Final California Redistricting Data

Statewide Database Released Final Dataset

On September 20th, the Statewide Database released the prisoner reallocated dataset. This dataset is the final data we need to conduct this redistricting.

We can now start drawing draft maps.

First let's look at the current lines with the population using the final data set.

Communities of Interest

Outreach Hearings

After two outreach hearings, we've received public and Commissioner input. The themes of testimony received:

- Unite Tracy with Mountain House
- Could create a Commuter District – linking Mountain House to Tracy to Western Ranch in South Stockton
- Stockton must be split because of its size

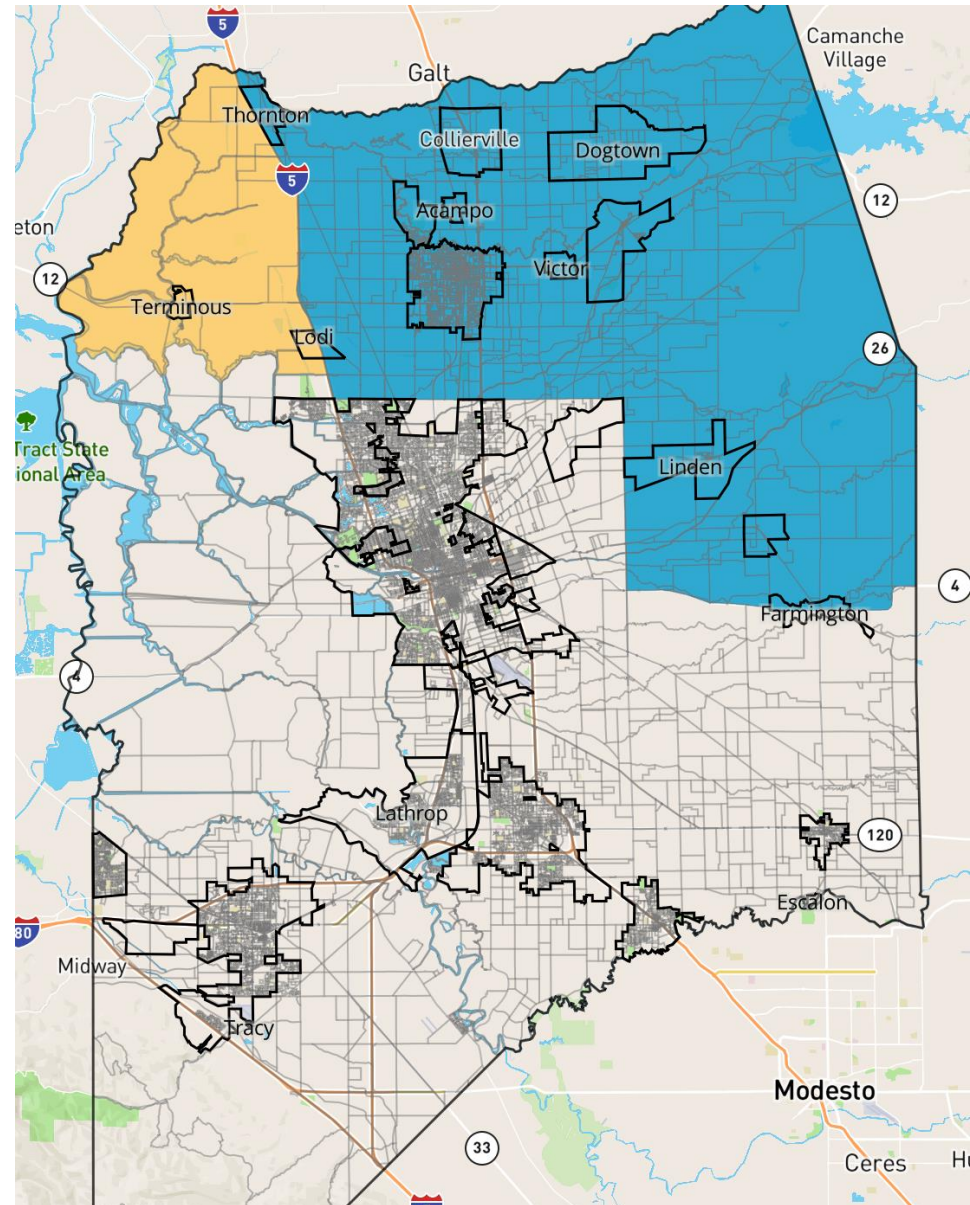

Many of these themes can be seen in the district map submissions received to date.

COI Map:
Delta

i think the delta area should NOT be put in a single district. i think it'd be better if SEVERAL districts had a VESTED interest in the area. there's not enough people living there otherwise for water issues. the colored areas are meaningless, just to show having a couple DIFFERENT districts in the OVERALL area.

COI Map:

Community of Agriculture

This is a collective of rural areas that are interwoven by shared resources. Public schools, places of worship, local business, and employment. The County is the 7th Largest producer of Agriculture. Unincorporated Cities: Acampo, Collierville, Farmington, French Camp, Lockeford, Morada, Thornton, Victor, Waterloo, Woodbridge, Linden.

COI Map:

Little Manila

Just for the record - granted there's not much left after State Route 4, and not very populated present-day, so probably little overall effect on redistricting, but it's still a historic site of widely recognized cultural significance.
