the process once again and beyond, creating.

148

00:19:57.600 --> 00:20:06.510

SJC Redistricting: districts that are equal in population redistricting also serves as a way to empower local communities and preserve voting rights.

149

00:20:11.100 --> 00:20:21.180

SJC Redistricting: So this is the structure that San Joaquin county has decided to go forward with this is a redistricting advisory committee, it is a.

150

00:20:21.630 --> 00:20:36.990

SJC Redistricting: board appointed 10 Member Rack, which is here to assist with collecting Community input and making sure that they have a map to present.

151

00:20:37.470 --> 00:20:47.520

SJC Redistricting: To the board at the end of this process, so the goals of the Rack include conducting Community our outreach workshops, like the one today I.

152

00:20:47.940 --> 00:21:01.050

SJC Redistricting: identify communities of interest from public inputs, create a set of draft district maps based off of the public input and then recommend one map to the board of supervisors.

153

00:21:03.210 --> 00:21:12.870

SJC Redistricting: And so here's the timeline you can see that today we are outreach number three so September 29.

154

00:21:13.710 --> 00:21:39.240

SJC Redistricting: We are about to start the map mapping process, so what the next meeting, you will have a chance to look at draft map and then by will the deadline to have the map past is December 15 so everything goes well December seventh the maps will be approved by the Board of Supervisors.

155

00:21:46.140 --> 00:22:01.650

SJC Redistricting: So this is the list of redistricting principle that we use to help us in this process, they are here to prevent gerrymander is and make sure that everything is fair and transparent.

156

00:22:02.610 --> 00:22:14.310

SJC Redistricting: This here is a ranks criteria according to the fair maps so first and foremost every district has to be relatively equal in size and we base that.

157

00:22:14.640 --> 00:22:24.450

SJC Redistricting: off of the US census data, so we are looking at total population, not citizen not voters, but the US census data next.

158

00:22:25.200 --> 00:22:35.910

SJC Redistricting: The districts, have to be contiguous, so this is a word you're really not going to hear outside of redistricting and basically just means that you keep the entire district coal.

159

00:22:36.300 --> 00:22:47.010

SJC Redistricting: And that you can draw it with one line next we want to maintain communities of interest and we're going to get more into what a community of interest is but.

160

00:22:47.430 --> 00:22:58.500

SJC Redistricting: A quick definition is it's a group of people, a neighborhood a community who have similar policy concerns and would benefit from being maintained in a single district.

161

00:22:59.280 --> 00:23:09.420

SJC Redistricting: Next, we want to follow city county local government lines when practicable and then keep districts compact and appearance and and function.

162

00:23:10.530 --> 00:23:14.400

SJC Redistricting: And so, going back to communities of interest.

163

00:23:15.420 --> 00:23:29.610

SJC Redistricting: way to think about this is how would you describe your community to somebody who just moved there right So is there anything that is unique about your community that sets you, apart from the surrounding areas.

164

00:23:31.770 --> 00:23:36.930

SJC Redistricting: Another way of thinking about it is they are the building blocks of a district.

165

00:23:38.550 --> 00:23:46.320

SJC Redistricting: A community could include ethnic and language minority groups, but this is really a subjective.

166

00:23:46.950 --> 00:23:56.670

SJC Redistricting: definition and it's supposed to be as inclusive as possible, I do want to point out that under the federal voting rights act, there are protected classes, and that includes.

167

00:23:57.060 --> 00:24:10.710

SJC Redistricting: Listen Latinos Asians and African Americans but also communities of interest may include raise it cannot be the predominant factor when drawing district boundaries.

168

00:24:11.610 --> 00:24:24.090

SJC Redistricting: And I wanted to include this list of communities of interest, so you can see how diverse and inclusive, it is so it goes well beyond your neighborhood it includes.

169

00:24:24.990 --> 00:24:36.960

SJC Redistricting: Economic interests school districts media markets, so I usually like to say, if you can make the argument that your community is a community of interest than it probably is.

170

00:24:38.160 --> 00:24:51.150

SJC Redistricting: Unless it's one of these three things so under the fair maps act, it prohibits these three groups from being considered as a community of interest again to prevent gerrymander so.

171

00:24:52.710 --> 00:24:59.940

SJC Redistricting: political party affiliation incumbents political candidates are not considered communities of interest.

172

00:25:00.450 --> 00:25:07.920

SJC Redistricting: And then the next part of well not prohibited prohibited by the fair maps act it's just incredibly hard to draw.

173

00:25:08.280 --> 00:25:17.070

SJC Redistricting: The groups of similarly minded people who do not share a geographic location or communities of interest that are county wide so.

174

00:25:17.370 --> 00:25:33.660

SJC Redistricting: When we are drawing the maps, we want to make sure that we are protecting communities and not splitting them up so we're not diluting their voices and if a community is like 90 100% of the county that makes it a little difficult to draw.

175

00:25:36.060 --> 00:25:47.580

SJC Redistricting: And we're about to get into some examples of what a community of interest is and before we do let's just go over some questions that might help you think about your own communities of interest.

176

00:25:48.030 --> 00:26:05.700

SJC Redistricting: So first one does the Community have a shared culture characteristic or bond we've been hearing a lot of folks recently talk about how their communities have come together during coven 19 or during wildfires and how they shared resources.

177

00:26:06.840 --> 00:26:13.950

SJC Redistricting: or we've heard stories about neighborhoods who share a celebration every year.

178

00:26:14.970 --> 00:26:19.260

SJC Redistricting: So, think about what makes you unique and brings us together.

179

00:26:20.310 --> 00:26:32.820

SJC Redistricting: Next is the Community geographic in nature, can it be mapped it's incredibly helpful for demographers to know what the street boundaries are so if you have an idea.

180

00:26:33.300 --> 00:26:42.780

SJC Redistricting: Of where your Community interests boundaries are so street names, maybe a landmark that would be incredibly helpful when giving testimony.

181

00:26:43.290 --> 00:26:56.520

SJC Redistricting: And then, finally, what is the community's relationship with the jurisdiction being redistricting so with the county and how is it affected by the policy decisions made by the Board of Supervisors.

182

00:26:58.290 --> 00:27:01.410

SJC Redistricting: I believe our Chair is going to help us.

183

00:27:02.730 --> 00:27:13.440

SJC Redistricting: With the next part of that, like you missed it, so the question is a group of renters who live in downtown stock and testify city county redistricting committee.

184

00:27:14.460 --> 00:27:17.610

Would this be considered a community of interest.

185

00:27:19.260 --> 00:27:31.350

SJC Redistricting: The answer is yes, this group of residents can easily be mapped in a district area and they share a common policy interest which can be addressed through legislation or public services.

186

00:27:38.310 --> 00:27:46.620

SJC Redistricting: Historically, recognized town dating back to the late 1800s but now has a minimal population is within the lines of the county.

187

00:27:47.790 --> 00:28:03.330

SJC Redistricting: shows the county redistricting committee prioritize this historical town when drawn their mouths, and the answer is yes, historical communities are recognized as a community of interest and should be considered when drawing out.

188

00:28:09.750 --> 00:28:19.920

SJC Redistricting: of a group of almond and walnut farmers are concentrated in the role unincorporated area of the county focused on ensuring they have enough water for their or.

189

00:28:21.360 --> 00:28:32.970

SJC Redistricting: With their committee consider this a Community interest answer is yes, this group of people in a shared geographic location, we have similar needs for public services.

190

00:28:38.220 --> 00:28:48.210

SJC Redistricting: And the last one, a statewide group of people who are fans of the giants testifies to local redistricting committee is this a community of interest.

191

00:28:50.340 --> 00:28:51.570

SJC Redistricting: The way they're winning yes.

192

00:28:53.460 --> 00:28:54.810

SJC Redistricting: The answer is really no.

193

00:28:56.250 --> 00:29:00.990

SJC Redistricting: It is important that a community of interest is distinct enough to draw on a map.

194

00:29:02.130 --> 00:29:12.900

SJC Redistricting: This group overlaps throughout the entire state and it's unlikely that a government agency has any say over these issues as much as we might want to do, Mr dang.

195

00:29:16.980 --> 00:29:18.690

Good Thank you.

196

00:29:20.040 --> 00:29:26.070

SJC Redistricting: So now let's talk a little bit about how you can give your own testimony there are multiple ways of doing so.

197

00:29:26.580 --> 00:29:44.640

SJC Redistricting: You can always go online at any time on the website, which will have a link to at the end you can fill out the kimmy community of interest worksheet sheet here, it will ask you, step by step, questions everything we need to know to make it as easy on you as possible will.

198

00:29:45.660 --> 00:29:54.180

SJC Redistricting: You can also use the district or website that we have up also available on the website.

199

00:29:55.080 --> 00:30:06.630

SJC Redistricting: There are two types of maps that we are hoping to get from the

public first is one on communities of interest and we'll have a presentation on how to do this.

200

00:30:07.050 --> 00:30:22.980

SJC Redistricting: After this presentation and then the other one is you can draw your own districts, so you can draw five super resourceful seats, if you wish, and tell us how you think it would be fair to divvy up the county.

201

00:30:24.330 --> 00:30:35.520

SJC Redistricting: So this is the website, you can go here [district.or.org slash events slash San underscore Joaquin](http://district.or.org/events/San%20Joaquin) and I do just want to impress upon people little bit.

202

00:30:35.970 --> 00:30:47.190

SJC Redistricting: Everyone in the country is about nine months behind because the census data has come out so late any other decade, we would potentially have had the maps done by now.

203

00:30:47.580 --> 00:31:05.790

SJC Redistricting: So I do want to impress upon you getting in your testimony and getting in your map sooner rather than later, would help out the Ark greatly, and your input would be more beneficial, in my opinion, so getting your mountain.

204

00:31:07.050 --> 00:31:19.260

SJC Redistricting: So, and then you also have the opportunity, if you're in person, there are these maps of the entire county you can draw your community of interest with a pen or a pencil here.

205

00:31:20.280 --> 00:31:29.310

SJC Redistricting: The front is the entire county and then the back is Lodi so you can draw your own Lodi focused communities of interest.

206

00:31:31.800 --> 00:31:45.180

SJC Redistricting: And then really quickly, this is our timeline for the redistricting cycle so on the 20th We recently had the finalized census data come out.

207

00:31:46.380 --> 00:31:59.190

SJC Redistricting: Which is going to allow us to start drafting map, so what we're going to do now is take everyone's coin testimony and then look at the census data and then start drafting map so.

208

00:32:00.270 --> 00:32:12.300

SJC Redistricting: October 13, we will have draft maps for the public to review it'll actually be posted on the website seven days ahead of that meetings so you'll have ample time to look at them.

209

00:32:12.900 --> 00:32:18.450

SJC Redistricting: You are also invited to be a part of the drafting process every step of the way so.

210

00:32:19.050 --> 00:32:27.780

SJC Redistricting: If you want to testify to the arc in future meetings about your opinion on the maps, you were highly encouraged to do so.

211

00:32:28.230 --> 00:32:43.320

SJC Redistricting: And all of the information that I just talked about you can go to this website, we draw the lines.sj gov.org and with that i'm happy to take questions or you can go ahead and play the district or.

212

00:32:44.370 --> 00:32:45.030

Video.

213

00:32:47.400 --> 00:32:48.420

Questions online.

214

00:32:50.550 --> 00:32:54.240

Any questions from anyone in the audience is cooking.

215

00:33:03.570 --> 00:33:11.820

SJC Redistricting: When the people us, we, the people draw the lines for districts, we talked about demographics and.

216

00:33:12.930 --> 00:33:19.140

Like Latinos blacks is there a certain population that have to be an age district.

217

00:33:20.520 --> 00:33:21.570

For the minority groups.

218

00:33:25.680 --> 00:33:36.060

SJC Redistricting: And I think that really depends on if there is a section to be

era issue I haven't heard anything yet, but that would be a legal question.

219

00:33:36.840 --> 00:33:50.190

SJC Redistricting: But in terms of you drawing the districts yourself, you will have and we'll go over district or as well you'll have the ability to look at the different demographics, who live, where.

220

00:33:51.630 --> 00:34:02.370

SJC Redistricting: But there isn't like a requirement for you to keep you know minority groups together and left that your objective.

221

00:34:05.520 --> 00:34:07.320

SJC Redistricting: The question is king anyone else.

222

00:34:08.340 --> 00:34:10.320

Any other questions from the audience.

223

00:34:12.390 --> 00:34:16.380

You know, no one online, no one online anyone up here.

224

00:34:17.850 --> 00:34:18.720

Shannon.

225

00:34:21.270 --> 00:34:21.720

Okay.

226

00:34:23.490 --> 00:34:29.700

Robert yes playing with it district or program and.

227

00:34:30.930 --> 00:34:49.440

If you go to redraw the map, you know redraw the lines there's a PDF showing the existing districts, but if you go to district there that's not available, so I you know I personally have a thought you know might be there, so you can just tweak the existing districts.

228

00:34:51.000 --> 00:34:55.770

have to redraw the whole history that's possible to put into district your.

229

00:34:58.470 --> 00:35:00.240

district Jeffrey can you answer that.

230

00:35:05.400 --> 00:35:21.840

SJC Redistricting: So one thing that's infrastructure, now is the current district lines, we can use that as kind of a basis to draw districts, if you want to, we can hand draw the current district lines into district, or if you'd like, but we need to do that by hand.

231

00:35:25.590 --> 00:35:30.030

So, but with the existing districts on district you're right.

232

00:35:31.260 --> 00:35:35.760

SJC Redistricting: We can we can add I believe I thought there a layer that you can add on to your map.

233

00:35:37.530 --> 00:35:39.240

SJC Redistricting: But if they're not we'll put them up.

234

00:35:41.700 --> 00:36:01.260

SJC Redistricting: chair, it would it be helpful staff has the existing 2011 scenario in district are that we could post and share and you could use as a basis for so i've been told that in the 2011 information their information is here that can be encoded.

235

00:36:02.430 --> 00:36:12.750

yeah steph has a version of the 2011 boundaries in district are that we could we could share publicly and you could use that as the basis for revision.

236

00:36:14.400 --> 00:36:17.010

That answer your question, Sir, yes, thank you.

237

00:36:18.540 --> 00:36:19.080

SJC Redistricting: Yes, ma'am.

238

00:36:21.060 --> 00:36:21.780

A microphone.

239

00:36:26.100 --> 00:36:26.730

Thank you.

240

00:36:28.890 --> 00:36:36.210

SJC Redistricting: I guess the question is what difference does it make because some people give up in voting, but what happened is with.

241

00:36:37.320 --> 00:36:40.590

SJC Redistricting: Our district for with mccullum a river shared.

242

00:36:42.480 --> 00:36:52.710

SJC Redistricting: It was wanting to supervisor and everybody locally was against it, but the four county supervisors voted for.

243

00:36:55.050 --> 00:37:03.510

SJC Redistricting: Some people who don't live in the state the data like Okay, and so it makes people give up.

244

00:37:04.800 --> 00:37:07.890

SJC Redistricting: How do we have our vote count where district.

245

00:37:09.660 --> 00:37:19.350

SJC Redistricting: district for with shared mccullum you ever and then all the way till escalate so Can you help figure out what, how can we have.

246

00:37:20.610 --> 00:37:22.920

SJC Redistricting: How can we be counted as agriculture.

247

00:37:25.440 --> 00:37:27.450

SJC Redistricting: Somebody said coin, but.

248

00:37:30.000 --> 00:37:38.070

SJC Redistricting: What is the solution for this situation for supervisors, all of them urban voted for outsiders.

249

00:37:39.570 --> 00:37:43.500

SJC Redistricting: And it affects the whole county the farm payrolls not happy about it.

250

00:37:44.910 --> 00:37:46.170

SJC Redistricting: So what's the solution.

251

00:37:49.980 --> 00:37:57.540

I can't tell you how the line was drawn and I don't have that in front of me is to make that determination.

252

00:37:59.040 --> 00:38:02.340

SJC Redistricting: But I know and it drops all the way down to.

253

00:38:03.720 --> 00:38:04.140

repin.

254

00:38:05.370 --> 00:38:17.070

SJC Redistricting: Because repin portion of repin isn't district, for all the way to ask on a backup so I don't know how far that the district currently comes to if someone can help me out on that.

255

00:38:19.440 --> 00:38:20.940

SJC Redistricting: All the way to the county line.

256

00:38:22.560 --> 00:38:29.520

SJC Redistricting: And the West, all the way to the line on the other side West okay so uh wraps all the way around and then down alright.

257

00:38:33.570 --> 00:38:45.300

SJC Redistricting: upside down I yes, I understand what you're saying and and that becomes the real tough such situation as we get into drawing the maps starting next month.

258

00:38:45.900 --> 00:38:55.740

SJC Redistricting: On the 10th we're going to be taking a look at each and every one of those realizing that we have to have a population of give or take hundred and 56,000.

259

00:38:56.280 --> 00:39:07.650

SJC Redistricting: On each one of the districts, it becomes very difficult, the one thing that we do know right now is that district five has roughly 50,000 I believe.

260

00:39:09.060 --> 00:39:18.360

SJC Redistricting: More people in the district, and so we start having to move things around and see how that all it's going to take place and going into the five districts and being fair.

261

00:39:18.900 --> 00:39:29.130

SJC Redistricting: With each one of the districts and being a contiguous model, as we continue to move forward so those are the challenges that we are faced with no and that's fine.

262

00:39:32.760 --> 00:39:42.060

SJC Redistricting: hang on one second Please go ahead, sorry my allergies would a coin, be the whole mccollum a river that includes.

263

00:39:45.420 --> 00:39:59.400

SJC Redistricting: lock for Lodi lake right I don't know if that's a solution, but right now we're not represented, I thought we have a great representative trump win, but he was the only one right.

264

00:40:00.900 --> 00:40:03.120

Right yes ma'am so.

265

00:40:04.380 --> 00:40:12.480

i'm so glad that you raised this as an example of an issue where district lines could make a difference in.

266

00:40:12.930 --> 00:40:30.000

significance of the vote and impact of the people in that region, so I do encourage you to draw what you think would be a community of interest that should stay Paul within one of the districts.

267

00:40:30.780 --> 00:40:37.200

To address the issue that you're concerned about with regard to the mccomb the River excellent point Mr.

268

00:40:40.080 --> 00:40:58.530

SJC Redistricting: Mr King yeah make it restricted from you answered part of my question already 156,000 as a population goal per district when you draw on the district our mapping tool will tell you what your demographics are and population for those districts.

269

00:41:00.810 --> 00:41:01.470

That will.

270

00:41:05.370 --> 00:41:18.300

SJC Redistricting: Just to follow up on the chairman's point a few minutes ago, the number, you said was 50,000 in that district five is that safe to assume, then that it's grown by 50,000 over the last 10 years yes.

271

00:41:19.230 --> 00:41:33.960

SJC Redistricting: that's correct and it's given to inspect the new members, we haven't heard what those new numbers are for those that are incarcerated and so those numbers have to be calculated back into the city, the city switch those individuals came from.

272

00:41:35.160 --> 00:41:48.810

SJC Redistricting: So proportion, those were from Lodi or Mantega or Stockton wherever those those numbers have to fit into those so when we draw the line set it was, I think it was the we have the number what was that new member.

273

00:41:51.210 --> 00:42:08.640

SJC Redistricting: Well, we will be speaking to be sharing the latest and i'll be going through, although the current populations of all the districts under the final prisoner reallocated data set in probably 10 minutes okay any any other questions.

274

00:42:10.140 --> 00:42:13.620

Okay, this chaffee does the floors yours.

275

00:42:14.850 --> 00:42:16.740

you're gonna we're going to start with a video.

276

00:42:20.040 --> 00:42:21.030

All yours, my friend.

277

00:42:29.430 --> 00:42:34.830

SJC Redistricting: Welcome to the San Joaquin county redistricting advisory committee mapping tool demonstration.

278

00:42:35.490 --> 00:42:51.060

SJC Redistricting: This is one way, you can submit information on your community of interest and in or the redistricting advisors many as to why your community should be preserved within one or more districts as a construct new boundaries, this coming fall and.

279

00:42:52.110 --> 00:43:08.040

SJC Redistricting: You can also submit information, you know I think the Community interest form on the website by emailing the committee or attending of ugly carry information on each of these will be at the end of this video and there on the website let's get started.

280

00:43:09.120 --> 00:43:13.740

SJC Redistricting: When you open the San Joaquin county district or your page, this is what you will see.

281

00:43:14.550 --> 00:43:22.350

SJC Redistricting: you'll see that there is a description of the supervisor districts and the county some background information.

282

00:43:22.830 --> 00:43:35.220

SJC Redistricting: You have some more information on San Joaquin county redistricting and if you click on this website link, then you will go to the redistricting advisory committee page and find out more specific information there.

283

00:43:36.480 --> 00:43:45.240

SJC Redistricting: and district, or there is a couple of sections, for the same or King county district or page, we have the start drawing your Community section.

284

00:43:45.690 --> 00:43:56.220

SJC Redistricting: which we will click on in a little bit it's this bright orange red button, which will lead us to the district your map where we can start drawing community of interest maps.

285

00:43:57.480 --> 00:44:06.210

SJC Redistricting: You also have the public gallery section, and here we can see we've already had a couple of submissions so any of these will be used as.

286

00:44:06.900 --> 00:44:17.250

SJC Redistricting: community of interest testimony and the Rack and the San Joaquin county board of supervisors will look at this as testimony when they're drawing draft maps and final plans.

287

00:44:18.030 --> 00:44:27.480

SJC Redistricting: there's also a section for work in progress maps and this section to find out a little bit more about the census data and San Joaquin county.

288

00:44:28.740 --> 00:44:37.260

SJC Redistricting: So now let's start drawing on community of interest, so we go back scroll up and now you click on this orange red button.

289

00:44:39.750 --> 00:44:48.750

SJC Redistricting: it's going to take us directly to the same with King county district or site, and here we can see the border of the county.

290

00:44:49.140 --> 00:44:56.460

SJC Redistricting: And you might be asking yourself what are these light Gray lines and why is the county broken up in this way.

291

00:44:57.360 --> 00:45:15.660

SJC Redistricting: So if we remember about redistricting and the criteria about equal population and creating districts of equal population, we do that, using census data, and here we see that the county is broken up into census box and so that that's why we have these three lines.

292

00:45:16.710 --> 00:45:28.170

SJC Redistricting: When you also first open district, or you will be directed to having the hand tool, where you can click on the map and move the mouse, you can also zoom in and out by using your mouse.

293

00:45:29.580 --> 00:45:40.620

SJC Redistricting: On the left hand side of your screen you'll see that there is a search bar so you can type in any address in the county of San Joaquin and it was zoom us specifically to that address.

294

00:45:41.790 --> 00:45:51.900

SJC Redistricting: On the left hand side, we also have a zoom in and zoom zoom out buttons with the plus and minus and I reset button to have your maps pointing north.

295

00:45:53.880 --> 00:46:04.560

SJC Redistricting: On the right hand side, again we have that pen tool and if we click on the brush tool, it will take us to the area where we can start drawing maps, you have this really dynamic.

296

00:46:05.040 --> 00:46:19.470

SJC Redistricting: tool for the brushstrokes size and we'll see that if we move the toggle all the way to the right, we can grab a lot of census box and if we move it to the left, we can grab plus.

297

00:46:20.790 --> 00:46:26.940

SJC Redistricting: You have the erase button, which is what it sounds like we can erase anything that you would like to.

298

00:46:26.940 --> 00:46:35.910

Frank: Get rid of, and you also have the inspect tool, so if you hover over a specific census block, it will give you specific information.

299

00:46:35.940 --> 00:46:47.880

SJC Redistricting: On that block based on the census data so we'll go back to the paintbrush tools to start drawing some districts, as an example, or community of interest as an example.

300

00:46:48.870 --> 00:46:58.410

SJC Redistricting: So we do want to click on an area you just go ahead and click away, and it will grab the census blocks, and right now, it always starts with the color blue.

301

00:47:00.720 --> 00:47:08.790

SJC Redistricting: You can add as many communities of interest, as you would like, and this community of interest tool, so we can add as many as we want.

302

00:47:10.590 --> 00:47:27.210

SJC Redistricting: For the district or community of interest tool, you will be able to overlap some areas, because we do know that some communities have overlap there's some similarities and if you'd like to describe that in an area, you can do so here.

303

00:47:28.650 --> 00:47:39.690

SJC Redistricting: You will not be able to overlap districts in the district or tool for drawn specific map fans are partial districts, for you are able to do that here.

304

00:47:41.910 --> 00:47:52.290

SJC Redistricting: If you don't want your just your communities of interest to overlap, then you can click on the lock already drawn district sign and now, when we try to grab some of the blue won't, let us.

305

00:47:53.400 --> 00:48:06.810

SJC Redistricting: at any point when you're drawing your communities of interest

you can go down to the selection area, and you can see, which communities of interest you have already drawn to name those you click on the color and now we can name.

306

00:48:09.510 --> 00:48:10.230

This work.

307

00:48:11.760 --> 00:48:29.520

SJC Redistricting: And in the description box, you can add as much description, as you would like, and you can tell us where the specific Community is what bonds your Community together what's important about it and then how your Community relates to the same are keen county board of supervisors.

308

00:48:31.740 --> 00:48:43.980

SJC Redistricting: We have an area called important places, so we know that, while there's our communities of interest that are fast geographies they also know that there are specific locations that are important to communities.

309

00:48:44.700 --> 00:48:55.560

SJC Redistricting: So, to use the important places tool you click on this blue button with the pin drop and now we're able to add specific points.

310

00:48:56.880 --> 00:49:18.540

SJC Redistricting: what's different here with the important places is that the any place that you choose the dot will not change color so there will all always be red dots, but you can also name these so if we hover over this we can see that it is the first point that we've created, and if we name it.

311

00:49:19.920 --> 00:49:25.320

SJC Redistricting: And now, if we hover over that point, then it will be called something else.

312

00:49:27.000 --> 00:49:38.850

SJC Redistricting: We need the second one is called dog park if you'd like to get rid of a specific point, then you click on this little trash can button and it will get rid of any point that you would like to remove.

313

00:49:40.170 --> 00:49:58.770

SJC Redistricting: You also have this description box here to add any more information about your specific location and we can think of locations as amenities, but locations could also be a nuisance to Community members around an area, so if we think of.

314

00:49:59.880 --> 00:50:09.030

SJC Redistricting: A specific stadium, it could people could really like it, because it brings and folks to the area, you know you can go to a ball game.

315

00:50:09.480 --> 00:50:20.700

SJC Redistricting: But neighbors in another area may think of that specific stadium as a nuisance because parking may be really difficult during specific times when there's games, or you could have.

316

00:50:21.540 --> 00:50:34.080

SJC Redistricting: Other folks walking around that you may not want to be there, so having this location point is something that you can use an ad and expand on for your communities of interest.

317

00:50:35.970 --> 00:50:45.150

SJC Redistricting: We also have a data layer tab So if you click on this tab you'll be able to see on a couple of other layers so you can show the Community numbers.

318

00:50:45.600 --> 00:51:00.330

SJC Redistricting: You can show your census geography and boxers or tracks and we can also see municipalities So these are the cities in San Joaquin county so if we zoom out i'll be able to see a couple of the cities.

319

00:51:01.770 --> 00:51:11.400

SJC Redistricting: You can also look at some demographics, so you can show the total population, you can look at Hispanic Asian and black population of the county.

320

00:51:12.060 --> 00:51:28.680

SJC Redistricting: And you can also look at citizen voting age population, which is the data set that is used for voting rights act districts so again, we have that for Hispanic Asian, black and native hawaiian Pacific islander and American Indian.

321

00:51:30.390 --> 00:51:39.780

SJC Redistricting: The evaluation tab is something that we see more often used in district, or when you are drawing specific districts.

322

00:51:40.350 --> 00:51:48.120

SJC Redistricting: We know that you don't need census data to describe your Community you don't need to look at any other data set to do that.

323

00:51:48.750 --> 00:51:53.130

SJC Redistricting: This evaluation tab shows the communities that you've created.

324

00:51:54.000 --> 00:52:10.650

SJC Redistricting: And compares it to the county of San Joaquin so again it's here to look at, but we see it to be most useful to have when you are drawing districts or partial districts, which that will come after we've used this as a community managers tool.

325

00:52:12.000 --> 00:52:22.560

SJC Redistricting: Now to save your map there's a couple of ways that you can share it you click on the SAVE button and now another window will pop up and you will be able.

326

00:52:22.890 --> 00:52:35.160

SJC Redistricting: to share your map to the gallery, which is in that section on district or Sam walton county page, and you can name it so that we can look at it and reference it.

327

00:52:36.210 --> 00:52:52.890

SJC Redistricting: You can share your district or map by copying this URL and sharing it with friends family neighbors and you can also share with folks when you add it to the gallery and then send that link to your Community members.

328

00:52:53.970 --> 00:53:02.550

SJC Redistricting: If you click on this button, all the way to the right hand side, it gives you a couple of other options for how you can share your district plan.

329

00:53:03.300 --> 00:53:18.510

SJC Redistricting: You can share it as a PDF so you can print it out, or you can also share it as a mapping file called a shape file and use that and look at your specific file in other mapping software, such as an aptitude or s3.

330

00:53:19.620 --> 00:53:33.030

SJC Redistricting: So this is open to the public, anyone can submit their community of interest plans and we look forward to looking at your district or community of interest plans, thank you.

331

00:53:34.110 --> 00:53:41.070

SJC Redistricting: For more information on how to get involved check the San

Joaquin county redistricting advisory committee.

332

00:53:41.490 --> 00:53:51.120

SJC Redistricting: redistricting website at this address here, you can find out how to get involved with the process of redrawing your supervisors oriel districts.

333

00:53:51.690 --> 00:54:08.700

SJC Redistricting: From the website, you can find the scheduled hearings submit testimony by emailing the redistricting advisory committee fill out a community of interest form and find the link to the mapping tool, so you can draw your community of interest.

334

00:54:15.840 --> 00:54:19.170

SJC Redistricting: Okay, now we get to have fun with district or.

335

00:54:21.150 --> 00:54:40.890

SJC Redistricting: One of the things I just wanted to point out was this video was done when there wasn't a district button on the website so one of the things I was thinking we could do is, we could find the mccullough me river, which I believe is the northern border of Lodi.

336

00:54:42.660 --> 00:54:46.080

SJC Redistricting: and draw start drawing a district.

337

00:54:47.100 --> 00:54:50.910

SJC Redistricting: So a couple just a simple change, so the.

338

00:54:56.070 --> 00:55:04.920

SJC Redistricting: Thank you i'll i'll I will request your help in in two minutes, but I just wanted to show that we have now, the new.

339

00:55:06.300 --> 00:55:10.920

SJC Redistricting: draw your five districts in purple so i'm going to click into that.

340

00:55:12.240 --> 00:55:21.990

SJC Redistricting: That button and then i'm going to go to the northern border of mantega or sorry of Lodi and we can start drawing, but one thing I wanted to point out.

341

00:55:22.860 --> 00:55:34.320

SJC Redistricting: Is i'm going to turn on municipalities as a layer, and this is a place where we can put the current lines is a layer as well to help show you where those are but let's go zoom in.

342

00:55:35.940 --> 00:55:37.530

SJC Redistricting: To the Lodi area.

343

00:55:39.870 --> 00:55:41.280

SJC Redistricting: And I believe this.

344

00:55:42.570 --> 00:55:50.670

SJC Redistricting: Is the mccullough me river, as it goes, all the way out to the comanche reservoir.

345

00:55:52.350 --> 00:56:12.360

SJC Redistricting: So if I wanted to use that line and and say that the communities of interest started at the northern border of Lodi including woodbridge and then tracked Victor lock furred maybe dogtown all the way to the Northeast corner I would click on the paintbrush.

346

00:56:14.460 --> 00:56:15.870

SJC Redistricting: and start drawing.

347

00:56:18.000 --> 00:56:20.640

SJC Redistricting: And just basically click across.

348

00:56:24.570 --> 00:56:25.290

And then.

349

00:56:34.770 --> 00:56:36.330

SJC Redistricting: I can zoom back out a little bit.

350

00:56:38.670 --> 00:56:39.900

And click in.

351

00:56:42.090 --> 00:56:45.540

SJC Redistricting: My favorite since its designated place of dogtown.

352

00:56:47.820 --> 00:56:53.190

SJC Redistricting: And kind of the the rural areas, but south of Victor and block for.

353

00:56:54.420 --> 00:56:58.290

SJC Redistricting: me, I think, maybe go, what do you think go all the way into color.

354

00:57:00.720 --> 00:57:03.090

SJC Redistricting: Oh, and up to the San Joaquin order.

355

00:57:04.200 --> 00:57:13.530

SJC Redistricting: And then what's really cool about this distracting option is I can switch over to population, and now I can see that the Blue shaded area that i've just drawn.

356

00:57:14.130 --> 00:57:30.510

SJC Redistricting: is only 19,000 is you know seven people under 20,000 people, and you can see that the ideal population with the current numbers is 150 5462 people and so.

357

00:57:32.040 --> 00:57:37.470

SJC Redistricting: This is much smaller than a district needs to be right so it's showing where 80%.

358

00:57:39.000 --> 00:57:42.900

SJC Redistricting: off underpopulated if this was our only district.

359

00:57:44.220 --> 00:57:45.750

SJC Redistricting: If we added Lodi.

360

00:57:47.550 --> 00:57:53.730

SJC Redistricting: To this this area we're still going to be slightly under.

361

00:57:54.960 --> 00:58:01.440

SJC Redistricting: And I think there's actually a map that we're going to i'm going to show in a minute when you said go all the way over to terminus right.

362

00:58:02.940 --> 00:58:04.500

SJC Redistricting: So take Thornton.

363

00:58:06.030 --> 00:58:08.490

SJC Redistricting: Take this other part of Lodi.

364

00:58:09.600 --> 00:58:14.220

SJC Redistricting: that's non contiguous and keep and let's go all the way over to.

365

00:58:15.480 --> 00:58:21.000

SJC Redistricting: delta parts and maybe we could even draw all the way across the top of Stockton, and all the way out.

366

00:58:22.800 --> 00:58:28.560

SJC Redistricting: And you're still short by about 50,000 60,000 people, so this is.

367

00:58:30.420 --> 00:58:32.460

SJC Redistricting: This is one option and I.

368

00:58:33.630 --> 00:58:39.780

SJC Redistricting: I just like wanted to show that how simple it is to do it, this is probably a two minute.

369

00:58:40.800 --> 00:58:52.320

SJC Redistricting: presentation on to draw this this first district, but the other thing is, if you wanted to keep going and try to unite maybe the eastern agricultural base.

370

00:58:54.030 --> 00:58:54.900

SJC Redistricting: You could draw.

371

00:58:57.420 --> 00:58:59.520

SJC Redistricting: I think you're gonna we're gonna have to go all the way to ask on.

372

00:59:02.760 --> 00:59:03.870

SJC Redistricting: And you're still short.

373

00:59:05.460 --> 00:59:07.770

SJC Redistricting: So we could go almost all the way into Stockton.

374

00:59:08.970 --> 00:59:14.130

SJC Redistricting: wrap around and go down to mantega and now you're you're a little bit over.

375

00:59:16.470 --> 00:59:31.590

SJC Redistricting: With this is showing and so i've with this map I basically included the entire eastern sector of the of the county and this l or I guess number seven district.

376

00:59:33.630 --> 00:59:38.370

SJC Redistricting: winning would encapsulate a lot of the agricultural base of the county.

377

00:59:39.510 --> 00:59:47.700

SJC Redistricting: Of course, this is a very quickly hand drawn map, so we can make sure not to get into mantega like I have and back out a little bit.

378

00:59:48.390 --> 00:59:59.880

SJC Redistricting: But that's that's what why we love the district our tool and one of the things I want to go into is the publicly submitted coin maps that have already been submitted and.

379

01:00:01.770 --> 01:00:04.350

SJC Redistricting: The five district maps that have been submitted as well.

380

01:00:06.750 --> 01:00:08.010

SJC Redistricting: Unless somebody.

381

01:00:09.510 --> 01:00:16.140

SJC Redistricting: In the public or from the dyess wants to do another DEMO on distributor.

382

01:00:18.990 --> 01:00:30.000

SJC Redistricting: Well, Mr chafee at Tracy I had the opportunity to do that, I think it would be more appropriate if someone else would like to play play around with us and have.

383

01:00:31.410 --> 01:00:47.310

SJC Redistricting: might have the apple and trying to see what we could come up

with and and that was the new numbers, with the incarcerated numbers in that now I believe so, yes, so 155 26 plus or minus the deviation.

384

01:00:48.690 --> 01:00:51.750

SJC Redistricting: So so someone, would you like to try it.

385

01:00:55.980 --> 01:00:57.810

we'll get a microphone to a place.

386

01:01:06.600 --> 01:01:09.270

I can't hear you Thank you.

387

01:01:10.440 --> 01:01:14.940

gets a common concern county wide for.

388

01:01:16.110 --> 01:01:17.790

SJC Redistricting: The drought recycles.

389

01:01:19.590 --> 01:01:24.780

SJC Redistricting: So what happens is, we only have one vote on the counting.

390

01:01:25.950 --> 01:01:27.540

With the county supervisors.

391

01:01:28.710 --> 01:01:33.510

SJC Redistricting: And yet it affects the whole county with allergies.

392

01:01:37.080 --> 01:01:39.480

SJC Redistricting: Health drought recycles.

393

01:01:40.680 --> 01:01:41.370

So.

394

01:01:44.580 --> 01:01:58.050

SJC Redistricting: It it's chopping it up and it doesn't even it's not a benefit to the whole county because it's a common issue water, agriculture and drop recycles.

395

01:01:59.580 --> 01:02:01.560

So that's what I see.

396

01:02:03.780 --> 01:02:06.600

It is, it is a very tough situation and.

397

01:02:07.830 --> 01:02:16.530

SJC Redistricting: i'd played around with it, two weeks ago and trying to get those numbers at that 156 somewhere net and that it becomes difficult.

398

01:02:16.920 --> 01:02:29.400

SJC Redistricting: And and trying to be fair and taking everything that consideration and realizing that we, we have one representative from each one of our district that represents us with that one one vote.

399

01:02:31.230 --> 01:02:33.450

SJC Redistricting: mantega has has has to.

400

01:02:34.890 --> 01:02:38.850

Two supervisors, or you know to.

401

01:02:40.140 --> 01:02:40.830

Mr.

402

01:02:42.810 --> 01:02:44.310

You have yes.

403

01:02:45.840 --> 01:02:48.450

So I wanted to add something I come from.

404

01:02:50.460 --> 01:02:52.260

Is the I lived in the Bay area and.

405

01:02:54.240 --> 01:02:54.780

and

406

01:02:55.890 --> 01:03:04.500

SJC Redistricting: There is a effort throughout the state really around the country but really California that effort to impose in cities.

407

01:03:06.150 --> 01:03:24.150

SJC Redistricting: districts where there weren't before people would be elected to the City Council at large, everyone could vote and San Mateo county was actually the last county of the 58 in in California to go to district, they were as recently as just less than 10 years.

408

01:03:25.200 --> 01:03:32.250

SJC Redistricting: Old five supervisors were elected by every voter in the whole county so there weren't you didn't have to live in the separate districts.

409

01:03:32.610 --> 01:03:39.570

SJC Redistricting: But everyone voted for every supervisor and one of the concerns that came about through redistricting are imposing districts.

410

01:03:39.780 --> 01:03:49.530

SJC Redistricting: are only people would vote within each district for their own Supervisor is that you would get this parochialism that the individual areas would only vote for their interests.

411

01:03:50.220 --> 01:03:56.100

SJC Redistricting: And not represent the county as a whole, and I think what you're raising as a concern is extremely valid.

412

01:03:56.610 --> 01:04:02.310

SJC Redistricting: But I think, but, most people who follow this and I think, maybe Chris could speak to this a mystic can maybe speak to this.

413

01:04:02.670 --> 01:04:14.040

SJC Redistricting: As my experience with redistricting is that it's not been found to be true, I think there's some of that where, if you only have one district for the rural areas and there's only one voice for real issues.

414

01:04:14.370 --> 01:04:22.170

SJC Redistricting: That is a concern, but the reality in practice is, I think that all five supervisors are going to.

415

01:04:22.650 --> 01:04:34.500

SJC Redistricting: be aware and vote on interest for the whole county even if they're not necessarily geographically representing just the rural areas or the agricultural areas.

416

01:04:35.010 --> 01:04:45.600

SJC Redistricting: they're going to consider how the decision that they're voting on is going to impact county as a whole, and so I completely understand the concern you have, I think it's a fair concern.

417

01:04:46.470 --> 01:04:56.670

SJC Redistricting: But I take some solace as a as a person participating that I have observed elected officials in these situations, typically listen and vote.

418

01:04:57.240 --> 01:05:04.590

SJC Redistricting: Less focused and we see like in Congress, or you know where you care only about tradition, I think there's a broader perspective.

419

01:05:04.980 --> 01:05:22.620

SJC Redistricting: I think that's something that at least kind of hang your hat on a little bit that's interesting would say i'm a tail and, ironically, it since 1928 with governor party that mcollum river has been by aqueduct towards oakland and I know I went to cal and.

420

01:05:24.150 --> 01:05:31.260

desalination was invented at uc Berkeley 1977 us 900 nations and the port of oakland.

421

01:05:32.970 --> 01:05:43.530

SJC Redistricting: couldn't be doing these nation guys that taken her because we used to have watermelon and now it's vineyards walnuts kinds of real crops.

422

01:05:45.390 --> 01:05:47.280

At the vineyard uses less water.

423

01:05:49.020 --> 01:05:49.620

Yes.

424

01:05:52.560 --> 01:05:55.800

Thank you for thinking out loud with me thank you.

425

01:05:59.460 --> 01:06:08.760

When you speak of water you're speaking of are very precious commodity that it's never an issue until you turn your faucet on and there's no longer water there.

426

01:06:10.380 --> 01:06:16.260

So we need to take you know necessary steps in order to be proactive, as we continue to go forward.

427

01:06:17.940 --> 01:06:23.880

SJC Redistricting: Point take is Monday suggestive nobody's interested in drawing maps we just move on with the presentation.

428

01:06:25.590 --> 01:06:25.980

Yes.

429

01:06:28.560 --> 01:06:39.210

SJC Redistricting: Oh Okay, is there, someone that's interested and from the diaspora, would like to take a crack at this or anyone in the audience.

430

01:06:42.210 --> 01:06:46.920

SJC Redistricting: I see none Kathy so I wanted to we proceed on.

431

01:06:58.110 --> 01:07:01.920

you're dealing with how to build a community of interest that would you're on now yeah.

432

01:07:05.400 --> 01:07:05.730

perfect.

433

01:07:30.510 --> 01:07:35.760

SJC Redistricting: This is a very similar presentation to the one we I gave two weeks ago and Tracy.

434

01:07:40.920 --> 01:07:41.310

Oh, this is.

435

01:07:46.650 --> 01:08:05.280

SJC Redistricting: So I just want to go through the timeline will go up we'll go through the final state redistricting data set with the current lines and then we'll talk through Community interest maps that have been submitted, along with some district maps over the last two weeks, and finally we'll.

436

01:08:07.590 --> 01:08:08.550

SJC Redistricting: Finally, we'll do.

437

01:08:11.520 --> 01:08:13.800

SJC Redistricting: Finally, we'll go through.

438

01:08:15.390 --> 01:08:20.400

SJC Redistricting: comments from you, because the next big thing, of course, is district maps.

439

01:08:22.680 --> 01:08:24.630

actually just stand right over by the computer.

440

01:08:25.740 --> 01:08:30.180

SJC Redistricting: So here's the timeline Liz already went through it, so this is our final outreach hearing.

441

01:08:31.170 --> 01:08:39.150

SJC Redistricting: And I can't wait for our October 13 meeting when we'll have some district maps for you to tear apart and tell me how.

442

01:08:39.540 --> 01:08:47.550

SJC Redistricting: Bad they are and how I need to go back to the drawing board, to make them better so that's what you guys get to look forward to in about two weeks.

443

01:08:48.090 --> 01:08:58.920

SJC Redistricting: And then we'll have to a second meeting to go over the revised maps and then a third meeting in November to recommend your final map to the board so.

444

01:09:00.510 --> 01:09:00.960

Dan: yeah.

445

01:09:03.630 --> 01:09:06.600

SJC Redistricting: The other exciting piece of news was.

446

01:09:07.680 --> 01:09:21.870

SJC Redistricting: Last Monday on the 20th the same way database finally put out the final final population numbers and as we told you there wasn't a massive change.

447

01:09:24.300 --> 01:09:27.060

SJC Redistricting: In reallocating the prison population.

448

01:09:28.260 --> 01:09:32.550

SJC Redistricting: San Joaquin county lost 1900 and 21 people.

449

01:09:34.050 --> 01:09:40.320

SJC Redistricting: And so the new district numbers are here in front of you, you can see district one.

450

01:09:41.610 --> 01:09:42.150

SJC Redistricting: Is.

451

01:09:43.740 --> 01:09:46.620

SJC Redistricting: 13% overpopulated and district five.

452

01:09:48.510 --> 01:09:49.050

Is.

453

01:09:50.640 --> 01:09:59.640

SJC Redistricting: Under populated by 5% 5.7% with, so we have a total deviation of 19.4%.

454

01:10:03.090 --> 01:10:09.330

SJC Redistricting: And then, so those haven't really changed much I think the biggest thing I wanted to go through next but.

455

01:10:11.520 --> 01:10:18.990

SJC Redistricting: I just like to make a point to the Community, the people in the room that are new to this is that when.

456

01:10:19.590 --> 01:10:31.410

SJC Redistricting: He talks about under-populated that just means relative to the other districts, the over the last 10 years our county has gained substantial financial population.

457

01:10:32.010 --> 01:10:44.550

SJC Redistricting: it's just that that growth in population has been in different regions within the county and so assuming that it isn't very different from the

data that was handed out two weeks ago.

458

01:10:45.840 --> 01:10:49.830

While overall our county grew by almost 14%.

459

01:10:51.240 --> 01:10:56.160

SJC Redistricting: Yes, tricks or grew at 5% so i'm sorry, let me.

460

01:10:57.210 --> 01:11:11.400

SJC Redistricting: Let me step in here i'm sorry so yeah San Joaquin grew substantially faster than the rest of the state, with the new numbers, the state the sorry the county grew by.

461

01:11:14.970 --> 01:11:19.410

SJC Redistricting: 93,000 people and district five actually had the largest.

462

01:11:20.430 --> 01:11:33.030

SJC Redistricting: Growth and its current deviation is around 14.7% overpopulated whereas district four is the one that is under populated by 8.1%.

463

01:11:34.290 --> 01:11:42.810

SJC Redistricting: And so that's the numbers, we saw I think in Tracy the numbers have changed just slightly under the prison reallocated.

464

01:11:43.740 --> 01:11:55.620

SJC Redistricting: population data and final data said that we got on Monday and my point was just that I don't want anyone leaving thinking that district for last population when you said under.

465

01:11:56.160 --> 01:12:17.040

SJC Redistricting: populated everybody grew just a different amount so relative to each other, district four is too low district five is too high and population and remember we're trying to get to that ideal population of 150 5004 62 I believe so that's what when I say, and thank you for correcting me.

466

01:12:18.510 --> 01:12:18.750

Sorry.

467

01:12:20.610 --> 01:12:23.850

SJC Redistricting: Thank you for for correcting me on the on that.

468

01:12:24.930 --> 01:12:26.910

SJC Redistricting: terminology, because I don't want to say.

469

01:12:28.440 --> 01:12:30.510

I use under-populated and that just.

470

01:12:31.530 --> 01:12:36.660

SJC Redistricting: creates a value and i'm not trying to place a value statement on that at all so.

471

01:12:37.950 --> 01:12:40.710

SJC Redistricting: So thank you so much for for that.

472

01:12:42.360 --> 01:12:49.350

SJC Redistricting: The other thing I wanted to do is just go through kind of the themes from the community of interest testimony that we've already received.

473

01:12:50.700 --> 01:13:07.320

SJC Redistricting: And I think we heard a lot of them last week with the koi testimony or two weeks ago, quite testimony that we discussed, but some of that testimony was making sure to unite Tracy with mountain house that we could create that commuter district that we drew.

474

01:13:08.340 --> 01:13:23.400

SJC Redistricting: live and Tracy linking mountain house to Tracy to Western retention sub and South Stockton, and then just acknowledging that we have to split Stockton, because, due to its size, so we really should be.

475

01:13:24.630 --> 01:13:38.520

SJC Redistricting: Updating the record and talking through where that division makes the most sense, so the next group of slides are the koi submissions that we've received since we were last together and Tracy.

476

01:13:40.620 --> 01:13:52.320

SJC Redistricting: So you can see, this one, I wanted to lead off with it, since we're in Lodi someone submitted an Ada map of Lodi using highway five as the divider so you have an Eastern eight.

477

01:13:53.370 --> 01:13:54.270

SJC Redistricting: And a Western.

478

01:13:55.710 --> 01:13:59.220

SJC Redistricting: viticultural area they to think through.

479

01:14:03.060 --> 01:14:11.100

SJC Redistricting: This was an interesting one, where I think this brings up some of the discussion already about the.

480

01:14:12.270 --> 01:14:28.380

SJC Redistricting: The issue about either having everybody in all the community of interests together so like uniting the delta into one district versus dividing it up into four or five districts, so that each of the supervisors would have a portion of the Delta.

481

01:14:30.000 --> 01:14:32.340

To basically legislate for.

482

01:14:37.050 --> 01:14:44.640

SJC Redistricting: This was another map submission that I thought was interesting it basically just draws the north Eastern were.

483

01:14:45.240 --> 01:15:01.350

SJC Redistricting: agricultural areas I mean, I think there are some south of Tracy and South of Antica but this basically you with cutouts of Stockton and Lodi as it can be of interest, because of course it's all linked by agriculture.

484

01:15:06.030 --> 01:15:12.240

SJC Redistricting: there's this very small coins, I think it's maybe three blocks square.

485

01:15:13.290 --> 01:15:26.310

SJC Redistricting: Little Manila if i'm hoping we don't split it because it's right on highway four and it will be hiding very hard to but a historic work area that many Filipinos came to.

486

01:15:27.570 --> 01:15:28.200

to live.

487

01:15:29.310 --> 01:15:31.050

In the early parts of stocks and history.

488

01:15:33.270 --> 01:15:36.390

SJC Redistricting: Another map a map submission about the about up.

489

01:15:37.410 --> 01:15:48.030

SJC Redistricting: I hope that this represents a good college centric district it's something another one we can look to when we start thinking about how to divide Stockton.

490

01:15:49.590 --> 01:15:50.640

SJC Redistricting: A little Manila again.

491

01:15:52.290 --> 01:16:03.240

SJC Redistricting: And then, this is a series of the district maps that were submitted showing a full district plan this person chose to just draw one district, which is.

492

01:16:04.110 --> 01:16:19.020

SJC Redistricting: is great, and they they basically hit the one they didn't basically they hit the the ideal population on the nose hundred 55,462 people, and this includes later mantega escalade repin.

493

01:16:21.480 --> 01:16:25.320

SJC Redistricting: And one other Community on the eastern border.

494

01:16:26.430 --> 01:16:33.780

SJC Redistricting: And you can see that it's it's it's very dense and it could be a building block to build the other four districts from.

495

01:16:34.800 --> 01:16:35.520

If the.

496

01:16:37.050 --> 01:16:39.000

SJC Redistricting: Commission is or the Rack is interested.

497

01:16:40.320 --> 01:16:49.650

SJC Redistricting: And then, so what falls are the five district maps that have been submitted to date that draw school districts and for each of them.

498

01:16:50.430 --> 01:17:07.050

SJC Redistricting: i've included the deviation the smallest district, to the largest district, so you can kind of see where that brings us and then just I was just going to talk through some of the themes that I see from this map So you see that there's a mantega.

499

01:17:08.700 --> 01:17:15.900

SJC Redistricting: repin escalade district a lot, like the one that was wrong that we just saw you have the Tracy district to connect it to mountain house.

500

01:17:16.320 --> 01:17:24.330

SJC Redistricting: And then you have a rural district that wraps around Stockton, and includes Lodi and then North eastern corner of the.

501

01:17:24.900 --> 01:17:44.700

SJC Redistricting: Of the county and then you have stopped in basically split in the Northwest or yeah or yeah north, south split you do, though, see parts of Stockton, are in the yellow district on both sides on the Southwestern corner and also, then the northeastern corner.

502

01:17:47.010 --> 01:17:50.610

SJC Redistricting: But one thing I want to for the Rack and the public to see is that.

503

01:17:52.470 --> 01:18:03.900

SJC Redistricting: There are lots of variations, that we can go through when putting a map together so for the Rack, the next portion really is a discussion about.

504

01:18:04.590 --> 01:18:24.480

SJC Redistricting: themes that you want us to bring forward one of the ways we can do it is taking one of these public maps and saying let's make some shifts to them another another way of saying it is let's create our own own map with a different type of market structure, so this is map one.

505

01:18:25.800 --> 01:18:27.180

SJC Redistricting: map to you can see.

506

01:18:28.770 --> 01:18:33.390

SJC Redistricting: continues with Tracy mountain house connection but unified Slater up and this one.

507

01:18:34.860 --> 01:18:43.800

SJC Redistricting: And the eastern district, the blue district really again takes in mantega repin escalade and.

508

01:18:44.820 --> 01:19:03.960

SJC Redistricting: Moves a little bit North and takes in much of southern Stockton, the yellow district has part of that delta attached to the northern port portion of Stockton, and then the green district is Lodi and kind of the northern portion with a little bit of Stockton on the.

509

01:19:05.280 --> 01:19:07.080

SJC Redistricting: North eastern corner.

510

01:19:09.420 --> 01:19:10.080

SJC Redistricting: This one.

511

01:19:11.340 --> 01:19:23.130

SJC Redistricting: You can see by a lot by the description in the map if mountain House were not with Tracy, then what hypothetical only I don't know if that means i'm supposed to skip this one or not, but.

512

01:19:24.150 --> 01:19:35.370

SJC Redistricting: You can see that they've drawn this district this kind of bands through the through the county with a southern district of Tracy all the way across repin to Ashkelon.

513

01:19:36.510 --> 01:19:57.660

SJC Redistricting: A middle, one that would have mountain house with laid through the northern portion of mantega and then central Stockton or central kind of delta district attached to southern Stockton, a very dense and small smaller northern star Stockton district, and then another rural district.

514

01:19:59.250 --> 01:20:04.350

SJC Redistricting: Basically, along the whole northern border of the of the county including Lodi and the.

515

01:20:05.460 --> 01:20:06.210

Cities around it.

516

01:20:08.670 --> 01:20:11.880

SJC Redistricting: And this is the fourth map this one.

517

01:20:13.530 --> 01:20:31.140

SJC Redistricting: Again, very perfect on or fine on deviation 1.6% but it splits the county into kind of into thirds from north to south so you've got an a Western district that again includes Lodi mountain house and lay through a Central District.

518

01:20:34.110 --> 01:20:37.620

SJC Redistricting: or central band, I guess, it would be more like it with.

519

01:20:39.000 --> 01:20:42.390

SJC Redistricting: With Stockton being split and then an Eastern rural district.

520

01:20:43.830 --> 01:20:47.730

SJC Redistricting: You uniting like all the eastern parts of the county.

521

01:20:49.020 --> 01:21:07.740

SJC Redistricting: When the final district map that we're going to show that has the lowest deviation of almost like a Congressional district, where I think the differences are 10s of people is again you have that mountain house Tracy this one has portions of both take on later Bennett.

522

01:21:09.090 --> 01:21:20.220

SJC Redistricting: A that seven that blue district that you that goes from the Northwest all the way down to the southeast portion of the of the county and includes Lodi and all the.

523

01:21:21.570 --> 01:21:25.770

SJC Redistricting: Rural agricultural communities and then split stocked in three ways.

524

01:21:27.150 --> 01:21:31.020

North central and then a southern with parts of it again later.

525

01:21:32.460 --> 01:21:36.210

SJC Redistricting: So that's the conclusion of the presentation.

526

01:21:37.530 --> 01:21:42.300

SJC Redistricting: On the coin, and what I wanted to do now is.

527

01:21:43.800 --> 01:21:54.660

SJC Redistricting: start a discussion on what themes, you want to use either from these publicly submitted maps or other ideas, the that the Rack has.

528

01:21:55.680 --> 01:21:58.800

SJC Redistricting: Regarding district maps wait.

529

01:22:04.530 --> 01:22:12.030

SJC Redistricting: So is it is it Okay, if I want me to close this down and sure or marshes be worried we want.

530

01:22:15.630 --> 01:22:16.500

Yes, sure.

531

01:22:20.640 --> 01:22:21.510

I have a question.

532

01:22:22.590 --> 01:22:27.360

Back on the presentation that was given earlier.

533

01:22:29.220 --> 01:22:32.520

2021 or AC out report shop question.

534

01:22:33.780 --> 01:22:45.150

You listed five traditional redistricting principles and i'm going to ask you to explain one it's keep all oh city county local government lie.

535

01:22:46.230 --> 01:22:54.540

What does that mean and does that have any implication and splitting or not splitting municipalities.

536

01:22:55.560 --> 01:22:56.970

i'm not sure I use the right word but.

537

01:22:58.920 --> 01:23:19.410

SJC Redistricting: area so it's one of the criteria under the fair maps act and it follows after trying to keep communities of interest together the next criteria,

the fourth criteria and the fair maps is this idea that you keep basically government agencies whole as much as possible.

538

01:23:20.670 --> 01:23:21.210
and

539

01:23:22.650 --> 01:23:35.220
SJC Redistricting: So, ideally, for most of the cities in the county we would keep them whole in one district we can't do that with soft and we know that, but for the other ones, we would like we that's.

540

01:23:36.000 --> 01:23:48.060
SJC Redistricting: A criteria to keep in mind as we draw districts, but we also have to balance the first the other three criteria before right equal population with that 10% total deviation that we can play with.

541

01:23:49.170 --> 01:23:51.450
SJC Redistricting: Making sure everything's contiguous so that.

542

01:23:52.530 --> 01:23:56.910
SJC Redistricting: districts don't hop over each other and then falling communities of interest.

543

01:23:58.140 --> 01:24:04.950
SJC Redistricting: So, then, the map, where mantega was little little and lathrop was split a little.

544

01:24:05.790 --> 01:24:19.020
SJC Redistricting: That is not aligned with following city county local governments lines as much as possible, but it might be the right thing to do, given communities of interest or other factors exactly.

545

01:24:19.860 --> 01:24:32.880
SJC Redistricting: And I think one of the things that this is a great map to think through because this shows a variance between districts of 23 people right so it's almost every single one is exactly the same.

546

01:24:33.390 --> 01:24:45.270
SJC Redistricting: But, in doing so, they had to split mantega they had to split later, but they did, whereas in other maps, maybe where there's a three or 5% deviation or 6% deviation.

547

01:24:46.200 --> 01:24:59.130

SJC Redistricting: They could keep mentee can later pole because they could play with those deviations where they didn't have to get it to the one person that are there Congressional districts, have to be help their their standard.

548

01:25:02.130 --> 01:25:02.520

roster.

549

01:25:03.630 --> 01:25:05.400

SJC Redistricting: Chris I have a question about.

550

01:25:07.350 --> 01:25:19.320

SJC Redistricting: The map and you don't need to go back to the one that was the the third's where as long and skinny I don't believe and correct me if i'm wrong is that there are strict guidelines about.

551

01:25:20.100 --> 01:25:31.200

SJC Redistricting: longest lines within the district, although kind of living in the spirit of continuity is this notion that you wouldn't have the snake like things.

552

01:25:32.250 --> 01:25:45.960

SJC Redistricting: And that it would be really difficult to because cities are kind of blob shaped it would be challenging challenging to have long skinny districts, but in kind of movie informal or experiential guidelines is there.

553

01:25:46.530 --> 01:25:56.760

SJC Redistricting: Any kind of literature or research about the longest line at the end of within a district, and whether that's something that we can use kind of informally to help us.

554

01:25:57.060 --> 01:26:07.650

SJC Redistricting: As we look at these different things we're balancing the actual formal guidelines to kind of add as an extra flavor or guide, that is not again not formal but informal.

555

01:26:08.070 --> 01:26:13.800

SJC Redistricting: Well, actually what you're getting at is the fifth criteria and fair maps are compactness.

556

01:26:14.610 --> 01:26:24.240

SJC Redistricting: The lowest criteria on our map or on our list and that's the idea that you want to have like nicely shaped districts right you want to have circles and squares and not squiggly lines.

557

01:26:24.690 --> 01:26:39.720

SJC Redistricting: hard part is, in reality, if you look at the boundaries of Stockton it's not a square it's not a circle there's tons of squiggly lines in there and it's true throughout, I mean the we looked at the.

558

01:26:40.440 --> 01:26:55.590

SJC Redistricting: mcollough me river right which is the border of Lodi and that's very not a straight line again, but the idea in California and there are there are so many ways of measuring compactness.

559

01:26:57.090 --> 01:27:07.110

SJC Redistricting: That California, with the fair maps act decided just to throw them all out and make a statement saying you shouldn't bypass local populations for farther population.

560

01:27:07.710 --> 01:27:17.820

SJC Redistricting: meaning, you should try to unite areas that are closer together rather than going from the north part of the State or the county all the way to the south, so I think.

561

01:27:19.350 --> 01:27:30.240

SJC Redistricting: With the compactness criteria I probably wouldn't elevate that public map submission that had the bands in Stockton, because.

562

01:27:31.200 --> 01:27:48.510

SJC Redistricting: it's not really the way we functionally work in the county you could make an argument with like you have a 99 cord or district or or 99 five Eastern drive, but on the eastern and the Western edges there's no way to go in that direction very easily.

563

01:27:49.650 --> 01:28:06.390

SJC Redistricting: Unless you maybe have like a boat and a horse and a helicopter or something so I think I think you point out to make a good point about that that district is that it really doesn't follow the compactness ideas that is in the fair map side.

564

01:28:07.920 --> 01:28:10.140
Thank you question, yes, sir.

565
01:28:18.450 --> 01:28:18.870
Thank you.

566
01:28:20.040 --> 01:28:30.060
I was just wondering about school districts and because there appears to be some similarity and contiguous groups of people and districts.

567
01:28:31.140 --> 01:28:35.250
And is there any consideration for school districts in an area.

568
01:28:38.160 --> 01:28:56.640
SJC Redistricting: So speaking to that, to the point, the fourth point about following government lines, yes, we can look at school district lines and use them as a basis and cities, often do that counties as well, a lot of times with the county redraw the city's take.

569
01:28:57.870 --> 01:29:10.920
SJC Redistricting: kind of the bigger stage because county doesn't have a lot of input right on on school district decisions but it's always something we can bring up, we can, if the rock is interested, we could draw school district based.

570
01:29:13.200 --> 01:29:13.830
anne baird: district plan.

571
01:29:17.190 --> 01:29:23.160
SJC Redistricting: My reason for asking that question is because the city of stock that has been growing over the years it's been moving north.

572
01:29:23.880 --> 01:29:34.440
anne baird: And it's been moving in various directions that were never intended and there's large populations within that area, but in a different school district, for instance, and load a unified.

573
01:29:36.390 --> 01:29:43.320
SJC Redistricting: And i'll link it's a small district, of course, but there is some factors there with population demographics.

574

01:29:47.310 --> 01:29:54.000

SJC Redistricting: Strasser i'm sorry I mean, I just want to just very briefly address this issue, the one concern, I would have about.

575

01:29:54.030 --> 01:29:57.330

anne baird: Using relying to greatly on school districts, is that.

576

01:29:57.450 --> 01:30:02.280

SJC Redistricting: Unlike municipalities, like the city, the cities that are in this county.

577

01:30:03.000 --> 01:30:10.890

SJC Redistricting: Which very rarely change in size occasionally there's annexation but school districts changes all the time and the change and add things.

578

01:30:11.280 --> 01:30:16.920

SJC Redistricting: more frequently all the time is maybe an overstatement, but they are more malleable and they are responsive.

579

01:30:17.340 --> 01:30:31.170

SJC Redistricting: of two different forces, so I would say it's important to consider them, but I would put less weight than keeping ripping together keeping escalate together keeping as many of these communities their cities, because those typically are.

580

01:30:31.620 --> 01:30:36.630

SJC Redistricting: persistently sized that's how I would how I would just one person's opinion this I bet.

581

01:30:39.060 --> 01:30:43.230

anne baird: yeah you had a question I was just mumbled you hey that's.

582

01:30:44.460 --> 01:30:45.180

about this stuff.

583

01:30:46.890 --> 01:30:47.580

Now you've all heard it.

584

01:30:49.020 --> 01:30:50.400

SJC Redistricting: Yes, ma'am I.

585

01:30:50.850 --> 01:30:55.650

anne baird: mean, I have a question they see i'm at one time.

586

01:30:57.000 --> 01:30:58.470

Maybe start with no.

587

01:30:59.490 --> 01:31:10.680

anne baird: Lodi unified was the third largest school district in the state and my mother was very upset when what's the county we lost the local schools.

588

01:31:13.110 --> 01:31:13.350

anne baird: But.

589

01:31:15.390 --> 01:31:27.900

Interesting to think about I wish I could understand so Sam bataille give up the idea of of everyone, for all the supervisors, why did they give up now.

590

01:31:29.010 --> 01:31:31.410

anne baird: I was under the threat of force of law.

591

01:31:32.160 --> 01:31:36.840

SJC Redistricting: yeah it was simply a county is way too large to have all that large voting.

592

01:31:37.260 --> 01:31:47.220

SJC Redistricting: So they there were literally was a lawsuit but there's preempted by action by the Board of Supervisors they self imposed districts, but there was a lawsuit arriving it was in transit, so to speak.

593

01:31:47.550 --> 01:31:55.620

SJC Redistricting: And they were going to be forced, it really is you can't have three quarters of a million people all voting at large, for district.

594

01:31:55.680 --> 01:32:08.970

SJC Redistricting: Supervisors that make no sense and all other 57 counties had district elections was the last holdout, this is only about five or six years ago, seven years ago, the first district elections I think we're in 2014 so.

595

01:32:09.120 --> 01:32:10.740
SJC Redistricting: yeah it really there.

596
01:32:10.740 --> 01:32:11.220
SJC Redistricting: Is this.

597
01:32:11.250 --> 01:32:17.640
SJC Redistricting: counter argument of the thing we were talking about before you really do want to have representation geographically split and that's what this whole process is.

598
01:32:17.640 --> 01:32:29.700
anne baird: About well it's interesting this like three major areas there and that can help with begin to think about maybe the Senate taken care of the common concerns.

599
01:32:30.990 --> 01:32:36.150
anne baird: represented as taken care of the area and thereby.

600
01:32:37.350 --> 01:32:54.630
SJC Redistricting: At least we're talking about the COMP concerns which is i've heard most popular up a people concerned about agriculture and water, for example, King county so maybe if we had started to have it, you have the five districts and then.

601
01:32:55.920 --> 01:33:04.950
SJC Redistricting: three sectors where they could talk about the common issues that people understand the person growers understand their.

602
01:33:07.440 --> 01:33:08.790
Thank you, Mr.

603
01:33:11.370 --> 01:33:14.070
SJC Redistricting: Jeffrey can you go back to map one.

604
01:33:20.700 --> 01:33:24.060
tear and bear with me okay.

605
01:33:25.200 --> 01:33:32.130
SJC Redistricting: So I think you'd be great if we we started down the down the

Rack and eat.

606

01:33:32.190 --> 01:33:34.320

anne baird: In have everyone kind of.

607

01:33:35.520 --> 01:33:37.740

SJC Redistricting: give some feedback to us.

608

01:33:39.000 --> 01:33:56.280

SJC Redistricting: From the presentation from your knowledge of the county about some of the architecture that you'd like us to take take into consideration when we start drawing these district maps and then maybe after the Rack goes, then we could do that, we could have the public.

609

01:33:57.870 --> 01:34:07.260

SJC Redistricting: Make the same statement or we could do the reverse I leave it to the Chair, Mr Jeffrey before we go there and wish to recognize miss and Baird.

610

01:34:08.520 --> 01:34:09.510

anne baird: hi can you hear me.

611

01:34:10.290 --> 01:34:25.290

anne baird: Yes, Okay, because I can't see me my My point is, I would really hope that we can keep the cities, together, except for Stockton mantega was split last time I think that's ridiculous.

612

01:34:26.370 --> 01:34:43.500

anne baird: I don't know all the numbers, but it seems to me Tracy and mountain house look good maybe men taken life up together the smaller cities, it would be easier and of course we can split Stockton, but It just seems to me to split a small city like command teak or later is just insane.

613

01:34:46.320 --> 01:34:49.650

SJC Redistricting: Right Thank you sure you want to go back.

614

01:34:50.130 --> 01:34:51.540

anne baird: and your your question.

615

01:34:53.610 --> 01:35:03.750

SJC Redistricting: Oh, my question was do we want to go through, and have like miss

bear just did have everyone on the Rack comment and then have the.

616

01:35:04.920 --> 01:35:10.590

SJC Redistricting: Public deck alright so i'm going to start right up here at the.

617

01:35:10.590 --> 01:35:16.140

alice: diocese anyone on the dyess wish to comment in any direction.

618

01:35:18.300 --> 01:35:18.810

which I bet.

619

01:35:21.060 --> 01:35:36.990

alice: I think there's a lot of details that needs to be sorted out and understanding, whether this split proposed in this map of Stockton makes sense, and when I say make sense i'm actually thinking about communities of interest and.

620

01:35:38.970 --> 01:35:46.080

And I could repeat that, with I think every map that we talked about so i'll just register that thought here and not repeat it.

621

01:35:47.730 --> 01:36:01.620

I think, which was very interesting and what's been commented, is the fact that, when we start to look at agriculture and water and what what is really important is the fact that, how do you keep everything kind of in a open keel of how do we examine.

622

01:36:02.850 --> 01:36:15.660

SJC Redistricting: You know the agriculture portion because, as we move all around we go to South mantega escalade up on the West side or the East side come back you're into agriculture every area that you touch.

623

01:36:16.530 --> 01:36:22.050

SJC Redistricting: Including out to the delta and how we look at that now, you get around you know stock and centric and.

624

01:36:22.770 --> 01:36:30.360

SJC Redistricting: Community of Lodi itself, the community of you know, each one of them and cities that's a different aspect that we have to look at, but.

625

01:36:30.780 --> 01:36:44.640

SJC Redistricting: Also becomes a very, very important thing that we need to look at in the entire Community, and so, as we continue to look at these maps, is how we're going to build upon them, and still keep within the confines of that 156 number.

626

01:36:45.510 --> 01:36:49.680

SJC Redistricting: that we need to look at and what's fair and equitable to each one of the Communities.

627

01:36:53.310 --> 01:36:55.050

SJC Redistricting: Anyone online have any comment.

628

01:36:57.270 --> 01:36:58.170

alice: I just have a.

629

01:36:59.400 --> 01:37:06.000

alice: link this is Alice English if we could go back, I know, to one of the map so hyper hypothetical one.

630

01:37:06.780 --> 01:37:15.870

alice: That was the lines we're going to cross and mountain house was not included with Tracy cuz I don't know if a lot of people are aware Tracy does have a lot of advice, yes, that one.

631

01:37:16.500 --> 01:37:25.830

alice: And I try to see what the lions are is that part of manti can later up, and it goes to grip in Ashkelon him i'm looking at that correctly yeah.

632

01:37:27.750 --> 01:37:42.600

alice: And that's just hypothetically it's not it's just something that somebody put in there, but the numbers are pretty much in line as well right, and the only city that I can see the split is a little bit of antica and part of lights up.

633

01:37:44.040 --> 01:37:45.600

alice: But, everything else is intact.

634

01:37:46.980 --> 01:37:47.250

alice: yeah.

635

01:37:49.320 --> 01:38:00.780

You, of course, stocked in a split but yes, so the too late, throw up an antique are both the southern parts of it are split off into the magenta district on along the southern border.

636

01:38:02.550 --> 01:38:04.650

alice: Of the county okay that's all.

637

01:38:06.150 --> 01:38:18.480

alice: I couldn't see but now i'm looking at it, I can see where the the lines go through repent and ask RON and Tracy and then mountain house is going out with friends camp and later up.

638

01:38:21.300 --> 01:38:24.750

alice: Okay, thank you that's all I have a question on thinking.

639

01:38:25.230 --> 01:38:27.420

SJC Redistricting: Here recognizes Mr gretzky.

640

01:38:28.380 --> 01:38:30.030

james woods grunsky: Yes, Chair can you hear me okay.

641

01:38:32.160 --> 01:38:35.880

james woods grunsky: Yes, go ahead okay i'm i'm.

642

01:38:36.960 --> 01:38:37.350

james woods grunsky: In here.

643

01:38:38.670 --> 01:38:46.830

james woods grunsky: Okay i'm a little concerned with the as far as the maps go even our examples, when we go through communities of interest for us on.

644

01:38:47.340 --> 01:38:56.820

james woods grunsky: ringrose example and to me that's Tracy ribbon mantega escalade, but I see so many of these maps splitting those up, except for the one turn on the screen but.

645

01:38:58.560 --> 01:39:03.630

james woods grunsky: they're under a lot of pressure with water, and you know a lot of things, everyone here knows.

646

01:39:04.740 --> 01:39:12.990

james woods grunsky: And I just keep seeing maps as split them apart, which would essentially given no power or no voice and not only is it a massive part of our.

647

01:39:13.080 --> 01:39:27.870

james woods grunsky: county revenue wise job wise completely I just don't see i'm less concerned about splitting up towns or cities, I should say not towns than I am about keeping some communities of interest, I mean if that's the case you can.

648

01:39:28.950 --> 01:39:42.300

james woods grunsky: mysteries i'll have a point of the commuters you can have mountain House later up Western ranch and you get some pretty big numbers there, but I really think you got to have some be really cautious about splitting up.

649

01:39:43.710 --> 01:39:49.140

james woods grunsky: This agriculture, I mean if you split it up too much the ag wanting to have a voice on any county seat.

650

01:39:52.350 --> 01:39:52.920

james woods grunsky: that's all I got.

651

01:39:54.030 --> 01:39:54.300

james woods grunsky: Okay.

652

01:39:56.490 --> 01:40:03.720

james woods grunsky: Any any other comments Christmas roster than Mr morrow it i'll be brief because i've been talking way too much this meeting.

653

01:40:04.470 --> 01:40:05.460

I have three.

654

01:40:06.570 --> 01:40:09.750

SJC Redistricting: concepts that come out for me through this process, the first is.

655

01:40:11.190 --> 01:40:18.330

SJC Redistricting: We spend our time talking about the agricultural base and whether or not it should be put together divided up and those are really, really important questions.

656

01:40:19.050 --> 01:40:31.800

SJC Redistricting: We need also spend a lot of time thinking about the fact that, obviously, because often will need to be split how it will be split and that's a very refined question, because we all can kind of just look at Stockton salads.

657

01:40:32.280 --> 01:40:42.270

SJC Redistricting: Put a line here, but we like this little Manila question is a really good one, we need to be very careful how we split stopped in because, obviously, will need to be split and.

658

01:40:42.990 --> 01:40:45.450

SJC Redistricting: Make sure that we're being careful about.

659

01:40:46.110 --> 01:40:57.750

SJC Redistricting: The coins that are in the city and they may be competing competing and overlapping interests that we have to really think about the line has to go somewhere and so that that the question of how stuck in the split is, I think.

660

01:40:58.740 --> 01:41:07.800

SJC Redistricting: persnickety problem that we need to face the second realize the second thing is the gentleman who called in last week, and this idea that do you try to.

661

01:41:08.190 --> 01:41:17.730

SJC Redistricting: end it was echoed by this delta question I one of the maps the idea that do you want to spread out the interest of agriculture and the water users.

662

01:41:18.030 --> 01:41:25.020

SJC Redistricting: And, and the delta and some of these non urban interests spread them out across all the districts.

663

01:41:25.200 --> 01:41:35.460

SJC Redistricting: So that every district has that or does that squash their interest and then you don't get enough of a voice, or is it by having them in each district you actually amplify their voice.

664

01:41:35.730 --> 01:41:45.240

SJC Redistricting: That is, I don't know if there's a good answer for that and that's something we're gonna have to face, and then the last thing is the question

I asked last week i've been thinking about two weeks ago i've been thinking about a lot, which is.

665

01:41:46.200 --> 01:41:59.370

SJC Redistricting: I don't want to fall into a trap of automatically just taking our existing maps and making a small modification and challenge ourselves to think a little bit like not this month, and that was just up on the board.

666

01:42:00.330 --> 01:42:09.960

SJC Redistricting: Really there, there could be totally different shapes that meet our needs that meet our interest of representation and that are useful and good maps that are not just.

667

01:42:10.260 --> 01:42:14.190

SJC Redistricting: Our existing maps, but with a small tweak to account for population moving.

668

01:42:15.060 --> 01:42:30.690

SJC Redistricting: That I give challenge ourselves to really think how could we draw completely different map I think it's a hard one, because I think we have a lot of inertia for the existing maps, so they have those are my three ideas and you get chair Thank you more way.

669

01:42:31.710 --> 01:42:32.310

SJC Redistricting: yeah.

670

01:42:33.360 --> 01:42:37.920

SJC Redistricting: I understand the need to put cities together my living man tikkun split.

671

01:42:39.840 --> 01:42:43.470

SJC Redistricting: That doesn't seem to be a huge issue for people who live in the city.

672

01:42:44.520 --> 01:42:52.980

SJC Redistricting: But i'm really encouraged i'm hoping for encouragement from community of interest to come forward to really make their case because.

673

01:42:53.640 --> 01:43:03.720

SJC Redistricting: As Mr roaster said i'm you know i'm concerned that will just take this map and you know, make it easy and just throw some people and Tracy and

more people in mantega.

674

01:43:04.230 --> 01:43:10.560

SJC Redistricting: When we use the stock in a sort of a buffer because we know we have to split down we'll just add some more here.

675

01:43:10.920 --> 01:43:18.600

SJC Redistricting: But i'm really encouraged that because I don't live in the whole county I live in one city so i'm looking for a lot of input from the Community so i'm.

676

01:43:19.020 --> 01:43:32.370

SJC Redistricting: Hoping that these maps keep coming forward, and then we can look and see if there's a commonality between each map that helps us make a better decision, so it doesn't just become like an had a few more here and I had a few more there.

677

01:43:34.170 --> 01:43:40.650

SJC Redistricting: But at the same time it is does make sense to keep cities whole, but then again it doesn't necessarily make sense to have.

678

01:43:42.060 --> 01:43:50.340

SJC Redistricting: Supervisors that are in districts way far away in the county from where they originally live so that's always been a little troublesome to me as well.

679

01:43:50.730 --> 01:44:07.650

SJC Redistricting: So, like I said i'm waiting for some good maps to come through some community of interest and commonality and then we can really see what we can do to make this a very equitable situation for the county Thank you, thank you both of you great comments let's try that.

680

01:44:09.090 --> 01:44:14.010

Have a question and i'm not sure if it belongs at this point in the agenda at another but i'll ask it anyway.

681

01:44:15.930 --> 01:44:22.920

There has crossed my mind, a number of communities of interest that I wish were.

682

01:44:24.450 --> 01:44:39.420

brought in for us to consider a question is, can we, as Members of the ra see

submit communities of interest or does that create a conflict of interest so i'm looking at our lawyer.

683

01:44:48.690 --> 01:45:02.100

SJC Redistricting: Service no I think that's exactly the intent of the Rack and we go to these workshops, so you know, to ensure that both we're educating the public we're bringing the public comments in but also that in fact the Rack is able to explore these ideas.

684

01:45:03.090 --> 01:45:10.740

SJC Redistricting: is essentially to put it in context, this session and the sessions, that we have are under the brown excellent.

685

01:45:11.160 --> 01:45:22.890

SJC Redistricting: And that's considered a study session and so these sessions are for all of these ideas to be exchanged and I see no difference from that kind of exchange of ideas to the submission of a coin or the submission of a map.

686

01:45:23.760 --> 01:45:29.220

SJC Redistricting: And in fact that goes for of course the sitting room numbers, as well as the alternate in terms of those proposals.

687

01:45:30.480 --> 01:45:34.170

SJC Redistricting: Note as the maps are submitted and the quizzes are submitted.

688

01:45:34.650 --> 01:45:46.200

SJC Redistricting: they're not named are identified, it really is that generation of information and input so as a rack Member you remain a Community Member that doesn't change, I see no conflict or issue with.

689

01:45:46.860 --> 01:45:53.250

SJC Redistricting: RAF members or alternate submitting so we're definitely asking for the public to submit, as well as racks and alternate.

690

01:45:54.690 --> 01:45:55.050

Thank you.

691

01:45:56.910 --> 01:45:57.390

Yes, ma'am.

692

01:45:59.610 --> 01:46:02.100

SJC Redistricting: hey let's get to the microphone.

693

01:46:08.250 --> 01:46:09.360

Thank you very much.

694

01:46:15.240 --> 01:46:24.450

The fact is a major issue is San Jose used to be a garden vegetable place.

695

01:46:26.160 --> 01:46:34.230

Are we going to have concrete jungle on Lodi edibles for most fertile soil in the world somewhere.

696

01:46:35.430 --> 01:46:37.590

SJC Redistricting: Good sense as to comment on.

697

01:46:40.320 --> 01:46:42.210

That we need fresh food crops.

698

01:46:43.350 --> 01:46:55.650

SJC Redistricting: And what like what the delta provide much to the nation So where does that entering enter, how do we solve that concern with destructing.

699

01:46:56.400 --> 01:47:07.740

SJC Redistricting: I don't understand i'm trying to figure it out it's a it's an excellent question because, as we continue to grow and look at the direction that.

700

01:47:08.610 --> 01:47:26.430

SJC Redistricting: Things are taking place i've had the opportunity to talk to many farmers who you know, look at a situation than when they're offered 150 to \$200,000 an acre hey that's my retirement i've worked for it like I expect to to get it and i'm going to sell it.

701

01:47:27.450 --> 01:47:32.670

And you can go from there, those are the critical things that that we must look at.

702

01:47:35.190 --> 01:47:41.100

I always say and then this is nothing new, you know you shouldn't talk about ag with your mouth for a lot of people do.

703

01:47:42.210 --> 01:47:46.110

And you know and it's it's a situation that that.

704

01:47:48.120 --> 01:47:49.140

SJC Redistricting: They expect.

705

01:47:50.730 --> 01:48:02.700

SJC Redistricting: I can't tell you how many times in people in in agricultural understand this, that individuals will will look at something and they too many people realize or think.

706

01:48:03.540 --> 01:48:19.800

SJC Redistricting: where's my food come from well it comes in safeway comes from release it comes from whatever it doesn't come from farm or anyone that's putting her total hours and time and Labor and family work and everything into some growing food commodity.

707

01:48:21.000 --> 01:48:26.070

But those are the things that are that are important, those are thing that that we must look at.

708

01:48:27.780 --> 01:48:40.230

SJC Redistricting: This is, you know it's when we look at this and people on the committee made some some very, very important comments, and I think it's as we continue to look and what the tough part is.

709

01:48:40.710 --> 01:48:52.500

SJC Redistricting: Is that when you're starting to look and how you draw those lines and and we know and I played around with that, and you know that we're going to look at 150 6000 okay hi he goes he grew up the.

710

01:48:52.920 --> 01:49:02.820

SJC Redistricting: The West side and you've dropped those numbers and I looked at that, and you come down the bottom and you go up or how do you know when you take in it which kind of makes no sense but.

711

01:49:03.240 --> 01:49:17.310

SJC Redistricting: that's how the lines are drawn when you look at district, for, in the past, and you go all the way from from the Western boundary all the way down to to repin escalade and everything out there and Mr winn has a very, very big district.

712

01:49:18.480 --> 01:49:20.520

You know and as you continue to look at that.

713

01:49:21.600 --> 01:49:32.220

SJC Redistricting: But those are all the things that we need to look at, so you know it's something that's very important, so now, I want to open it up to people in the audience, yes, sir.

714

01:49:33.210 --> 01:49:43.290

SJC Redistricting: we'll go here first right here, and then we'll go to the gentleman money and Chris, can I ask you to go back to the last one, it will be a good visual for them.

715

01:49:47.280 --> 01:49:48.000

Okay, good.

716

01:49:49.050 --> 01:49:50.070

Very good, thank you.

717

01:49:52.710 --> 01:49:54.810

I agree with Mr oyster that.

718

01:49:56.730 --> 01:50:01.200

You know change is a good thing if it works out and.

719

01:50:02.340 --> 01:50:11.790

The fellow that drew this map i'm pretty close to and he started off on that he told me that he didn't want to do exactly what had been done before.

720

01:50:12.840 --> 01:50:14.850

And so, he thought, how would he changed it.

721

01:50:16.020 --> 01:50:28.530

SJC Redistricting: And right here, where we're sitting in Lodi if you look to the West you'll see dairies olives wine grapes corn a variety of row crops and turf.

722

01:50:29.070 --> 01:50:41.640

SJC Redistricting: If you look to the north, and if you look to the east you're

going to see a lot of wine grapes olives walnuts and way out their cattle and then to the south, you go all the way down more walnuts and almonds.

723

01:50:43.590 --> 01:50:44.160

and

724

01:50:47.550 --> 01:50:56.490

SJC Redistricting: If the other maps that you see bifurcating from north to south, then it automatically splits up that ag.

725

01:50:57.690 --> 01:50:58.980

l if you will.

726

01:51:00.480 --> 01:51:01.050

and

727

01:51:02.190 --> 01:51:07.890

When that happens, then the ag has to get more people from.

728

01:51:09.210 --> 01:51:14.730

SJC Redistricting: Urban areas right the metropolitan areas in our county and.

729

01:51:16.860 --> 01:51:22.500

That could be weakening of the AG, that is so important to us.

730

01:51:24.180 --> 01:51:38.340

And it's, it is very important and back the survey that we saw from the last presentation, the number one thing that the people of San Joaquin county some 7000 of them answered the survey.

731

01:51:39.930 --> 01:52:02.190

said number one preserving and enhancing ag lands was the most important thing for them, and the second thing was protecting delta waterways and our water quality in San Joaquin county which is great, and so I think the largest community of interest that San Joaquin county has is.

732

01:52:03.510 --> 01:52:11.790

That one that contributes over \$6 billion to our local economy and creates one in every 11 jobs.

733

01:52:13.350 --> 01:52:16.980

SJC Redistricting: So that's 10% of our people who live in the cities.

734

01:52:18.060 --> 01:52:20.310

As well as out in the farmland.

735

01:52:22.650 --> 01:52:33.810

In that blue map up there, you know you see Lodi and you see Thornton a Campo Watford clements Linden s Golan and repin.

736

01:52:34.980 --> 01:52:50.370

SJC Redistricting: Lodi by far is the largest one of those mentioned, but when I moved here some 34 years ago Lodi was the second largest community and Salma King county now it's been passed by Tracy and.

737

01:52:51.480 --> 01:53:02.370

Then passed by mantega in population size and will be passed by later up before too many years go by and so.

738

01:53:03.510 --> 01:53:13.350

we're talking about a culture here in that big blue area that really helps define who we are and there's many things that define who we are.

739

01:53:13.890 --> 01:53:35.910

A county then speaks 41 languages another area of interest up there is Lodi unified school district it's just not in Lodi we have farm schools to the West farm schools to the east and go down the hammer lane in North Stockton Lodi unified school district.

740

01:53:40.110 --> 01:53:57.240

So communities of interest certainly ag that's a huge what I can't think of anyone any larger Lodi unified school district mcombe river, we just practiced on that today and the people that don't live here love wine loving tourists.

741

01:53:59.130 --> 01:54:04.170

They come here and they deposit a lot of their money here and.

742

01:54:05.430 --> 01:54:23.820

Just over 1 million tourists stayed in Lodi and contribute now 25% of our tax dollar and most of the wineries are not inside the city limits alone, so they

contribute a pretty penny to our tax coffers for the county.

743

01:54:25.470 --> 01:54:27.450

SJC Redistricting: So that upside l.

744

01:54:29.520 --> 01:54:35.130

SJC Redistricting: works pretty hard for us, whether we live in the communities or we live in the farmland.

745

01:54:37.050 --> 01:54:39.660

it's been doing a good job and.

746

01:54:41.010 --> 01:54:42.720

I couldn't figure out how to change it.

747

01:54:44.100 --> 01:54:54.660

So I didn't I just made it hit 155 462 I was point four off so i'm looking for that little short person I guess that's good feel that.

748

01:54:55.800 --> 01:55:00.810

SJC Redistricting: So, thank you very much, thank you for your comments, gentlemen on the end place.

749

01:55:05.190 --> 01:55:10.320

Just to bring something up and you mentioned farmers and money and selling your property.

750

01:55:11.700 --> 01:55:23.190

SJC Redistricting: I guess the bottom line here is the political representatives that we're going to eventually vote for and, of course, when you speak about politics money seems to come into play.

751

01:55:24.870 --> 01:55:34.470

Maybe just not in Washington, but this whole local area and it seems as though that the demographics, of the underprivileged people in Stockton.

752

01:55:35.130 --> 01:55:45.990

As Mr mark, which I believe I pronounce it correctly yeah had mentioned that it'd be wonderful if we had some more concrete representation of those folks.

753

01:55:46.620 --> 01:55:57.330

Other than just the well heeled agricultural area granted they they input a lot into our district and it's vital for our whole industry in our own well being.

754

01:55:58.680 --> 01:56:08.790

But we have to be more inclusive, I feel when we consider those and of course that's up to the representatives, but I just wanted to throw out when you speak of money and politics.

755

01:56:09.540 --> 01:56:17.880

And who has a vested interest we could all name five names Community builders, whether it be spaniels or back or whomever.

756

01:56:19.200 --> 01:56:39.570

They have a vested interest of all properties west of I five or north of hammer lane so i'm just throwing that out as to be some food for thought, so to speak, thank you, thank you very much, Sir points well taken, we have some additional information from anyone in the audience.

757

01:56:43.230 --> 01:56:44.220

Anyone online.

758

01:56:46.620 --> 01:56:50.430

Mr you have some information regarding planning.

759

01:56:55.890 --> 01:56:59.220

SJC Redistricting: From David Quang, the commune beauty realm director for.

760

01:57:08.640 --> 01:57:15.720

SJC Redistricting: i'm the Community development director for the county and as a relates to this particular effort.

761

01:57:17.280 --> 01:57:30.000

SJC Redistricting: there's been a lot of planning lot of growth, I think, just been some of the issues over the last 10 years and, obviously, the numbers, as you can tell there's there's been a lot of brought in the respective communities.

762

01:57:31.080 --> 01:57:42.060

SJC Redistricting: you've heard also how every districts grown, but just more some of the other districts particular district five growing at an increasing rate.

763

01:57:42.750 --> 01:57:50.760

SJC Redistricting: What I wanted to do was to tie that into this effort in regard to understanding how every community grows differently.

764

01:57:51.330 --> 01:58:02.910

SJC Redistricting: And what happens is typically you have seven cities and the county and everybody has his own growth policies, so how that's typically driven it through a separate effort.

765

01:58:03.390 --> 01:58:10.800

SJC Redistricting: And what that happened, what happens is usually every city has their general plan and the updated every 10 years sometimes a little bit more.

766

01:58:11.190 --> 01:58:21.600

SJC Redistricting: And they have different growth strategy and in those growth strategies, it could be a little bit slower a little bit faster and also to the extent that they might also have.

767

01:58:22.620 --> 01:58:23.700

policies regarding.

768

01:58:24.780 --> 01:58:32.340

SJC Redistricting: green belts buffer areas stuff like that, but is really related back to the individual cities.

769

01:58:32.730 --> 01:58:40.650

SJC Redistricting: And the county itself in regard hard want to grow and So what do you see is basically every 10 years you see the results of those policies.

770

01:58:41.010 --> 01:58:57.420

SJC Redistricting: And then we have the effort at the end of every 10 years in terms of this district registering effort to try and we allocate based upon that you know that number, we have, but obviously what are you seeing and I don't have to really tell you, you see, in Labor mantega.

771

01:58:58.710 --> 01:59:08.910

SJC Redistricting: Mountain house in the county and Tracy, of course, having the real strong growth policies that has built into result of the additional.

772

01:59:09.660 --> 01:59:17.700

SJC Redistricting: Population growth was at 90 something thousand in the county itself, so now we have the effort of tying it back to this effort.

773

01:59:18.360 --> 01:59:28.950

SJC Redistricting: Every 10 years of looking at how to reallocate it, so I just want to make sure you knew, though, that it It all starts though at the local level at the real local level.

774

01:59:29.310 --> 01:59:34.800

SJC Redistricting: Where it comes back from the cities and the county and how they want to grow, so if you want to also.

775

01:59:35.190 --> 01:59:42.150

SJC Redistricting: Know continue to participate in that level, you have to be active in that perspective city as well and that's what their cities citizens one.

776

01:59:42.690 --> 01:59:49.980

SJC Redistricting: that their citizens comfortable to put in the type of representatives in those respective jurisdictions.

777

01:59:50.430 --> 02:00:04.620

SJC Redistricting: And that's the way they want to grow so never seen now in terms of the whole holistic effort of the county itself what what has to happen, what what is have N and, frankly, probably in 2030 years continuously.

778

02:00:05.280 --> 02:00:18.510

SJC Redistricting: Understanding some of the respective cities and accounting growth patterns and the restrictive general plan what's going to happen in terms of continuing those policies and we'll be doing this again in 2013 but don't know what that number will be.

779

02:00:19.770 --> 02:00:29.190

But it's continuing in that same trajectory so I just want to make sure I kind of point that out and tie in those politics i'm open for any questions as well.

780

02:00:31.140 --> 02:00:34.890

We have any questions any anybody here at the dyess.

781

02:00:35.940 --> 02:00:37.050

Anyone online.

782

02:00:38.250 --> 02:00:43.710

SJC Redistricting: No one online anyone in the audience yes ma'am will get you the microphone please.

783

02:00:44.820 --> 02:00:45.240

Thank you.

784

02:00:52.050 --> 02:00:56.520

neighbors asked me to go to the meeting April 15 and I did.

785

02:01:02.310 --> 02:01:08.760

Thank you for being so nice to be I forgot my question Oh, thank you, thank you very much.

786

02:01:10.140 --> 02:01:18.360

SJC Redistricting: we're about to adjourn this meeting, but first I want to take this opportunity, this is our last workshop before we start moved to.

787

02:01:19.110 --> 02:01:34.500

SJC Redistricting: October 13 from six to eight at San Joaquin county admin office when the process will begin, I want to take this opportunity to thank each and every one of you for coming out Mr Fowler and I had a discussion yesterday.

788

02:01:35.520 --> 02:01:40.620

SJC Redistricting: And I said he so I don't know what the turnouts be I says you're going to have people from Lodi there.

789

02:01:41.850 --> 02:01:57.210

SJC Redistricting: I said I said, I have no people in Lodi my business was agriculture right so i'm retired now, but so I have a love for something that provides food and fiber for all the people in the world.

790

02:01:58.170 --> 02:02:05.130

SJC Redistricting: it's just not here in California, but when we look all over the world, I think it was some excellent points bought out by this gentleman that.

791

02:02:05.730 --> 02:02:21.210

SJC Redistricting: Of the numbers that are out there, but you guys didn't let me down, this is a very spirited discussion and I thank everyone for your

participation, everyone in the audience, people are biased people online.

792

02:02:21.810 --> 02:02:30.600

SJC Redistricting: For your commitment and dedication, that you have given to us here is a process move forward now the real fun begins in a couple weeks.

793

02:02:31.290 --> 02:02:41.400

SJC Redistricting: When we start putting everything together and make those appropriate decisions on how the lines are going to be drawn and what's fair and equitable to each and every person in this county.
