Lodi American Viticultural Area

The Lodi AVA is the "heart" of current District 4. Please DO NOT dilute its voice on the Board by splitting it up with more urban areas south, ie north Stockton. Common concerns are agriculture (obviously), as well as the economic / social / cultural values that go along with it; also development restrictions, water rights, pesticide use, canabis regs, etc. We understand that SOME adjustment may be needed to D4 to account for changes in population, but please try to preserve at least the AVA "heart" as whole.

Lodi AVA west of I5

(first see description of primary Lodi AVA area) The portion of Lodi AVA west of I5 should terminate roughly along the line where White Slough runs north-south at King Island Marina, but there wasn't enough detail to do that, so the west portion was drawn as a separate part, extending it all the way out to county line along Little Potato Slough, including Terminous and the wildlife refuge.
