

1

00:04:19.410 --> 00:04:26.610

SJC Redistricting: Okay, good evening folks i'm do kuang the Community director for the county and rigorous targeting few minutes, I just want to give some housekeeping.

2

00:04:27.390 --> 00:04:36.420

SJC Redistricting: notes here there are signing seats outsides have you sign in on that sign in sheet go make sure you will continue to get updates in regard to meetings here.

3

00:04:36.840 --> 00:04:43.560

SJC Redistricting: and other information, the restrooms are outside the corridor once you outside of the quarter turn to your left and that's where they are.

4

00:04:43.950 --> 00:04:57.300

SJC Redistricting: And then, just in case there's some kind of emergency issue just grabbed one of our staff members and it'll take you out and just be aware, all chat instructions, this is the all chat as being monitor and record it and we will be.

5

00:04:58.320 --> 00:05:00.240

SJC Redistricting: include that as part of the record, thank you.

6

00:05:03.630 --> 00:05:04.560

SJC Redistricting: Thank you, Mr Kwan.

7

00:05:06.180 --> 00:05:08.010

SJC Redistricting: We can come up and we'll get started.

8

00:05:23.460 --> 00:05:26.010

SJC Redistricting: Mr grant see, would you please lead us in the flag sleep.

9

00:05:39.900 --> 00:05:40.260

SJC Redistricting: State.

10

00:05:44.310 --> 00:05:44.670

SJC Redistricting: On a.

11

00:05:57.300 --> 00:05:58.140

roll call, please.

12

00:06:02.550 --> 00:06:03.990

SJC Redistricting: Be President.

13

00:06:05.100 --> 00:06:19.530

SJC Redistricting: I bet President Ellis English presence and Baird here Bob mooney resident James gretzky your Mike more with for this ritual Oscar.

14

00:06:21.690 --> 00:06:22.680

SJC Redistricting: Oscar Valdez.

15

00:06:26.070 --> 00:06:27.510

SJC Redistricting: Summer penny know present.

16

00:06:29.400 --> 00:06:31.410

SJC Redistricting: an angel and Flores.

17

00:06:34.860 --> 00:06:36.000

SJC Redistricting: esau Hernandez.

18

00:06:38.970 --> 00:06:39.630

SJC Redistricting: Deep white.

19

00:06:43.020 --> 00:06:43.740

SJC Redistricting: amy star.

20

00:06:45.420 --> 00:06:46.320

SJC Redistricting: Richard silverman.

21

00:06:56.100 --> 00:06:57.330

SJC Redistricting: That concludes the.

22

00:06:58.500 --> 00:07:03.720

SJC Redistricting: roll call will now move on to the action item minutes from the 1013 meaning.

23

00:07:05.130 --> 00:07:06.690

iPhone: Everyone had the opportunity to.

24

00:07:06.690 --> 00:07:07.860

SJC Redistricting: review those minutes.

25

00:07:09.570 --> 00:07:22.590

SJC Redistricting: And do we have emotion emotion for approval second then property moved and seconded to move on the Minutes from 1013 all the favor signify by saying Aye Aye opposed same sign here.

26

00:07:29.820 --> 00:07:33.720

SJC Redistricting: We have any agenda deletions or additions.

27

00:07:40.980 --> 00:07:43.980

SJC Redistricting: A do we gone on to public comment.

28

00:07:45.390 --> 00:07:47.550

SJC Redistricting: Miss ballinger do we have anyone online.

29

00:07:49.980 --> 00:08:07.020

SJC Redistricting: No one online at this time, Mr Fowler do you have any anything I mean on yes, we do chair, we have a summation of the comments and requests and to the redistricting email account excluding off topic spam and administrative notifications.

30

00:08:08.310 --> 00:08:18.960

SJC Redistricting: First, we have an email from Jacqueline Shaw, suggesting the county creative six supervisor oriel district that recognizes the combination community of interest of the farming industry and veterans.

31

00:08:20.310 --> 00:08:29.490

SJC Redistricting: Second, we have an email from Jacqueline Shaw that reads as follows regarding keep mccomb a river continuity and redistricting admits water exports.

32

00:08:30.270 --> 00:08:46.530

SJC Redistricting: terminus plan towards so cow aqueduct renewals towards oakland Lodi lake lock for Nevada plans for eight greenhouses or call me and hill marijuana busts by northern sheriff deputies sack be July 2021.

33

00:08:47.670 --> 00:08:54.780

SJC Redistricting: That is for all four entities and redistricting votes plan a two seems good for county others seem choppy.

34

00:08:55.650 --> 00:09:02.610

SJC Redistricting: Thanks to conversations at the Lodi workshop, and also at the sj gov.org administration building in Stockton.

35

00:09:03.420 --> 00:09:11.340

SJC Redistricting: All of the panelists from different districts participate participated in discussion the surveys show countywide concern for agriculture.

36

00:09:12.120 --> 00:09:22.770

SJC Redistricting: Number one economy and water drought quiet community of interest this you have applied and matt plans for London and Lodi community at large.

37

00:09:23.160 --> 00:09:33.870

SJC Redistricting: I suggested farmer industry because Lodi has a variety and fresh food crops trees for knots olives and cherries viticulture rose crops and dairy.

38

00:09:34.620 --> 00:09:44.100

SJC Redistricting: McCall mean river and the proposed maps for county assembly senatorial Congressional my major concern is that with the River continuity to represent.

39

00:09:44.550 --> 00:09:57.090

SJC Redistricting: same district in our county assembly state Senator and Congress that includes for consideration and all four entities from the 10 year sentence, please continue to keep McCall mean river intact as a key issue.

40

00:09:58.050 --> 00:10:09.360

SJC Redistricting: below our headings to related and outs of discovering koi farmer industry calming river continuity water exports watermelons divides the dust bowl towards port of oakland.

41

00:10:09.720 --> 00:10:19.500

SJC Redistricting: to sell a nation costs less than concrete save the river, maybe any suddenly convenience best be west of delta river and duck hunters.

42

00:10:20.670 --> 00:10:28.950

SJC Redistricting: Third, we have an email from Julie Martinez that reads as follows, why is the country club Community being split I don't understand.

43

00:10:29.670 --> 00:10:36.120

SJC Redistricting: How this is even being considered our community as a whole, I have lived off as every road for 31 years now.

44

00:10:36.540 --> 00:10:42.240

SJC Redistricting: And I know most of my neighbors because of county supervisor Miguel bill approved as Community meetings.

45

00:10:42.900 --> 00:10:52.710

SJC Redistricting: It was a breath of fresh air to know that the people who lived in the country club Aaron shade share the same interest in concerns as we work together with one Supervisor to make progress.

46

00:10:53.160 --> 00:11:09.240

SJC Redistricting: Now we will be split me and my neighbor across the street will have two different supervisors, there is no reason, this is ludicrous take the politics out keep us in district one and finally chair, we get received proposed maps submitted by the public.

47

00:11:10.290 --> 00:11:24.330

SJC Redistricting: We received a number of them and the redistricting partners consultant will discuss in today's presentation under publicly submitted maps, thank you, thank you for now move on to the people who are in the audience.

48

00:11:25.380 --> 00:11:27.990

SJC Redistricting: Is there anyone who wishes to adjust the Commission.

49

00:11:29.100 --> 00:11:31.980

SJC Redistricting: Anyone at this time, wish to address the Commission.

50

00:11:39.570 --> 00:11:39.810

SJC Redistricting: hey.

51

00:11:40.830 --> 00:11:54.450

SJC Redistricting: we'll move on to rack Member disclosures and I would like to comment that should report any contacts with the purpose of those influencing the decision making authority of the committee.

52

00:11:55.350 --> 00:12:06.720

SJC Redistricting: For example, locally elected officials public entities or lobbyists so just keep that in mind when you were making our disclosures and I will.

53

00:12:07.920 --> 00:12:14.430

SJC Redistricting: be allowed to have on the next item for the context So is there any disclosures of any kind.

54

00:12:15.480 --> 00:12:26.040

SJC Redistricting: Yes, ma'am yes on October the 14th I spoke to the board of central valley low income housing i've just been appointed to that board.

55

00:12:26.370 --> 00:12:33.060

SJC Redistricting: And I told them a little bit about redistricting mentioned the talking points and gave them this time and date for this meeting.

56

00:12:33.930 --> 00:12:47.190

SJC Redistricting: I did the same thing again with the Stockton strong group on the 20th of October and on the 25th I was in a meeting of the stock and democratic club when I went through the same song and dance there.

57

00:12:48.780 --> 00:12:50.820

SJC Redistricting: Thank you, anyone else.

58

00:12:52.020 --> 00:13:02.910

SJC Redistricting: yeah I spoke with supervisors home patty just a heat we iterate that he had a call from someone from London saying hey we don't want to be a part of district three.

59

00:13:03.930 --> 00:13:08.760

SJC Redistricting: It was just of the call, and that was it I think he's referring to something that we map or went through last.

60

00:13:09.780 --> 00:13:17.340

SJC Redistricting: Meeting or one of the meetings here today, but that was it probably same calls that I received most likely okay.

61

00:13:19.110 --> 00:13:19.590

Okay.

62

00:13:21.660 --> 00:13:26.580

SJC Redistricting: Any all right we'll move on to Community contacts, the one that I would.

63

00:13:27.600 --> 00:13:29.040

SJC Redistricting: Talk about i'm meeting with.

64

00:13:30.120 --> 00:13:30.630

SJC Redistricting: Yes, ma'am.

65

00:13:41.910 --> 00:13:50.130

SJC Redistricting: And i'm recognizing this star because she talked to me before the meeting and just to announce that she has his upcoming meeting correct.

66

00:13:52.110 --> 00:14:09.930

SJC Redistricting: Right head, I will be meeting with a load I a committee on the load I a uw on November 4 to go through all of the same points that miss Barrett has indicated cheese and presenting, thank you very much i've got a meeting tomorrow with sunrise kiwanis that was quite interesting.

67

00:14:11.280 --> 00:14:18.240

SJC Redistricting: The meeting we're set, then it was cancelled and they were going to zoom because of numerous cases of.

68

00:14:19.140 --> 00:14:27.180

SJC Redistricting: Coping we've got several Members who are in the hospital or who have been in hospital one of them is very serious and.

69

00:14:27.900 --> 00:14:48.330

SJC Redistricting: The unfortunately well, he is not a Member has been quite active in our Community passed away day before yesterday, and you know it's very sad that that situation and, unfortunately, his wife is also in the same hospital and in very bad shape so.

70

00:14:49.560 --> 00:14:54.360

SJC Redistricting: just wanted to pass that on anyone else have any other comments.

71

00:14:57.630 --> 00:14:58.800

SJC Redistricting: on any contacts.

72

00:15:00.720 --> 00:15:01.380
Okay, oh.

73
00:15:02.430 --> 00:15:02.970
SJC Redistricting: Yes, ma'am.

74
00:15:04.140 --> 00:15:07.050
SJC Redistricting: I did with a couple of local.

75
00:15:08.910 --> 00:15:09.270
Okay.

76
00:15:11.160 --> 00:15:13.110
SJC Redistricting: For Micronesia.

77
00:15:14.340 --> 00:15:14.790
SJC Redistricting: and

78
00:15:16.410 --> 00:15:17.610
SJC Redistricting: Okay, thank you.

79
00:15:19.020 --> 00:15:19.770
SJC Redistricting: anyone else.

80
00:15:21.510 --> 00:15:24.330
SJC Redistricting: Alright, we are going to go into.

81
00:15:25.500 --> 00:15:28.770
SJC Redistricting: Item eight publicly submitted maps, Mr Chris JP.

82
00:15:29.940 --> 00:15:30.270
SJC Redistricting: JP.

83
00:15:36.450 --> 00:15:42.210
SJC Redistricting: And well you're getting ready, I will not look it to the right or left this time see.

84
00:15:43.890 --> 00:15:45.600

SJC Redistricting: who's got anything and their.

85

00:15:46.830 --> 00:15:47.340

SJC Redistricting: monitors.

86

00:15:49.950 --> 00:15:51.780

SJC Redistricting: minds black i'm not gonna say anything.

87

00:15:57.090 --> 00:15:59.130

SJC Redistricting: Okay, well, thank you again for having you back.

88

00:16:00.630 --> 00:16:07.050

SJC Redistricting: going to have a little repetition at the start, I always like to go over what i'm going to talk about first thing.

89

00:16:08.850 --> 00:16:15.510

SJC Redistricting: The first oops sorry first thing is just the fact the fair maps that criteria that we've seen every time I just want to.

90

00:16:16.680 --> 00:16:18.120

Put that up in front of you again.

91

00:16:19.680 --> 00:16:32.070

SJC Redistricting: we'll go through the public map submissions that have been submitted, since our last meeting and then we'll go through its, I have three draft plans, because I keep thinking that a to smooth and B to smooth are kind of like a.

92

00:16:33.150 --> 00:16:41.130

SJC Redistricting: Part of the same, but really it's really five maps, so this slide is wrong i'm sorry and then we'll just go through next steps, what we need to do next.

93

00:16:42.150 --> 00:16:47.760

SJC Redistricting: So the fair match that criteria, probably can recite this easily.

94

00:16:49.380 --> 00:17:00.990

SJC Redistricting: But there's five that we need to follow relatively equal size people not citizens we don't want any non contiguous districts no islands are hopping and skipping around.

95

00:17:01.620 --> 00:17:11.280

SJC Redistricting: We want to maintain to use of interest that's the biggest thing with fair maps act right that's why we've done all the outreach meetings and had this very deliberate public process.

96

00:17:12.960 --> 00:17:26.220

SJC Redistricting: The fourth criteria, this is especially important for counties is falling those cities, and since this doesn't even places and that act to be where we are today where almost every map has every city hole in the county in a district.

97

00:17:27.780 --> 00:17:33.180

SJC Redistricting: And the fifth issue is that we want the districts to become packed in both the parents and function.

98

00:17:36.930 --> 00:17:47.400

SJC Redistricting: So all of the maps that are coming forward follow these fair maps criteria and really look and are built from Community interest testimony.

99

00:17:51.720 --> 00:18:08.040

SJC Redistricting: And again, this meeting, really is to provide you these draft maps go through them and then really get both your input and the community's input on what needs what changes need to be made me possibly pass a couple maps.

100

00:18:09.060 --> 00:18:13.410

SJC Redistricting: For the next hearing for recommendations basically whittle down these five.

101

00:18:14.520 --> 00:18:18.090

SJC Redistricting: And then, if if there isn't a map permutation.

102

00:18:19.140 --> 00:18:26.130

SJC Redistricting: Presented we can talk up talk about providing a new map, but I think we're kind of down the right path already.

103

00:18:28.290 --> 00:18:34.440

SJC Redistricting: So then, these are just the themes of the community of interest that we've really had talked through a lot.

104

00:18:35.190 --> 00:18:45.870

SJC Redistricting: uniting Tracy and mountain House really respecting the act of the rural agricultural areas as Glenn pointed out that's the number one thing that came out of the.

105

00:18:46.590 --> 00:18:57.840

SJC Redistricting: The Pole and I think we do that and pretty much all of these plans you'll see tonight respect respecting the delta and important water issues another really high important thing from the pole.

106

00:18:59.550 --> 00:19:09.120

SJC Redistricting: And then, knowing that socked in this split, making sure that it makes that we're using streets or school district lines or something that makes sense from.

107

00:19:10.230 --> 00:19:11.460

SJC Redistricting: From the resident standpoint.

108

00:19:12.780 --> 00:19:18.660

SJC Redistricting: don't split mantega that was pretty specific right, Mr chair.

109

00:19:19.980 --> 00:19:31.230

SJC Redistricting: And then I think a great comment that was made last last time was making sure we unify the port in one district, so that that can be a central point for whoever represents that district.

110

00:19:33.180 --> 00:19:34.740

SJC Redistricting: So now, I just want to go through.

111

00:19:35.790 --> 00:19:44.370

SJC Redistricting: The the maps that have been submitted, starting with the p map that was submitted on the night of our last meeting I think are the day of our last meeting.

112

00:19:45.600 --> 00:19:46.680

SJC Redistricting: But again, this is.

113

00:19:47.730 --> 00:19:58.200

SJC Redistricting: A plan that's that's similar in a lot of ways to the maps you'll see tonight, where you have to Stockton base districts, you have mountain house and.

114

00:19:59.220 --> 00:20:07.680

SJC Redistricting: lay throat and Tracy connected and then you have that kind of a two splits right this this map splits the rural areas into.

115

00:20:08.820 --> 00:20:17.310

SJC Redistricting: To east, west districts, a little differently than a lot of the maps, you have before you, but again it's total deviation is 2.4%.

116

00:20:17.850 --> 00:20:34.230

SJC Redistricting: And it's the district, with the highest Latino population meets our our mark at 48.7 and if there's any maps that you want to jump into and talk through more please stop me and we can we can do that.

117

00:20:37.020 --> 00:20:44.850

SJC Redistricting: Then there's the baby bear vr a district again this one has a very low deviation of only point 3%.

118

00:20:45.960 --> 00:20:59.940

SJC Redistricting: It meets the mark for our Latino district at 49.1, but if you look at this district, this is similar in some ways to old plan see where we split where we're splitting the district and or the delta into three districts.

119

00:21:01.350 --> 00:21:18.300

SJC Redistricting: But you still have a lot of the same similarities where you've got the magenta district with Tracy mountain house and way through you've got to the Teal district that's mantega whole with French camp and then you've got the large the the seven.

120

00:21:19.680 --> 00:21:23.820

SJC Redistricting: rural district, and then the the northern district in Stockton.

121

00:21:25.080 --> 00:21:32.640

SJC Redistricting: Tax on the delta that's really the biggest difference between this one, and the current or the Plan D that we'll be discussing in a minute.

122

00:21:34.710 --> 00:21:36.420

SJC Redistricting: we've got this map again.

123

00:21:37.620 --> 00:21:44.070

SJC Redistricting: 4% total deviation so it's fine the district of the highest Latino see that's 48.5.

124

00:21:45.300 --> 00:21:54.390

SJC Redistricting: Which is right at where it needs to be, I think it needs to actually grow by 2.2% which is doable with some you know slight changes.

125

00:21:55.410 --> 00:22:02.220

SJC Redistricting: You have the same similar architecture to the p map where, but this time you have delta in two districts.

126

00:22:03.270 --> 00:22:14.490

SJC Redistricting: And the Teal district is a little bit more compact and has a little more of Stockton, you can see it stretches from the West side of Stockton, all the way around to the east side.

127

00:22:18.780 --> 00:22:22.230

SJC Redistricting: Another here's another map this one, I think.

128

00:22:24.570 --> 00:22:35.880

SJC Redistricting: It splits a lot of cities, as you can see it's 4.5% total deviation it's just real high the Latino districts, a little bit low at only at 47.

129

00:22:37.590 --> 00:22:44.700

SJC Redistricting: But what it does, is it splits lay throat and mantega and does that southern rural district that we've seen.

130

00:22:45.810 --> 00:22:55.620

SJC Redistricting: done before linking Tracy to rip in an escalade it also puts a mountain house with laser and not with Tracy which we have heard.

131

00:22:56.790 --> 00:23:08.880

SJC Redistricting: The opposite in a lot of a lot of the testimony you still also have that large rural agricultural base district in the north, part of the seven is here just excluding escalade.

132

00:23:11.880 --> 00:23:27.180

SJC Redistricting: And then we have a series of four maps the before clan I don't know what that stands for, but you'll see four of them and the parentheses give you a hint on the changes so in this map.

133

00:23:28.200 --> 00:23:42.480

SJC Redistricting: radha is in the three, which is the Teal district and repin is in the lime green district, all of these maps will show the 49.5%.

134

00:23:43.770 --> 00:23:53.280

SJC Redistricting: Higher hi for the Latino district they those don't change really the only ones that are changing our district, three and four that the two green map the the Teal and the lime green.

135

00:23:54.450 --> 00:24:01.740

SJC Redistricting: And the deviations are all very low, so this is the first version, so at 1.1% deviation.

136

00:24:03.120 --> 00:24:14.520

SJC Redistricting: This is the second variation where marotta is now in district four so it's moved up to be with Lodi and repin is now in the Teal district so it's moved into be with mantega.

137

00:24:17.130 --> 00:24:20.820

SJC Redistricting: Sorry it's at 2.2%, this is the highest deviation.

138

00:24:21.960 --> 00:24:22.800

SJC Redistricting: Of the for.

139

00:24:23.820 --> 00:24:34.380

SJC Redistricting: This district as a really low deviation of point 7% and now the both murata and repin have been unified and put in with the Lodi ag district.

140

00:24:36.060 --> 00:24:44.460

SJC Redistricting: And the final version of this this grouping at total deviation of 1.3% you now have marotta and repin.

141

00:24:46.320 --> 00:24:48.000

SJC Redistricting: Unified in the.

142

00:24:49.650 --> 00:24:56.070

SJC Redistricting: looks like I think this is the wrong map i'm sorry, they should show marotta and repin both in the.

143

00:24:57.450 --> 00:24:58.230
SJC Redistricting: field district.

144

00:24:59.460 --> 00:25:03.120
SJC Redistricting: But it's basically showing that you can have any combination of those.

145

00:25:04.200 --> 00:25:11.340
SJC Redistricting: Small Eric will ones, the city ones, an area in three or four with and being being fine with the deviations.

146

00:25:13.710 --> 00:25:18.900
SJC Redistricting: Okay, so those are the the public map so we've gotten since we last met.

147

00:25:20.400 --> 00:25:25.710
SJC Redistricting: And I just want to re show the current lines and remind us.

148

00:25:26.970 --> 00:25:31.290
SJC Redistricting: Where we stand, so our total deviation is at.

149

00:25:32.820 --> 00:25:35.490
SJC Redistricting: Is is too high it's a 20 sorry.

150

00:25:36.510 --> 00:25:38.550
SJC Redistricting: usually have this right in front of me but it's at.

151

00:25:40.230 --> 00:25:52.830
SJC Redistricting: 21.7% or out of deviation that's because of the imbalance in the growth of the of the county and that's why we're here today without more without further ado.

152

00:25:54.120 --> 00:26:00.120
SJC Redistricting: here's plan a to now you this is a variation on plan a that we saw last time.

153

00:26:01.410 --> 00:26:08.970
SJC Redistricting: it's built from a publicly submitted map and the biggest changes really are moving lock for it into district for.

154

00:26:10.080 --> 00:26:22.980

SJC Redistricting: And splitting the delta between district two and five in the prior map there's you can see the delta split into thirds right one part into district two part into district five and part into district.

155

00:26:24.810 --> 00:26:25.140

or.

156

00:26:27.600 --> 00:26:33.060

SJC Redistricting: And now basically you have its district district for in district five that have.

157

00:26:34.320 --> 00:26:39.600

SJC Redistricting: The delta and and as we discuss the desert five it has grown a little bit to include the delta from.

158

00:26:40.650 --> 00:26:45.330

SJC Redistricting: An area standpoint, but I think it only picked up like 2200 people.

159

00:26:46.830 --> 00:26:58.770

SJC Redistricting: district four also picked up a lot lock for to be associated with the in the Lodi district in district four and everything else, remain the same so you've got.

160

00:26:59.670 --> 00:27:10.950

SJC Redistricting: mantega whole with with French camp repin and escalade, you have the mountain house Tracy lathrop whole industry five the to Stockton districts.

161

00:27:12.210 --> 00:27:15.300

SJC Redistricting: And in this one marotta is in with dessert for.

162

00:27:20.370 --> 00:27:22.380

SJC Redistricting: Here you can see, the current lines.

163

00:27:23.610 --> 00:27:38.880

SJC Redistricting: There are a lot of changes and some of the rural areas of course district five has come out of mantega who allowed to be whole and there are changes, of course, in the like in how the district split Stockton.

164

00:27:40.410 --> 00:27:45.570

SJC Redistricting: I think the other thing to point out, with this district is the.

165

00:27:47.760 --> 00:27:48.360

SJC Redistricting: The hand.

166

00:27:49.740 --> 00:28:05.340

SJC Redistricting: or this I don't know the Stockton hand that's what i've been calling it so that is the city limit or the city border that's why it's included in this district and from comments we were asked what would happen if you.

167

00:28:06.390 --> 00:28:10.560

SJC Redistricting: chopped it off and made it so that you didn't have that strange appendage.

168

00:28:12.300 --> 00:28:19.500

SJC Redistricting: So that's what you get it's going to jump ahead in Plan A to we call the to smooth.

169

00:28:20.730 --> 00:28:25.050

SJC Redistricting: And what's interesting is there's one person in that.

170

00:28:26.460 --> 00:28:31.620

SJC Redistricting: appendage doesn't there's like one it's it's it's very uninhabited.

171

00:28:33.480 --> 00:28:40.590

SJC Redistricting: It doesn't change this Eve APP this Eve APP if you look between a to an A to smooth it's at 53%.

172

00:28:42.990 --> 00:28:43.710

SJC Redistricting: So.

173

00:28:46.170 --> 00:28:52.980

SJC Redistricting: want to make sure 15.3% excuse me, I misspoke but the sea of Apps stay the same.

174

00:28:54.210 --> 00:29:00.570

SJC Redistricting: And that's the only change between a two and a to smooth is

removing that appendage.

175

00:29:01.590 --> 00:29:02.250

SJC Redistricting: The same.

176

00:29:04.170 --> 00:29:10.050

SJC Redistricting: same comes forward so and then, I guess, I did not go through the total deviation of this plan.

177

00:29:11.460 --> 00:29:19.080

SJC Redistricting: Both the twos have you know, are on the higher end of our total deviation ones that 9.3%.

178

00:29:20.580 --> 00:29:25.920

SJC Redistricting: we're still under 10 it's a legal plan, but it's right at the top end.

179

00:29:28.230 --> 00:29:30.090

SJC Redistricting: So, then, for the be to plan.

180

00:29:32.670 --> 00:29:41.700

SJC Redistricting: It was it was funny when I went back through my notes from last from last time i'm like basically you asked for be to look more like a.

181

00:29:42.810 --> 00:29:58.920

SJC Redistricting: Right and I feel like the the architecture is getting very similar and so with this plan, we unite Tracy and mountain house which wasn't true before we move ribbon and Ashkelon into district three and we unify mantega.

182

00:30:00.300 --> 00:30:02.640

SJC Redistricting: Which is very similar to a to.

183

00:30:03.930 --> 00:30:17.130

SJC Redistricting: The here's this here's where we started from, and you can see that it's we made a lot of changes, but by following the statements and the comments from last time.

184

00:30:19.110 --> 00:30:28.320

SJC Redistricting: And I think the biggest difference between this plan and a two is the the northern border of desert to.

185

00:30:30.210 --> 00:30:33.750

SJC Redistricting: think that moves up to a mile road in this in this version.

186

00:30:36.030 --> 00:30:37.500

SJC Redistricting: And again, you have.

187

00:30:38.700 --> 00:30:39.360

SJC Redistricting: murata.

188

00:30:40.620 --> 00:30:59.580

SJC Redistricting: In with district four and you have the same city combinations that we had in a to there aren't any every all the cities are whole and in a district, we also have locked for it and Victor with with Lodi again in district four and again you'll have you see that that appendage.

189

00:31:00.600 --> 00:31:16.590

SJC Redistricting: In district one, and the only difference between this plan and B to smooth is that change the smoothing of the line of Stockton, could you just come back to that map, just before the color map this one yeah.

190

00:31:18.060 --> 00:31:29.880

SJC Redistricting: Okay, because that's what we started, we remember, if you remember, be was like it had house yeah it was the end and basically we change the architecture to look a lot more like like a.

191

00:31:34.860 --> 00:31:46.470

SJC Redistricting: So I think I see one difference between a two and V2 based on the paper version that we have here, which is in beat ooh it looks like the country club area was split.

192

00:31:46.920 --> 00:31:57.330

SJC Redistricting: A comment, the public comment has made to into that area, and while we might want to talk more about where those boundaries are but that that is a difference that I noticed right.

193

00:31:58.680 --> 00:31:59.400

SJC Redistricting: So.

194

00:32:01.650 --> 00:32:03.870

SJC Redistricting: Think about how best describe this.

195

00:32:12.390 --> 00:32:13.290

SJC Redistricting: Basically.

196

00:32:14.340 --> 00:32:15.120

SJC Redistricting: there's no way to zoom in.

197

00:32:28.530 --> 00:32:32.340

SJC Redistricting: One of the biggest differences, as you can see that small.

198

00:32:34.020 --> 00:32:41.460

SJC Redistricting: Like the edge of district one into that I believe separates country club right.

199

00:32:42.810 --> 00:32:54.780

SJC Redistricting: And so we would need to look that's one thing we could do right is, we would take whichever one splits country club, the least of these two plans and then try to unify it and the next version.

200

00:32:55.920 --> 00:32:59.250

SJC Redistricting: For the next meeting, looking at country club and then I think.

201

00:33:01.440 --> 00:33:20.670

SJC Redistricting: What might come forward and when we start talking about D, but the where murata is right, like that's another that's another difference with Plan D than these maps in a in a two and V2 rod is always with Lodi and in northern district in the plan D.

202

00:33:22.410 --> 00:33:25.140

SJC Redistricting: which I think i'll hop to that's okay.

203

00:33:33.510 --> 00:33:43.410

SJC Redistricting: So Plan D really came forward, because there was a lot of discussion about using the cores looking back at the course of the current districts.

204

00:33:43.860 --> 00:34:04.530

SJC Redistricting: and providing an option that looked at those the cores and kind of just provided the Rack with another another map option, because be two and a two

are so similar when I did create some variation and that had been discussed a lot in the public comments and in the map submissions.

205

00:34:06.300 --> 00:34:08.940

SJC Redistricting: So we're calling this draft plan D.

206

00:34:10.950 --> 00:34:12.510

SJC Redistricting: And you can see, with D.

207

00:34:13.740 --> 00:34:25.890

SJC Redistricting: I think the biggest difference between this construction and the A to B to version is district four's its size right its territory grows.

208

00:34:26.940 --> 00:34:35.040

SJC Redistricting: by leaps and bounds, and it picks up Escalade and Repin which were in district three in the other maps.

209

00:34:36.120 --> 00:34:37.320

SJC Redistricting: And to do that.

210

00:34:38.970 --> 00:34:51.630

SJC Redistricting: district three picks up more of Stockton to for population balancing and you can see that the line of district two moves in a little bit north or slightly, but that those are like the I think the biggest.

211

00:34:52.920 --> 00:35:09.480

SJC Redistricting: Variations in the in the map you we have that reintroduction of the seven shaped rural district in district four we're Lodi goes, all the way south to the to the border the county border Mr Jeffrey just too.

212

00:35:10.830 --> 00:35:12.780

SJC Redistricting: Because if I'm looking at the paper.

213

00:35:14.700 --> 00:35:16.080

SJC Redistricting: I don't have.

214

00:35:17.940 --> 00:35:32.190

SJC Redistricting: present the one compact or the leaf leaf change sorry, please at least change in your packet, but I just wanted to make sure, and I just think for naming conventions we should we're going to use Plan D it's a new kind of map

variation.

215

00:35:34.110 --> 00:35:38.940

SJC Redistricting: So that there isn't that they're all treated kind of the same same naming Convention.

216

00:35:40.320 --> 00:35:44.790

SJC Redistricting: But I think, as some have pointed out, you can see district to.

217

00:35:45.990 --> 00:35:58.050

SJC Redistricting: Its northern border is a straight line it doesn't dip on the South that sorry the north east corner, to move marotta into district for like like we have and.

218

00:35:59.310 --> 00:36:02.100

SJC Redistricting: In a two and V2 and I think the.

219

00:36:03.360 --> 00:36:08.160

SJC Redistricting: The great thing about playing D is its total deviation, I believe, is at 1.3%.

220

00:36:09.780 --> 00:36:18.000

SJC Redistricting: So make sure yeah it's 1.3% so you can make a lot of changes if you'd like with playing D.

221

00:36:19.650 --> 00:36:28.560

SJC Redistricting: If there are things you don't you don't like I mean we can't totally change all the lines right, but we can like do a marotta movement.

222

00:36:30.330 --> 00:36:37.650

SJC Redistricting: Or, if you want to move Waterloo into, for you know some of the smaller CSD that are in the districts.

223

00:36:39.480 --> 00:36:52.710

SJC Redistricting: And again, I think we can also from the public comment and from the discussion we can also look at the country club area and make sure that its hole in in a district, so that we can.

224

00:36:55.530 --> 00:36:56.880

SJC Redistricting: fix that that that issue.

225

00:36:58.350 --> 00:36:58.740

SJC Redistricting: Yes, sir.

226

00:37:00.030 --> 00:37:03.270

SJC Redistricting: First of all, apologize I haven't got the hiccups and 15 years.

227

00:37:04.320 --> 00:37:06.240

SJC Redistricting: Apparently the night forward.

228

00:37:08.910 --> 00:37:12.660

SJC Redistricting: Forest controlled by our grew up they're born they're born and raised.

229

00:37:14.190 --> 00:37:18.780

SJC Redistricting: upward mobility from a parent working hard moved me to eventually to.

230

00:37:20.040 --> 00:37:28.860

SJC Redistricting: Thinking unified and then to brookside and very similar communities frankly we're talking a little leagues and people that play together and grow up together.

231

00:37:30.990 --> 00:37:33.960

SJC Redistricting: i've seen a couple maps where they're kind of split up, but I do think that.

232

00:37:35.220 --> 00:37:44.070

SJC Redistricting: Should kind of work to keep those together possible it's a very minor thing yeah but it's just something, though, and I think it's easily done, I think it's more about.

233

00:37:45.300 --> 00:37:45.870

SJC Redistricting: Maybe have.

234

00:37:46.980 --> 00:37:54.690

SJC Redistricting: Some an error in map construction because it's not not a big thing it's like levy you don't you grew up on a lovey lovey lovey.

235

00:37:55.110 --> 00:38:03.990

SJC Redistricting: yeah it's kind of the same thing, whether, no matter where you grew up so it's a very similar I know he was an alternate over there kind of very similar grew up in both areas as well.

236

00:38:07.380 --> 00:38:08.010

Just something to.

237

00:38:09.840 --> 00:38:10.770

SJC Redistricting: Think about yeah.

238

00:38:15.090 --> 00:38:21.060

SJC Redistricting: Chris I want to thank you to the opportunity with the MIC to thank you for the additional information that you've added.

239

00:38:21.930 --> 00:38:32.220

SJC Redistricting: largely at my request, the heat map and yeah some of the inclusion of the compactness details in the one in the sheets that were that is for the smaller maps that are provided to the public, I think that's.

240

00:38:32.820 --> 00:38:40.020

SJC Redistricting: very useful information I apologize, who was a lot of work to just make me think that it was feasible, it did help me actually to think about things.

241

00:38:40.650 --> 00:38:47.460

SJC Redistricting: The question I have tonight about the Plan D is that I liked it quite a bit, I think there are things to like about it.

242

00:38:48.240 --> 00:38:56.370

SJC Redistricting: I am a big fan of the plan I NS a and plans be model that we came up with is, I think this is a novel.

243

00:38:57.180 --> 00:39:14.220

SJC Redistricting: kind of different approach My only concern is that the Steve APP in district one here, it may be symbolic, it may be less important from a practical standpoint but I don't like seeing it at 49.9 when we have maps that have it above 50, and again I don't.

244

00:39:15.720 --> 00:39:25.650

SJC Redistricting: it's point 1%, is it really meaningfully that different, but I

think I wouldn't mind seeing if we could maybe take Plan D, if there was a way to make.

245

00:39:26.250 --> 00:39:33.150

SJC Redistricting: very small changes to the existing Plan D, or we just bump it up just so that we're presenting something to the board.

246

00:39:33.840 --> 00:39:45.390

SJC Redistricting: That at least has one district because it's possible with a 50% or above for this particular legal requirement that we have we just get it over that little line yeah and I think.

247

00:39:45.840 --> 00:39:54.960

SJC Redistricting: Because we have that deviation that we can play with that I don't think that would be a huge issue, I think one of the things you might see is.

248

00:39:56.040 --> 00:39:59.820

SJC Redistricting: The eastern North eastern part of district one.

249

00:40:01.200 --> 00:40:06.150

SJC Redistricting: You can see how it has the kind of like a nose that comes out that might get.

250

00:40:07.290 --> 00:40:12.630

SJC Redistricting: removed from the one and moved over into D3 and this construction.

251

00:40:13.830 --> 00:40:17.820

SJC Redistricting: To push the see that a little higher Thank you.

252

00:40:20.190 --> 00:40:20.970

SJC Redistricting: Yes, my big.

253

00:40:22.590 --> 00:40:23.520

SJC Redistricting: i'd like to.

254

00:40:25.500 --> 00:40:34.740

SJC Redistricting: Provide also an appreciation of the added information by did Chris and i'm looking at the census population heat map.

255

00:40:36.840 --> 00:40:37.200

and

256

00:40:38.400 --> 00:40:45.870

SJC Redistricting: What I see is what looks like a significant data error and I don't know if.

257

00:40:47.190 --> 00:40:54.660

SJC Redistricting: That is something that would come back to haunt us later, but if you go to on the wonderful heat map.

258

00:40:55.680 --> 00:41:03.570

SJC Redistricting: Go south of the word Waterloo and there is a very spread census block.

259

00:41:04.590 --> 00:41:07.500

SJC Redistricting: That is one of the most dense.

260

00:41:08.670 --> 00:41:12.510

SJC Redistricting: Population counts and granted his arch it.

261

00:41:15.480 --> 00:41:18.660

SJC Redistricting: I live near there and i've never seen that dense neighborhood.

262

00:41:19.860 --> 00:41:22.710

SJC Redistricting: So one of the one of the things about.

263

00:41:27.660 --> 00:41:33.510

SJC Redistricting: Maybe it's just an error and creating the heat map, then so we shouldn't worry about it, but I just want to make sure that we've got accurate data that.

264

00:41:34.800 --> 00:41:35.340

provided us.

265

00:41:36.510 --> 00:41:41.790

SJC Redistricting: And if there's a mistake in it yeah I contest later I mean, I think.

266

00:41:44.850 --> 00:41:51.300

SJC Redistricting: The the populations in the atlases that you've been provided and the presentation, I think.

267

00:41:52.320 --> 00:42:00.030

SJC Redistricting: I mean we've done flow analytics who's working with us on to help map and registering partners we've both been.

268

00:42:02.850 --> 00:42:14.880

SJC Redistricting: checking these plans and making sure that our numbers are the same so we're getting similar numbers I think sometimes when you do heat maps, there can be small aberrations, we can look into it, but.

269

00:42:16.860 --> 00:42:22.980

SJC Redistricting: i'll God or drive through that neighborhood yeah yeah it's near London correct.

270

00:42:24.000 --> 00:42:25.680

SJC Redistricting: yeah I actually live in water this.

271

00:42:30.570 --> 00:42:32.400

SJC Redistricting: continue on please oh sure.

272

00:42:33.480 --> 00:42:34.050

SJC Redistricting: So.

273

00:42:35.550 --> 00:42:36.270

SJC Redistricting: Plan D.

274

00:42:37.320 --> 00:42:53.040

SJC Redistricting: So it is preserving corps of the current districts, you can see, though, that we have made changes it's not like we're just adjusting for population we're also with this plan really listening to the Community interest testimony about keeping all the cities whole.

275

00:42:54.210 --> 00:42:56.940

SJC Redistricting: You know, preserving and protecting the Delta.

276

00:42:58.170 --> 00:42:58.800

SJC Redistricting: and

277

00:43:00.150 --> 00:43:12.060

SJC Redistricting: And everything we've kind of talked through it just it's a slightly different configuration that we thought we'd want to have you see, because it has a reintroduces district for more like it is now.

278

00:43:14.760 --> 00:43:19.200

SJC Redistricting: Again, you can see, though, that the deviation is at 1.3%.

279

00:43:22.200 --> 00:43:31.950

SJC Redistricting: So we do have the wiggle room to maybe move marotta into district into district four if that's of interest, we can look at country club as well make sure that it's unified.

280

00:43:35.010 --> 00:43:38.550

SJC Redistricting: And and actually, let me just finish, and then we can open back up so.

281

00:43:40.620 --> 00:43:44.910

SJC Redistricting: We have these three plans in front of us, we also have all the public maps that have been submitted.

282

00:43:45.390 --> 00:43:59.460

SJC Redistricting: And I think the biggest thing in this meeting is really to to drill down on one of these plans or a couple of these plans provide like kind of specific or overarching changes you'd like to me you like made.

283

00:44:01.170 --> 00:44:06.240

SJC Redistricting: So that we can in the next meeting when we're recommending a map to the board.

284

00:44:07.260 --> 00:44:14.310

SJC Redistricting: You have almost exactly what you want to recommend next week or sorry not now next week next meeting.

285

00:44:18.840 --> 00:44:21.780

SJC Redistricting: So I think, so the timeline.

286

00:44:22.950 --> 00:44:23.760

SJC Redistricting: today's the.

287

00:44:25.560 --> 00:44:38.880

SJC Redistricting: 2627 i'm sorry i'm like it's right there in my it's staring me in the face, so it will be coming back again on November 10 to do that recommendation to the board of supervisors.

288

00:44:39.390 --> 00:44:48.210

SJC Redistricting: And you can do one plan you can do to plans you can do well i'm not going to go and hire three plans, but nothing crazy I hope.

289

00:44:49.860 --> 00:44:50.400

SJC Redistricting: and

290

00:44:52.290 --> 00:45:01.320

SJC Redistricting: yeah so that's that's the rest of the timeline and really for the November 10 meeting, we want to recommend a couple plans to the board.

291

00:45:02.610 --> 00:45:07.920

SJC Redistricting: and have a good testimony for Mr Brown, to give and walk through with the board.

292

00:45:09.540 --> 00:45:11.520

SJC Redistricting: Later in November excellent.

293

00:45:13.800 --> 00:45:14.250

SJC Redistricting: Better.

294

00:45:16.620 --> 00:45:19.650

SJC Redistricting: Go to Mr mooney and yeah I got a question.

295

00:45:20.820 --> 00:45:24.240

SJC Redistricting: The public's at least submitted maps that he presented to us.

296

00:45:25.380 --> 00:45:38.310

SJC Redistricting: That those were the ones that were submitted, since our last meeting, what about all the public maps that were present put up their previous to that so we we went through them last two weeks ago.

297

00:45:39.690 --> 00:45:44.040

SJC Redistricting: bread before I had presented go through all the all the all the public maps last one.

298

00:45:46.230 --> 00:45:47.700

SJC Redistricting: I thought we went through.

299

00:45:48.930 --> 00:45:53.550

SJC Redistricting: Most of them I get i'm sorry if I misspoke is there a specific map you'd like to be.

300

00:45:55.170 --> 00:46:02.220

SJC Redistricting: Before oh I i've never seen you present the one that I had put on myself oh i'm sorry no I, which was.

301

00:46:03.360 --> 00:46:07.710

SJC Redistricting: Like a month ago I put it on there and i've never seen you put it up there.

302

00:46:08.730 --> 00:46:14.100

SJC Redistricting: or anybody else to look at, so I you know if you'll see it on the website it's fine, but you know I just kind of.

303

00:46:15.780 --> 00:46:21.540

SJC Redistricting: As a as a group, you know you're putting all this stuff to us okay here's what i'm recommending but.

304

00:46:22.620 --> 00:46:27.060

SJC Redistricting: You need to me it should all be put out there for us to pick ones, and then you alter.

305

00:46:29.010 --> 00:46:30.600

SJC Redistricting: Okay, no you're not wrong.

306

00:46:31.740 --> 00:46:41.970

SJC Redistricting: i'm sorry that I thought I had when Glenn emailed me and asked me, the number of the map that I had submitted and he I sent it back to him, he said, thank you, I still hadn't seen it.

307

00:46:43.200 --> 00:46:48.900

SJC Redistricting: But I can I can pull that up and it's my it's my air I thought I had included it in this presentation, the ceremony and.

308

00:46:50.220 --> 00:46:51.570

SJC Redistricting: I can pull it up right now.

309

00:46:53.580 --> 00:46:57.030

SJC Redistricting: Access or what about any others that were previous we haven't seen.

310

00:47:00.390 --> 00:47:08.640

SJC Redistricting: You see, where i'm coming from know I do you're sitting there you know, like you came in that meeting last the last meeting here's three maps to look at well.

311

00:47:09.600 --> 00:47:22.770

SJC Redistricting: What about all the others we basically concentrated on those three maps we didn't look at all the other maps submitted Okay, I thought we went through about 15 publicly submitted maps the last meeting before the draft.

312

00:47:28.620 --> 00:47:30.330

SJC Redistricting: So i'm i'm sorry.

313

00:47:32.910 --> 00:47:40.170

SJC Redistricting: Good on Sam just saying you didn't take input from us, of which map to look at as much as you did, sending us the three to look here.

314

00:47:46.800 --> 00:47:52.920

SJC Redistricting: Give me a moment i'll look at the plan ID and we can pull that up yes it's very relevant and then we'll come back.

315

00:47:54.060 --> 00:48:02.580

SJC Redistricting: Oh it's my turn Okay, I just wanted to put in a plug for Plan D, I like it, I think it works well.

316

00:48:03.720 --> 00:48:19.170

SJC Redistricting: I agree with keeping country club Hall, and I would like to have somebody take a look at if we could get more of Stockton into district two so that as much of Stockton as possible is in either one or two.

317

00:48:21.780 --> 00:48:23.220

SJC Redistricting: But otherwise I like playing the a lot.

318

00:48:25.200 --> 00:48:29.850

SJC Redistricting: roster then we'll go to this side disciplined enough.

319

00:48:32.220 --> 00:48:32.580

SJC Redistricting: ski.

320

00:48:34.110 --> 00:48:42.930

SJC Redistricting: Chris I just want to clarify something that Krishna moon is asking about it was my understanding, and please correct me if i'm wrong, because this was my assumption as well that you had taken.

321

00:48:43.710 --> 00:48:53.430

SJC Redistricting: The broad variety of publicly submitted maps and that you had you and, as my recollection you had chosen representatives that reflected concepts.

322

00:48:54.030 --> 00:49:01.710

SJC Redistricting: In other words, you it kind of co correlated together like they were maybe six maps represented by this map that you're presenting to the committee.

323

00:49:02.460 --> 00:49:24.750

SJC Redistricting: Two weeks ago, and there was a grouping of maps and that's how that's how I had interpreted the totality of the publicly submitted maps being presented to us yeah I think that's what I would I tried to do, because I feel like I think they're over 30 maps presented or sorry in distributor.

324

00:49:25.980 --> 00:49:41.760

SJC Redistricting: And one of the things with all of the A, B and c's from last cycle last meeting was I I tried to show the like the schools have maps that has had come forward so Plan B was.

325

00:49:42.840 --> 00:49:56.670

SJC Redistricting: A different architecture than we'd seen right and a lot of other map map, so we see it we've seen it in four or five submissions so we kind of keyed on or 9596 as that.

326

00:49:57.570 --> 00:50:06.570

SJC Redistricting: That seemed map and and then basically made changes because of

the ERA issue, and I think that's one thing and one reason.

327

00:50:07.200 --> 00:50:18.930

SJC Redistricting: We didn't take just a public map and make it a draft map because we had to make that change for district one to be compliant with the Federal voting rights act and we didn't want to provide.

328

00:50:20.040 --> 00:50:23.190

SJC Redistricting: The Commission, with maps that were.

329

00:50:25.170 --> 00:50:27.450

SJC Redistricting: not possible and not not legal.

330

00:50:28.590 --> 00:50:32.790

SJC Redistricting: We did the same thing with both plan a and plan C where.

331

00:50:33.810 --> 00:50:41.760

SJC Redistricting: We had the different kind of permutations and architectures that we've seen in a lot of the maps that are again legally compliant.

332

00:50:46.470 --> 00:50:46.800

SJC Redistricting: So.

333

00:50:52.170 --> 00:50:53.700

SJC Redistricting: I wanted to pull up.

334

00:50:55.380 --> 00:50:57.660

SJC Redistricting: The ceremonies map, this is.

335

00:51:00.900 --> 00:51:18.720

SJC Redistricting: and see is a very well balanced plan at point 9% Max deviation I think it's probably slightly higher than that, overall, you can see that this is similar in a lot of ways to I think plans see.

336

00:51:20.190 --> 00:51:25.950

SJC Redistricting: and actually is very similar to the p map that we started with tonight, where you have.

337

00:51:27.180 --> 00:51:35.910

SJC Redistricting: A northern Stockton district southern Stockton district, and then three kind of more rural ag based districts.

338

00:51:36.360 --> 00:51:46.710

SJC Redistricting: Well, to at least you have the Lodi district and Teal that has the northern delta and northern Stockton, and then you have the Tracy lay throw mountain house.

339

00:51:47.280 --> 00:52:01.290

SJC Redistricting: districts or district in the magenta and then you have the the lime green district of dogtown always south, including mantega whole repin and so on, so.

340

00:52:02.640 --> 00:52:07.380

SJC Redistricting: This, this is another map or an architecture that we've seen a lot, a lot of.

341

00:52:09.600 --> 00:52:17.670

SJC Redistricting: I just wanted to check and district one the blue district is at 48% Latino see that, so this is another plan.

342

00:52:19.080 --> 00:52:21.270

SJC Redistricting: That would that would comply.

343

00:52:24.390 --> 00:52:29.550

SJC Redistricting: Both with total deviation, and for that double check of the Latino SUV APP district.

344

00:52:45.360 --> 00:52:45.840

Well, I.

345

00:52:49.980 --> 00:52:53.880

Kashara Ryno: So annoyed because I just realized.

346

00:52:54.180 --> 00:52:55.320

Kashara Ryno: Like I hadn't been made by.

347

00:52:55.320 --> 00:52:55.680

Kashara Ryno: This.

348

00:52:55.740 --> 00:52:56.820

SJC Redistricting: fucking thing since like.

349

00:52:57.720 --> 00:52:59.070

Kashara Ryno: The 15th of September.

350

00:53:03.930 --> 00:53:04.140

SJC Redistricting: What.

351

00:53:05.550 --> 00:53:05.730

SJC Redistricting: About.

352

00:53:07.860 --> 00:53:10.020

SJC Redistricting: The 15th of September that was that was not me.

353

00:53:11.700 --> 00:53:12.960

SJC Redistricting: Now okay.

354

00:53:14.280 --> 00:53:16.080

SJC Redistricting: No, I think you're the Chair has to recognize.

355

00:53:17.340 --> 00:53:19.380

SJC Redistricting: No, Mr gretzky had already recognized him.

356

00:53:21.990 --> 00:53:24.090

SJC Redistricting: Please put me on the spot.

357

00:53:25.980 --> 00:53:37.710

SJC Redistricting: Look, if we're narrowing down maps, I think we got some good maps eventually we're gonna have to narrow something down and correct those I really believe this is not a bad math this is matt make some sense.

358

00:53:38.940 --> 00:53:40.050

SJC Redistricting: I think you should be included.

359

00:53:41.100 --> 00:53:41.850

SJC Redistricting: for discussion.

360

00:53:44.490 --> 00:53:45.660

SJC Redistricting: got a lot of things that.

361

00:53:47.910 --> 00:53:53.760

SJC Redistricting: we've seen but eventually we're going to have to narrow some things down right so Is this the second to last meeting we're talking about okay.

362

00:53:54.270 --> 00:54:06.060

SJC Redistricting: So what are we going to have a best of five are we going to have a best for what, what do we can do it because we can't just go through everything submitted, I mean like I said I like this matte but.

363

00:54:07.890 --> 00:54:17.610

SJC Redistricting: Eventually, how do we get to share my question is how do we get to this point where we're choosing one f5 to very close okay we're very close.

364

00:54:19.080 --> 00:54:19.320

Those.

365

00:54:21.810 --> 00:54:26.760

SJC Redistricting: With some so so you go back and you, so I think ideally.

366

00:54:27.840 --> 00:54:35.220

SJC Redistricting: If you wanted to, we could go through each of the maps that's before you and we could talk through any changes, you want, would like to be seen.

367

00:54:36.270 --> 00:54:37.080

SJC Redistricting: For the next meeting.

368

00:54:38.130 --> 00:54:47.250

SJC Redistricting: You can also you could also take like a public submission like this and say, can you make this a draft map to be seen next next meeting to be discussed as well.

369

00:54:48.120 --> 00:54:57.840

SJC Redistricting: I think, though, and you know it doesn't have to be this one, it can be any of the ones on distributor and I have this all the site live now, so I can move to that if you'd like.

370

00:54:58.620 --> 00:55:11.550

SJC Redistricting: yeah i'm different to you, it doesn't look bad map at first, you know first glance, but yeah adventure, I think we got to narrow it down and it to get to what we're doing I agree there's opinion opinion.

371

00:55:14.550 --> 00:55:16.140

SJC Redistricting: Go back to be.

372

00:55:17.190 --> 00:55:21.930

SJC Redistricting: Sure, and I wanted to echo what and had mentioned before.

373

00:55:23.460 --> 00:55:24.360

SJC Redistricting: already have Stockton.

374

00:55:25.560 --> 00:55:30.870

SJC Redistricting: Whole and I think on that D and on I think a few of the map.

375

00:55:33.060 --> 00:55:37.620

SJC Redistricting: For bleeds into North Stockton, and I don't know if that was because.

376

00:55:38.700 --> 00:55:39.930

SJC Redistricting: The school district wine.

377

00:55:42.270 --> 00:55:43.710

SJC Redistricting: But I would like to see.

378

00:55:50.550 --> 00:55:51.510

SJC Redistricting: In district.

379

00:55:54.720 --> 00:55:55.020

SJC Redistricting: editor.

380

00:56:11.940 --> 00:56:17.790

SJC Redistricting: district for instead betrayed my nervous yeah I know that some people had mentioned that the school is.

381

00:56:19.500 --> 00:56:22.740

SJC Redistricting: A big deal to me it's the separate entity.

382

00:56:23.880 --> 00:56:25.620

SJC Redistricting: For district lines of school find.

383

00:56:26.970 --> 00:56:29.010

SJC Redistricting: I don't see a correlation necessarily.

384

00:56:31.830 --> 00:56:36.330

SJC Redistricting: Anything I think kids that go to bear creek do life in Stockton more than they do life in Lodi.

385

00:56:37.680 --> 00:56:50.160

SJC Redistricting: But burrata is also boat I unified and kids in Lodi play chords in marotta so to me that correlation fits better than the school district line in Boston.

386

00:56:52.650 --> 00:56:53.430

SJC Redistricting: This the more when.

387

00:58:18.900 --> 00:58:19.680

SJC Redistricting: Mr gretzky.

388

00:58:20.910 --> 00:58:24.840

SJC Redistricting: yeah just something else to keep in consideration, I know we're getting late in the ballgame but.

389

00:58:26.010 --> 00:58:35.310

SJC Redistricting: The reclamation districts sticking together and as districts as much as possible delivery districts lot of commonality between those they've been split up.

390

00:58:35.940 --> 00:58:45.660

SJC Redistricting: West of I five is a massive flood zone i'd like to see that kept as much together as possible, I haven't seen map that said that it just something to.

391

00:58:46.860 --> 00:58:49.650

SJC Redistricting: talk to people on the islands and his.

392

00:58:51.960 --> 00:58:58.470

SJC Redistricting: Last similarities, but also again the reclamation districts, they cross three or four districts in some cases.

393

00:58:59.670 --> 00:59:00.360

SJC Redistricting: not ideal.

394

00:59:01.620 --> 00:59:04.110

SJC Redistricting: They should have a little better voice frankly.

395

00:59:05.490 --> 00:59:05.730

SJC Redistricting: Okay.

396

00:59:06.780 --> 00:59:08.370

SJC Redistricting: So any other comments.

397

00:59:10.980 --> 00:59:11.430

SJC Redistricting: Yes, ma'am.

398

00:59:13.830 --> 00:59:16.170

SJC Redistricting: brodsky at our last meeting.

399

00:59:19.110 --> 00:59:26.610

SJC Redistricting: Aid to try to keep the delta as whole as possible and I noticed that all of the maps we're looking at today to.

400

00:59:29.850 --> 00:59:31.170

SJC Redistricting: Have a division.

401

00:59:32.850 --> 00:59:44.190

SJC Redistricting: At the same place, I just want to hear your thoughts on how well that works or expensive integration that's needed and Delta.

402

00:59:45.270 --> 00:59:49.530

SJC Redistricting: Will or alternate Steve why who works in financial real estate.

403

00:59:50.910 --> 00:59:59.730

SJC Redistricting: We know as much as anybody so we're talking about literally this map we're looking at right now cut off marinas right some arenas are part of the

Delta.

404

01:00:00.570 --> 01:00:13.290

SJC Redistricting: Right so they're in that business, so they literally will have no voice so these people that are doing business in our county or in you know the the middle of Stockton districts, so do we carve them out individually.

405

01:00:14.490 --> 01:00:18.450

SJC Redistricting: To make them a part of the delta districts, you know that's the question so.

406

01:00:20.940 --> 01:00:34.740

SJC Redistricting: You know village Marina always Marinus right so you're talking about we had at some point the planning Commission director Kong good speakers, but we had at some point we're trying to do, basically some type of tourism plan for the delta as well.

407

01:00:36.450 --> 01:00:37.800

SJC Redistricting: we're they're separated.

408

01:00:39.000 --> 01:00:43.170

SJC Redistricting: West of high five again is like the flood zone reclamation districts, if you follow those lines.

409

01:00:45.960 --> 01:00:54.030

SJC Redistricting: I don't know how much it represents at the moment, but these massive really close to the i've seen a ton of good maps, I mean really i've seen I.

410

01:00:54.600 --> 01:01:00.360

SJC Redistricting: Think everyone up here, you know we're trying to get ad supported we're trying to get there, you know the water situation.

411

01:01:01.110 --> 01:01:14.430

SJC Redistricting: there's some very solid maps up here, you know it really is like this is better, frankly, this is better than what I feel we got as far as representation as far as all of us in the ag Community or all of us, in general, what this.

412

01:01:15.570 --> 01:01:17.250

SJC Redistricting: valley represents, so in this Kelly.

413

01:01:18.960 --> 01:01:19.410

Yes, ma'am.

414

01:01:22.830 --> 01:01:43.050

SJC Redistricting: I would like to talk about Stockton, a little bit in the context of the APP D, I really like map D and I feel that it treats the city of Stockton well, though, recognizing more Stockton is cut off and perhaps more of North doctrine could be up in district four.

415

01:01:44.100 --> 01:01:52.800

SJC Redistricting: know in district two if marotta is up to four so at that many people but, by the way, I do think marotta needs to be and district.

416

01:01:54.720 --> 01:01:58.680

SJC Redistricting: What I like is it looks as if the country club.

417

01:01:59.790 --> 01:02:05.580

SJC Redistricting: district is up toll and we talked for a moment about how that district.

418

01:02:06.660 --> 01:02:11.970

SJC Redistricting: Find I would have thought it would be west of person that looks at.

419

01:02:13.260 --> 01:02:17.580

SJC Redistricting: It and a little bit so are you able to Yes, this is.

420

01:02:18.810 --> 01:02:19.620

SJC Redistricting: This is the least.

421

01:02:22.770 --> 01:02:23.640

SJC Redistricting: This is the least.

422

01:02:28.170 --> 01:02:29.070

SJC Redistricting: This is Plan D.

423

01:02:30.270 --> 01:02:31.200

SJC Redistricting: In distributor.

424

01:02:41.790 --> 01:02:45.840

SJC Redistricting: So I think it's a question of defining country club.

425

01:02:47.730 --> 01:02:59.580

SJC Redistricting: This this blue district district one currently you can see, includes I believe all of country club when this area here my if you come to come over towards the Center more.

426

01:03:00.810 --> 01:03:02.220

SJC Redistricting: Where the line those up.

427

01:03:03.480 --> 01:03:07.740

SJC Redistricting: that's often Rosa purging partway and then it cuts across.

428

01:03:10.050 --> 01:03:17.070

SJC Redistricting: Monterey street or something or right there okay right there that the main line is starting up is Persian.

429

01:03:18.150 --> 01:03:23.220

SJC Redistricting: The stag memorial stadium there so you're cutting off this this island.

430

01:03:24.360 --> 01:03:28.320

SJC Redistricting: In a country club, so this here yeah.

431

01:03:29.910 --> 01:03:35.160

SJC Redistricting: that's part of country to move district yet so I mean, I think you can see.

432

01:03:36.270 --> 01:03:44.460

SJC Redistricting: The census designated places a little bit smaller than how we did it the description right, you can see that it you.

433

01:03:45.690 --> 01:03:49.590

SJC Redistricting: wrote it looks like and not purging, so I think we can move.

434

01:03:57.240 --> 01:04:07.410

SJC Redistricting: But I think that's no and then I think what we can do is, we can

make sure that we use the Persian lines unified country Club in whichever.

435

01:04:08.700 --> 01:04:17.160

SJC Redistricting: In which whichever plan you guys go push for you know move forward with for next week next meeting excellent and then in the same theme of.

436

01:04:17.850 --> 01:04:24.000

SJC Redistricting: I know we're getting into details, maybe that's because we all really like this, but can we look at the division between.

437

01:04:24.810 --> 01:04:40.380

SJC Redistricting: The North and South division through downtown I just want to make sure that parents broke charts divided make sense and that it's not in the mix of the business district, where I would think it wouldn't be good but up the business active downtown.

438

01:04:44.670 --> 01:04:46.890

SJC Redistricting: It uses elm as the.

439

01:04:51.030 --> 01:04:53.040

SJC Redistricting: you're just give me a sorry give me one second.

440

01:04:55.770 --> 01:04:57.270

SJC Redistricting: harding might make more sense.

441

01:04:59.190 --> 01:04:59.730

SJC Redistricting: yeah I think.

442

01:05:00.900 --> 01:05:02.370

SJC Redistricting: Let me just zoom in here.

443

01:05:03.990 --> 01:05:05.550

SJC Redistricting: Let me get off the cursor.

444

01:05:10.320 --> 01:05:10.530

SJC Redistricting: Maybe.

445

01:05:16.290 --> 01:05:19.680

SJC Redistricting: you're right I should that's what I should do i'm gonna go back

and reload the page.

446

01:05:29.490 --> 01:05:30.540
SJC Redistricting: No, no, no.

447

01:05:33.570 --> 01:05:34.200
SJC Redistricting: I think that.

448

01:05:36.510 --> 01:05:36.840
there's.

449

01:05:40.830 --> 01:05:41.100
SJC Redistricting: I.

450

01:05:42.180 --> 01:05:58.080
SJC Redistricting: I would recommend the division between the north and the south being along harding just a couple blocks off of where they're actually it's using harding what it is yeah sorry almost coming up in the larger blow up so it's harding and then.

451

01:06:00.360 --> 01:06:17.940
SJC Redistricting: Much more sense and the purging purging to go all the way yeah so so if we unify country club on purging yeah that would create that and then go up to the calendar is river and then it would go across using harding as a northern border, and then I think this is a.

452

01:06:19.350 --> 01:06:20.760
SJC Redistricting: That Wilson yeah.

453

01:06:23.730 --> 01:06:30.750
SJC Redistricting: yeah look at the stock Tony is coming out of the woodwork so somewhere, I know, sudden we got the Yes, some folks yeah.

454

01:06:31.830 --> 01:06:31.980
SJC Redistricting: yeah.

455

01:06:35.760 --> 01:06:41.640
SJC Redistricting: yeah that makes that makes sense to just, are there any other borders, you want to look at oh.

456

01:06:42.720 --> 01:06:43.020

SJC Redistricting: Yes.

457

01:06:46.380 --> 01:06:48.630

SJC Redistricting: Where is sharp army depot in this map.

458

01:06:54.510 --> 01:06:56.970

SJC Redistricting: But I can't tell on this map here.

459

01:06:58.140 --> 01:06:58.920

SJC Redistricting: Like it'd be a district.

460

01:07:08.970 --> 01:07:17.730

SJC Redistricting: Okay yeah the ultimate sharp sharp would be in district five I think it's been five, but I think the key is in this to district.

461

01:07:19.020 --> 01:07:20.040

SJC Redistricting: No, no.

462

01:07:21.810 --> 01:07:26.550

SJC Redistricting: it's by I thought you're in you're in mantega yeah you're America you don't want to be a mentor to go towards.

463

01:07:29.820 --> 01:07:33.150

SJC Redistricting: Your left my last okay your turn left.

464

01:07:34.950 --> 01:07:36.990

SJC Redistricting: All follow the keep going.

465

01:07:38.010 --> 01:07:42.840

SJC Redistricting: Okay, because this is a rough road where that right there okay.

466

01:07:43.890 --> 01:07:47.460

SJC Redistricting: Start people self a rough road that's in five years inside.

467

01:07:51.120 --> 01:07:58.920

SJC Redistricting: Chris we also look at the northern boundary of a district, to the northern part of Stockton were two leads into the northern boy.

468

01:08:00.570 --> 01:08:14.790

SJC Redistricting: And I think this is where you if you want to unify marotta into or move marotta This is where the line you change and run Stockton up to eight mile yeah so yeah no no it's not it's not a now.

469

01:08:16.080 --> 01:08:26.670

SJC Redistricting: This is a mouse there that's pixels oh you move moving moving Stockton to eight eight OK, and then I live there and they think they live in stock.

470

01:08:29.310 --> 01:08:29.640

SJC Redistricting: Right.

471

01:08:35.610 --> 01:08:37.050

SJC Redistricting: That population chaser with.

472

01:08:38.880 --> 01:08:52.980

SJC Redistricting: yeah we haven't even talked about span of slant every question so as we proceed forward, do you want this in the form of emotion or finances or well what I was thinking is I could read back the changes that have been.

473

01:08:54.210 --> 01:09:03.420

SJC Redistricting: provided to date on disk on D and then, if you wanted to couldn't move that like that, as emotion that OK.

474

01:09:04.470 --> 01:09:09.750

SJC Redistricting: So the five changes I have is the unified country Club to purging.

475

01:09:11.220 --> 01:09:15.210

SJC Redistricting: To increase the Latino see vibe, of the one to over 50%.

476

01:09:17.100 --> 01:09:29.400

SJC Redistricting: To move more of Stockton into D to, and I think that's kind of combined with the eight mile using the eight mile as the northern border of district two and then moving murata into district four.

477

01:09:31.890 --> 01:09:32.400

Yes, good.

478

01:09:33.450 --> 01:09:37.560

SJC Redistricting: The sidebar a clarification of how do we define hurghada.

479

01:09:39.510 --> 01:09:46.080

SJC Redistricting: I senses, that the marotta with its unique identity is to have 99.

480

01:09:47.160 --> 01:09:47.310

SJC Redistricting: yeah.

481

01:09:53.760 --> 01:10:09.060

SJC Redistricting: And I think one thing we could do in, then the next meeting is I could be ready to show you in aptitude these so we can make sure the lines are exactly right, and if we need to move a census block or a census block group we can.

482

01:10:10.200 --> 01:10:17.760

SJC Redistricting: So we can have a recommended plan that meets all the criteria before you guys break for the night.

483

01:10:20.640 --> 01:10:31.170

SJC Redistricting: But when I was looking forward, and the reason I asked is by consensus to accept map D, with the with the changes that you have been provided.

484

01:10:31.740 --> 01:10:39.930

SJC Redistricting: And then we come back and we start tweaking those because there's going to be some other things in here that we want to see ultimately take place.

485

01:10:40.260 --> 01:10:48.930

SJC Redistricting: Whether it's whether it's moving murata into another district, which you already have making a change, then you're going to have to make some changes on the South end.

486

01:10:49.260 --> 01:11:01.290

SJC Redistricting: With the mantega if we start making changes with marotta or some of the other areas will have to pick up someplace either going East or picking up Ripon or doing something or to get that in.

487

01:11:04.620 --> 01:11:10.710

SJC Redistricting: I think in Chris correct me if i'm wrong, do you your familiarity with the population density in these areas, do you believe that if we move.

488

01:11:11.040 --> 01:11:19.620

SJC Redistricting: The current district to North eight mile and pick up that population away from the northern district i'm forgetting the number of it, and then we swapped that with murata.

489

01:11:19.980 --> 01:11:37.470

SJC Redistricting: So basically we're moving that strip between the screw an eight mile up murata into do and then marotta in the bed exchange might be avoided he's suggesting, I mean I think you're going to have a larger deviation than 1.3%, but I think it's possible.

490

01:11:38.910 --> 01:11:40.020

it's it's.

491

01:11:41.160 --> 01:11:43.740

SJC Redistricting: it's huge so I don't.

492

01:11:45.180 --> 01:11:46.710

SJC Redistricting: Know maybe not maybe not.

493

01:11:47.970 --> 01:11:56.010

SJC Redistricting: But I think I think this is what I can promise, though, is, I can provide options right if you can go to eight mile road.

494

01:11:57.090 --> 01:12:05.760

SJC Redistricting: In this in the you know, in the Northwest or in the central or right, we can look at those lines, and you can see, the different variations.

495

01:12:06.060 --> 01:12:13.830

SJC Redistricting: So I think that's really where you want to get into in our next our last meeting right is getting into where do you want that line to be.

496

01:12:14.760 --> 01:12:31.140

SJC Redistricting: And we can that's where I think aptitude comes into play, where we can actually do much like district or but it's a little bit more easy for me to control and I can push out a shape file that we can work with the county and

provide to the supervisors easily.

497

01:12:33.780 --> 01:12:43.740

SJC Redistricting: And so i'll be prepared to do that at our next meeting, and we can really explored this this movement of district to North a mile in Plan D and the marotta swap.

498

01:12:44.640 --> 01:13:01.620

SJC Redistricting: And I can provide different variations, so that you and you'll see the map prior to the meeting so maybe you can say I like this one, or I like that one, you know that make sense messenger yes, Mr more with numis I bet.

499

01:13:03.030 --> 01:13:03.810

This grand scheme.

500

01:13:05.310 --> 01:13:16.740

SJC Redistricting: So we're we're trying to say is we're looking at using map D kind of a consensus tonight, after the but doesn't mean that the as we see it tonight right, but then we'll bring it back.

501

01:13:17.460 --> 01:13:26.460

SJC Redistricting: The next meeting, and you could now would you want this input only at the public meeting now or would you like us to email as well, or would you prefer to be I mean I think it'd be best if.

502

01:13:27.720 --> 01:13:37.980

SJC Redistricting: If you have other other changes you like made for the variations of D for the next meeting to talk them through now, and I think also, if I know that not just D, but.

503

01:13:38.580 --> 01:13:48.150

SJC Redistricting: If you want to talk about a two or be two if there's changes in those maps so you'd like made me, we can bring those variations for next meeting as well.

504

01:13:50.490 --> 01:14:03.390

SJC Redistricting: So then we're not looking for one map to work with and just make deviations you're saying if you'd like to have maybe up to three maps well no i'm just saying i'm open to whatever the, the Commission wants to go forward with I don't want to constrain it, you know.

505

01:14:05.160 --> 01:14:11.220

SJC Redistricting: Okay, so this conversation purposes, right now, I, like the i've already said that.

506

01:14:11.640 --> 01:14:20.880

SJC Redistricting: That I like hear from everybody else, and then, but I obviously wouldn't this wouldn't be in stone, this is just like you say, this would be just a working product right to go forward boy.

507

01:14:21.600 --> 01:14:31.740

SJC Redistricting: or not being discussion i'm in favor of that beside back and then Mr grand scheme is on the chair and committee members so we've got a little bit of time.

508

01:14:32.310 --> 01:14:39.690

SJC Redistricting: Though beginning dojo i'm actually suggesting we fly through the changes right now and see what it looks like I think the exercise it's worth it.

509

01:14:40.320 --> 01:14:53.130

SJC Redistricting: It might have to spend some time on it so i'm what i'm suggesting Chris is that we actually make some of these changes, so you can see the variations in the numbers promise we won't keep you here till nine but.

510

01:14:55.350 --> 01:15:00.600

SJC Redistricting: But I want to be able to be at least 15 minutes and it's worthwhile, probably to make some of those changes.

511

01:15:01.050 --> 01:15:10.260

SJC Redistricting: So, then you can formulate some more opinions for the changes that we can make for the subsequent meeting and that'll be fine and then we're going to go into miss I back right now and then Mr grunts tickets here.

512

01:15:11.550 --> 01:15:11.820

SJC Redistricting: In the.

513

01:15:13.320 --> 01:15:23.940

SJC Redistricting: spirit of the changes that were requesting there might be less population in district three of Plan D.

514

01:15:25.620 --> 01:15:32.580

SJC Redistricting: and make the adjustments of around the northern part of

Stockton, and hence district three might need a greater population.

515

01:15:33.090 --> 01:15:46.500

SJC Redistricting: And so there'd be a temptation to integrate rip on into this race, so I would like to pose that question to my colleagues here on the committee is that good or bad.

516

01:15:48.030 --> 01:15:53.730

SJC Redistricting: neutral and backed in that spirit, maybe we should also talk about escalade.

517

01:15:55.380 --> 01:16:00.300

SJC Redistricting: Just so that we have the greatest flexibility as we look at find.

518

01:16:01.500 --> 01:16:05.730

SJC Redistricting: An answer population centers around Dr run ski.

519

01:16:07.620 --> 01:16:08.790

SJC Redistricting: yeah I just want to make sure we're.

520

01:16:09.930 --> 01:16:14.490

SJC Redistricting: These maps to take into consideration what we saw last meeting as well correct.

521

01:16:15.660 --> 01:16:20.730

SJC Redistricting: Okay, so this is kind of work we're moving in a forward direction of.

522

01:16:22.620 --> 01:16:32.310

SJC Redistricting: Of a final two three maps, I do agree with Mr more with I would like to tweak a final three a final to anything like that, but.

523

01:16:34.050 --> 01:16:36.660

SJC Redistricting: We need some options and then also again.

524

01:16:40.110 --> 01:16:41.820

SJC Redistricting: The scene very close.

525

01:16:43.170 --> 01:16:52.380

SJC Redistricting: I think if we can keep some of these groups Lincoln village West brookside country club together in the stock and region that's West by five, I think.

526

01:16:53.880 --> 01:17:00.960

SJC Redistricting: Is me personally talking I think we're very I think we're close, but I do want a couple options, like Mr war with such as well.

527

01:17:04.170 --> 01:17:12.210

SJC Redistricting: And I just wanted to respond to this isaac's technician ibex comment ribbon a 16,000 people if we moved it out of for.

528

01:17:13.020 --> 01:17:22.590

SJC Redistricting: It I feel like it would it's just so massive relative to the current deviations in this plan D its constructed to be.

529

01:17:23.550 --> 01:17:34.560

SJC Redistricting: Like numerically balanced, to the point where, if you look at the little blue table at the top of the page for the the over under are in the hundreds of people.

530

01:17:35.430 --> 01:17:41.910

SJC Redistricting: Between the five districts, except for district four which is one that's the most over and it's 1000 people.

531

01:17:42.540 --> 01:17:52.590

SJC Redistricting: I just can't imagine any scenario where it wouldn't blow up the map, if we moved ribbon from district for to district three, it seems, and I.

532

01:17:53.580 --> 01:17:59.520

SJC Redistricting: would ask for feedback to see if that if i'm wrong about that it seems almost like it wouldn't be but.

533

01:18:00.450 --> 01:18:08.910

SJC Redistricting: I like the idea, because I do i'm the one who asked me really I feel like men Tiki rabbinical I should be together that's my main criticism of this map.

534

01:18:09.300 --> 01:18:23.280

SJC Redistricting: I love this map, I actually really like lots of things about it,

but only thing I like about it, is the fact that escalade ribbon and mentee are completely interest for districts, and so I want to go with you on that, so I checked and can even do it, I don't know.

535

01:18:24.510 --> 01:18:35.220

SJC Redistricting: question, yes, I just want your audience I did the same thing we have 15,000 people ripping you have 7500 escalade looks like a big math a lot of empty space.

536

01:18:36.840 --> 01:18:37.320

So.

537

01:18:38.910 --> 01:18:41.340

SJC Redistricting: i'd like to see those changes what changes people want.

538

01:18:43.140 --> 01:18:43.800

and see what we have.

539

01:18:45.660 --> 01:18:56.430

SJC Redistricting: As are not revolutionary honor right he would that does be see what we can do, because, like I say, I have to agree, I agree 15,000 people and throw them in.

540

01:18:59.010 --> 01:19:02.070

SJC Redistricting: On this map and that's why honestly I had mentioned that.

541

01:19:02.100 --> 01:19:10.380

SJC Redistricting: Earlier, because it moving turn to talk about moving to North and you talked about moving murata out and then you start okay.

542

01:19:11.490 --> 01:19:12.990

SJC Redistricting: i've started looking at that.

543

01:19:13.170 --> 01:19:19.470

SJC Redistricting: At the piece of the puzzle so for all the line east, what do you pick up to pick up anything you know and repin.

544

01:19:20.160 --> 01:19:31.470

SJC Redistricting: Here again i'd love to keep repin as whole as possible and as a community and one district, I mean we've done that, with every other Community oh I

don't think it'd be appropriate to single them out and.

545

01:19:32.610 --> 01:19:33.300

iPhone: cut them in half.

546

01:19:34.620 --> 01:19:40.980

SJC Redistricting: But I think that's my purpose my earlier comment was say okay well as listening to.

547

01:19:42.090 --> 01:19:58.110

SJC Redistricting: Everyone here in the diocese we've got we've got got a plan, right here and D we're going to just so you know i'm not allowing any public comment until we get down to public comment again Okay, and then you'll have your time, thank you very much.

548

01:19:59.250 --> 01:19:59.640

SJC Redistricting: Yes, sir.

549

01:20:01.950 --> 01:20:02.340

SJC Redistricting: So.

550

01:20:03.360 --> 01:20:14.070

SJC Redistricting: Is it possible, leave district five a little short on population concerns are grown so much i'm a lot of planning Commission we've approved massive amounts of projects in the past two years i've been on there, I mean.

551

01:20:15.330 --> 01:20:19.320

SJC Redistricting: They are the big growth right now they're going to be the big growth for the next 10 years.

552

01:20:20.820 --> 01:20:22.710

SJC Redistricting: I think that's question for the consultant here.

553

01:20:23.460 --> 01:20:36.180

SJC Redistricting: Oh between mountain House just in general, as far as district five I mean you know we're trying to make these percentages right, and I mean, I think I approved 2000 homes or something the other day, on Thursday, I mean.

554

01:20:37.170 --> 01:20:43.950

SJC Redistricting: yeah yeah I mean that's all the past two years i'm I mean i'm

talking thousands home directory quality, no more than me but.

555

01:20:46.380 --> 01:21:00.360

SJC Redistricting: thousands of homes, plus the at us Okay, plus to aid us, plus the background is that we're talking about now with the with the Assembly bill nine and 10 where you can now, but for units on their approval we're proving all those we have no choice.

556

01:21:01.410 --> 01:21:06.570

SJC Redistricting: Can we leave that short with with the prediction that that's where the population is going.

557

01:21:07.650 --> 01:21:12.660

SJC Redistricting: So I actually have maps to to ready with district D up.

558

01:21:14.460 --> 01:21:20.400

SJC Redistricting: And I was just playing with will not, I was moving yeah.

559

01:21:23.790 --> 01:21:28.890

SJC Redistricting: So if we move and use a mile road this isn't all of it.

560

01:21:30.450 --> 01:21:48.300

SJC Redistricting: That wouldn't move 11,652 people North into district or South really into district two and you can see that that would overpopulate district to by 7% and that's not going all the way across right because i'm leaving out this portion.

561

01:21:50.220 --> 01:21:50.670

SJC Redistricting: and

562

01:21:50.940 --> 01:21:55.440

SJC Redistricting: I mean, technically, this would work, because the other deviations are so low.

563

01:21:58.680 --> 01:21:59.400

SJC Redistricting: But it's.

564

01:22:00.750 --> 01:22:03.840

SJC Redistricting: it's really overpopulated one district right and.

565

01:22:07.860 --> 01:22:16.740

SJC Redistricting: He did take that part of country club off a district to that would change the whole bunch to this target population in that little corner of country club.

566

01:22:17.370 --> 01:22:24.030

SJC Redistricting: and give it to one yeah and that would, I think we're doing both right, you might mean i'm just saying that you need actually.

567

01:22:24.840 --> 01:22:34.020

SJC Redistricting: that's part of the fixtures are going to take that piece of contracts and put it back into one that's into that northeast corner of country clubs about 2300 people.

568

01:22:35.910 --> 01:22:38.520

SJC Redistricting: yeah i'm just pretty good chunk of people there.

569

01:22:42.150 --> 01:22:45.000

SJC Redistricting: yeah just as long as it's in one of the to Stockton districts.

570

01:22:54.150 --> 01:22:54.510

SJC Redistricting: Okay.

571

01:23:10.230 --> 01:23:12.300

SJC Redistricting: Then we want to hear.

572

01:23:26.370 --> 01:23:38.010

SJC Redistricting: i'm sorry, this is why we don't do a lot of lion live drawing to this would move for district one, but we need to make sure about its Latino see that.

573

01:23:39.990 --> 01:23:42.330

SJC Redistricting: And that it still work, you know it works.

574

01:23:47.280 --> 01:23:48.750

SJC Redistricting: If I may, through the Chair.

575

01:23:49.920 --> 01:23:57.570

SJC Redistricting: Commissioner gretzky raised a question about population and the

fact that in fact mountain house houses are currently being approved or population is currently changing.

576

01:23:58.140 --> 01:24:04.770

SJC Redistricting: And when we do redistricting that population is locked as of the date of the census and we're going to use that as.

577

01:24:05.280 --> 01:24:09.930

SJC Redistricting: a steady so as we, as we move forward that number is like gravity it's locked in.

578

01:24:10.260 --> 01:24:17.190

SJC Redistricting: Even though we know right we're approving new houses in certain areas that will continue to grow, probably, similarly to the growth pattern we've seen.

579

01:24:17.550 --> 01:24:24.420

SJC Redistricting: Private prior to the census but we're also losing population, so we just use that sentences that's our obligation to meet.

580

01:24:24.630 --> 01:24:33.660

SJC Redistricting: Even though we know, things are increasing and decreasing the population, so does that answer your question in regards to the question you posed on mountain house and sort of what we're seeing and in district five.

581

01:24:34.260 --> 01:24:37.440

SJC Redistricting: Good does, but if we were going to deviate we would deviate in there, so if there's.

582

01:24:38.100 --> 01:24:44.640

SJC Redistricting: A deviation that we could go to the Max that would be the district we'd want to do it, and that would be the area we want to Is that correct with that'd be legal.

583

01:24:45.600 --> 01:24:55.860

SJC Redistricting: I think that's an insightful way to look at what we know about our Community absolutely and that's impact partly why we have racks right because you know the Community, and so you can actually utilize the tools.

584

01:24:56.430 --> 01:25:02.640

SJC Redistricting: In that exactly, so I think that's an insightful observation

about that, I just want to make sure the population understanding was clear yeah.

585

01:25:03.210 --> 01:25:13.740

SJC Redistricting: yeah so my suggestion, if we're going to leave them were shy would leave that over there shy just because know what's going to happen in the next few years, and to the legal limit or within the course of the La.

586

01:25:14.850 --> 01:25:21.300

SJC Redistricting: County Council, who I lean on at all times, many times so miss miss English.

587

01:25:22.650 --> 01:25:33.630

SJC Redistricting: That was my my concern to because you're planning Commission from mountain house right and for Tracy we already have approved and working on close to 3000.

588

01:25:34.170 --> 01:25:47.160

SJC Redistricting: pieces of Tracy hills and we have an Alice development with another 500 homes and the senior assistant, is another 500 so we're we're going to be hitting pretty close to 3000 within the next.

589

01:25:47.880 --> 01:25:54.780

SJC Redistricting: Is the way that allotments are made in the next three years and I know legally we're going by the senses and our attorney answer that question.

590

01:25:55.110 --> 01:26:25.980

SJC Redistricting: But that was my concern today I know we have to go with the senses, but we also know what's in the plants have been approved for the next two three years, so are you have been asked to take a short break we'll take a break now and return at 730.

591

01:26:29.250 --> 01:26:29.730

SJC Redistricting: I guess.

592

01:26:32.550 --> 01:26:33.150

SJC Redistricting: who asked you.

593

01:26:36.750 --> 01:26:37.050

SJC Redistricting: guys.

594

01:26:48.930 --> 01:26:49.410
SJC Redistricting: I don't know how many.

595
01:27:24.540 --> 01:27:25.140
SJC Redistricting: On projects.

596
01:30:48.960 --> 01:30:49.410
SJC Redistricting: I don't know.

597
01:30:57.090 --> 01:31:00.630
SJC Redistricting: mortuary there are big cemetery and I don't think they're counting dead.

598
01:31:02.310 --> 01:31:02.910
SJC Redistricting: don't mean they're counting.

599
01:31:32.460 --> 01:31:32.790
SJC Redistricting: We are.

600
01:31:41.820 --> 01:31:42.120
SJC Redistricting: live.

601
01:31:50.340 --> 01:31:50.790
SJC Redistricting: Good morning.

602
01:31:57.450 --> 01:31:59.670
SJC Redistricting: I don't know I found it on the map and I thought.

603
01:32:01.290 --> 01:32:03.900
SJC Redistricting: Maybe it would go oh yeah there's.

604
01:32:05.340 --> 01:32:05.760
SJC Redistricting: not really.

605
01:32:08.190 --> 01:32:10.410
SJC Redistricting: Google and I typed in glenwood.

606
01:32:14.070 --> 01:32:14.850

SJC Redistricting: cemetery the second.

607

01:32:20.370 --> 01:32:20.670

SJC Redistricting: One I.

608

01:32:48.270 --> 01:32:48.720

SJC Redistricting: that's right.

609

01:33:56.370 --> 01:33:57.030

I would say.

610

01:34:03.030 --> 01:34:04.140

SJC Redistricting: If you have enough.

611

01:34:13.980 --> 01:34:14.100

yeah.

612

01:34:24.120 --> 01:34:24.510

SJC Redistricting: Oh.

613

01:34:30.840 --> 01:34:31.080

SJC Redistricting: yeah.

614

01:34:57.540 --> 01:35:03.390

SJC Redistricting: that's why i'm still a fan of beat the beat the beat to smooth I like it.

615

01:35:09.630 --> 01:35:10.320

SJC Redistricting: Like the better.

616

01:35:14.400 --> 01:35:22.470

SJC Redistricting: Get busy sorry about that will come back in session what we're going to do right now I am going to open up public comment.

617

01:35:23.430 --> 01:35:37.530

SJC Redistricting: Because we've had a lot of items that we've gone through and had some great discussion so i'm opening it up public comment, anyone wishing to address the Commission please come up and provide your name and so forth, and.

618

01:35:38.970 --> 01:35:43.710

SJC Redistricting: go from there anyone else, that which is talking mine up right behind this gentleman.

619

01:35:54.090 --> 01:36:03.030

SJC Redistricting: My name is Paul brennan I live in district four currently I just had a comment about the maps that were discussed this evening I think there's been a good discussion, the last several meetings.

620

01:36:04.170 --> 01:36:09.060

SJC Redistricting: Just overall comments, I believe that map D probably makes the most sense.

621

01:36:10.260 --> 01:36:16.140

SJC Redistricting: It maintains the least amount of physical change to the districts and reinforces communities of interest.

622

01:36:17.040 --> 01:36:28.470

SJC Redistricting: Arguably, the city of antica is now primarily an urban and skewing Community based city, I would say, probably that's where the majority of those 50,000 people came from are probably from the state you don't think so.

623

01:36:30.330 --> 01:36:41.640

SJC Redistricting: better suited for district three on the map, rather than be included in the primarily ag based area of district for unlike maps a to and be to presented this evening.

624

01:36:43.230 --> 01:36:53.970

SJC Redistricting: maps a two and be to would undo 40 years of work by the last for supervisors and district, for in that time to district has geographically remained unchanged and cohesive.

625

01:36:55.740 --> 01:37:05.280

SJC Redistricting: relic, relatively speaking, one could also argue that the only person maps A to B to benefit would be supervised the supervisor for D3 or district three.

626

01:37:06.000 --> 01:37:13.680

SJC Redistricting: While disenfranchising voters currently in district four pushing off an election for the voters currently residing in district four.

627

01:37:14.160 --> 01:37:23.700

SJC Redistricting: which was a result and the failure to give those voters, a vote on whom their supervisors should be for another three years just some comments for the Commission.

628

01:37:24.750 --> 01:37:25.770

Thank you, thank you.

629

01:37:27.030 --> 01:37:30.000

SJC Redistricting: Any other person anyone else was to.

630

01:37:31.140 --> 01:37:32.160

SJC Redistricting: Address Commission.

631

01:37:34.650 --> 01:37:36.300

SJC Redistricting: The and then we'll bring it back up Fred.

632

01:37:37.560 --> 01:37:39.240

SJC Redistricting: Any comments up here right now.

633

01:37:40.290 --> 01:37:42.630

SJC Redistricting: where's Chris oh there, he is.

634

01:37:45.540 --> 01:37:50.160

SJC Redistricting: So I was able to many of the changes that.

635

01:37:51.180 --> 01:37:52.050

SJC Redistricting: discussed before.

636

01:37:55.230 --> 01:37:56.880

SJC Redistricting: So if you've got them that Thank you.

637

01:38:00.930 --> 01:38:01.380

SJC Redistricting: So I think.

638

01:38:03.060 --> 01:38:04.110

SJC Redistricting: going through this map.

639

01:38:06.060 --> 01:38:06.990

SJC Redistricting: So we moved.

640

01:38:09.210 --> 01:38:10.410

SJC Redistricting: Country club into one.

641

01:38:12.450 --> 01:38:13.170

SJC Redistricting: Using purging.

642

01:38:16.050 --> 01:38:17.790

SJC Redistricting: We moved district two.

643

01:38:19.650 --> 01:38:20.010

SJC Redistricting: or.

644

01:38:22.350 --> 01:38:26.370

SJC Redistricting: Not all the way across because the population is just too great.

645

01:38:28.200 --> 01:38:30.300

SJC Redistricting: But now most of.

646

01:38:31.560 --> 01:38:41.700

SJC Redistricting: Most of the northern border of district two is a mile road, but you can see what happens is that district two now is overpopulated by 5.6%.

647

01:38:43.140 --> 01:38:45.570

SJC Redistricting: And the The other thing we did was.

648

01:38:48.240 --> 01:38:52.620

SJC Redistricting: We put marotta using using the and.

649

01:38:54.570 --> 01:39:00.300

SJC Redistricting: and also the area kind of this, you can see, this this black line is the marotta border.

650

01:39:01.440 --> 01:39:05.130

SJC Redistricting: In according to the census block, but like a lot like country club.

651

01:39:06.240 --> 01:39:15.780

SJC Redistricting: area this area also thinks of themselves as part of marotta as well, so that that was included as well in district four, but you can see the swaps.

652

01:39:16.950 --> 01:39:19.260

SJC Redistricting: Make district four and.

653

01:39:20.370 --> 01:39:25.710

SJC Redistricting: The other thing trying to get district one to 50% see that.

654

01:39:28.590 --> 01:39:37.950

SJC Redistricting: We were I split Western ranch in half, because of the population density of Latino.

655

01:39:39.060 --> 01:39:52.920

SJC Redistricting: Eric areas and moved it into district three, but now district one is at under by 5.4% but it's even still isn't above 50 it's at 49.63.

656

01:39:53.940 --> 01:40:00.840

SJC Redistricting: So I think the hard part is there's not a dense Latino area for it to grow into.

657

01:40:03.390 --> 01:40:17.970

SJC Redistricting: You know, except if we have changed the the harding line through downtown which I think is important, or has been pointed out and going to be something that Commission wanted to do we can't get it to over 50.

658

01:40:19.500 --> 01:40:30.780

SJC Redistricting: Even splitting Western ranch and technically this, this will not technically this this is this map wouldn't work right because it's 11% total deviation so we would have to figure out either.

659

01:40:32.040 --> 01:40:32.880

SJC Redistricting: A swap.

660

01:40:34.140 --> 01:40:38.670

SJC Redistricting: Putting more more population we're actually really taking population out of two.

661

01:40:39.990 --> 01:40:43.620

SJC Redistricting: Because we deserve one at this point, this is kind of the floor.

662

01:40:44.670 --> 01:40:58.680

SJC Redistricting: And so we would want to make sure our highest deviation was 4%, so we need to move or 4.4%, we need to move at least 1.2% out of district two into.

663

01:41:00.450 --> 01:41:01.200

SJC Redistricting: Another district.

664

01:41:02.400 --> 01:41:05.190

SJC Redistricting: So I think those I think those are the biggest changes.

665

01:41:07.290 --> 01:41:10.560

SJC Redistricting: Are our biggest constraints, with these with these edits.

666

01:41:14.670 --> 01:41:17.640

SJC Redistricting: I mean one easy way of course would be to put more of.

667

01:41:19.170 --> 01:41:23.010

SJC Redistricting: More of Stockton back into district for maybe using five as the.

668

01:41:25.200 --> 01:41:29.280

SJC Redistricting: State mile to five and pushing pushing this back into for.

669

01:41:31.950 --> 01:41:40.740

SJC Redistricting: That would help balance, probably the the over deviation of two and the under deviation of for some extent and bring us under that 10% total.

670

01:41:44.880 --> 01:41:57.480

SJC Redistricting: Yes, gotta go to this roster very brief comment, thank you for so much for doing this live during our meeting, as the person who raises the question about the 50% i'd like to retract it from the purposes of this as long as.

671

01:41:58.710 --> 01:42:03.030

SJC Redistricting: I would be very happy with this at 49.63 if that's where it ended.

672

01:42:04.380 --> 01:42:20.880

SJC Redistricting: As it is an increase, I think that at least we can hang our hat on that thing we made an effort, increase the the see value in district one above the current of 48.7 I believe is aren't in that similar district that we, in our current map.

673

01:42:22.470 --> 01:42:38.010

SJC Redistricting: doesn't get over 50% i'm not going to be distraught I think these other issues that we're dealing with boys and the broad issue and, obviously, the the total deviation are to me are more important than perhaps a symbolic thing like hitting a magic number 50.

674

01:42:39.540 --> 01:42:55.980

SJC Redistricting: Please retract that from the list of instruments yeah you split Western ranch and and that's that's splitting the Community that's that's not really good and and I don't know what were you numbers there you dropped 8000 people from district one.

675

01:42:58.050 --> 01:43:03.300

SJC Redistricting: yeah this didn't you know, like that then messes up your whole deviation you know and that's.

676

01:43:04.800 --> 01:43:15.690

SJC Redistricting: And that splitting right was to try to get the CEO of APP to hire to close to 50 so as long as we stay above that 47 and a half, where we're at we pretty close to leaving.

677

01:43:16.800 --> 01:43:17.220

SJC Redistricting: Yes.

678

01:43:18.660 --> 01:43:24.240

SJC Redistricting: I mean, this is one of those factors, this is the side I don't know where where was the numbers.

679

01:43:25.440 --> 01:43:34.770

SJC Redistricting: are changing it were 49 right, it was at 49.5, I believe, so what, why do we have to drop the well, I was trying to get to 50.

680

01:43:35.940 --> 01:43:37.770

SJC Redistricting: And I just wanted to do the.

681

01:43:39.150 --> 01:43:48.420

SJC Redistricting: illustration that with the changes with country club you couldn't get there right you couldn't get to 50 with that population shift, and I think.

682

01:43:49.200 --> 01:44:00.390

SJC Redistricting: If we know we can get to 50 I think i'd probably put Western ranch back in whole that would create that would fix or deviation, but I think it might drop our Steve APP to like.

683

01:44:01.800 --> 01:44:03.030

SJC Redistricting: Well, I can do it right now do it.

684

01:44:46.770 --> 01:44:50.820

SJC Redistricting: Yes, that would move it to 48.94 so to be right under.

685

01:44:51.960 --> 01:44:54.300

SJC Redistricting: 49, but it would be above where is currently.

686

01:44:55.710 --> 01:44:58.770

SJC Redistricting: That also you can see ads ads.

687

01:45:00.120 --> 01:45:17.430

SJC Redistricting: or makes one now 2.3% over so it's a lot smaller total deviation and we've done all the other things right we've done we've moved marotta up we've used eight mile to a great extent as a northern border of district two.

688

01:45:18.690 --> 01:45:23.880

SJC Redistricting: And we've unified country club along to purchasing, so I think we've caught we've we've done.

689

01:45:25.140 --> 01:45:27.840

SJC Redistricting: four of the five things are three of the four things really.

690

01:45:28.860 --> 01:45:31.440

SJC Redistricting: It just that 50% number that we're not going to hit.

691

01:45:35.910 --> 01:45:36.240

SJC Redistricting: Yes.

692

01:45:39.960 --> 01:45:41.940

SJC Redistricting: Any other questions on this one.

693

01:45:46.770 --> 01:45:47.280

SJC Redistricting: Here, let me.

694

01:46:19.350 --> 01:46:19.800

means.

695

01:46:29.220 --> 01:46:32.130

SJC Redistricting: The numbers below or just the totally are the deviations for each district.

696

01:46:33.240 --> 01:46:46.260

SJC Redistricting: You can still see that district three into are the two poles so it's 9.888% total deviation so we're right under it.

697

01:46:47.700 --> 01:46:48.810

SJC Redistricting: So if there's any.

698

01:46:50.340 --> 01:46:51.240

changes.

699

01:46:55.440 --> 01:47:02.940

SJC Redistricting: That you'd like made, I think, really, you can see again it's all about Stockton, and I guess the other question is, if you the thing I.

700

01:47:04.020 --> 01:47:17.760

SJC Redistricting: talked about briefly is you could back up the expansion of district to include more of Stockton, and you could use I five an eight mile road as the corner and move this portion.

701

01:47:18.930 --> 01:47:19.680

SJC Redistricting: Over.

702

01:47:22.200 --> 01:47:25.350

SJC Redistricting: into district four and that would help balance the two.

703

01:47:26.880 --> 01:47:35.250

SJC Redistricting: You would then district for would be under populated by point 5% and district two would be overpopulated by 2% so you'd create.

704

01:47:37.260 --> 01:47:38.670

SJC Redistricting: A much more balanced plan.

705

01:47:41.280 --> 01:47:41.610

SJC Redistricting: and

706

01:47:43.050 --> 01:47:47.640

SJC Redistricting: The master can see by back I would support that change that.

707

01:47:49.200 --> 01:47:49.830

playing around with.

708

01:47:54.030 --> 01:47:58.590

SJC Redistricting: Can we just show that matt backup and I just curious about.

709

01:48:01.590 --> 01:48:04.500

SJC Redistricting: These of Stockton that's in three.

710

01:48:20.610 --> 01:48:22.110

SJC Redistricting: This this corner here.

711

01:48:32.160 --> 01:48:35.370

SJC Redistricting: That heavy populated area or.

712

01:48:41.310 --> 01:48:42.000

SJC Redistricting: Parts of it are.

713

01:48:44.730 --> 01:48:45.660

elementary school.

714

01:48:49.230 --> 01:48:51.600

SJC Redistricting: and see Adams elementary school or in this area.

715

01:48:54.270 --> 01:49:02.010

SJC Redistricting: there's a lot of population in that role yeah it's pretty broad on the West side and 99 and that's the all new development.

716

01:49:05.970 --> 01:49:07.140

SJC Redistricting: That is on the West side.

717

01:49:08.400 --> 01:49:09.420

SJC Redistricting: Yes, it is Thank you.

718

01:49:16.920 --> 01:49:18.840

SJC Redistricting: it's impossible go back out again oh yeah.

719

01:49:25.920 --> 01:49:27.660

SJC Redistricting: it'd be like 6.6 and a half.

720

01:49:35.010 --> 01:49:48.870

SJC Redistricting: yeah mountain house river island is that what's going on, are they both together in this yeah yeah now now side, right here house and river islands, we got a ton of growth, both in both those areas, so it yeah you still have that later up.

721

01:49:50.580 --> 01:49:57.780

SJC Redistricting: Tracy mountain house connection, Mr morrow, what do you have in your district three guy I mean just three now moved over to.

722

01:49:59.430 --> 01:50:03.420

SJC Redistricting: I mean it's kind of an it's the only one that's completely moved over it seems like.

723

01:50:05.250 --> 01:50:14.280

SJC Redistricting: It doesn't have much recollection of where it was because it was in the delta islands, it was in brookside and not quite Lincoln village, but.

724

01:50:15.420 --> 01:50:24.330

SJC Redistricting: And we're kind of over any anything you see there, I mean I don't know I just don't know mountain house and river island you're talking about that high growth in the same area.

725

01:50:25.980 --> 01:50:26.880

SJC Redistricting: These are the current lines.

726

01:50:29.190 --> 01:50:36.090

SJC Redistricting: Will completely different, the current lines obviously yeah right, this is that when you go up when you're going North like that, and you pull.

727

01:50:37.170 --> 01:50:37.860

SJC Redistricting: It out and you.

728

01:50:39.450 --> 01:50:43.710

SJC Redistricting: taught me now you're back in the same boat again you've got a supervisor that.

729

01:50:44.760 --> 01:50:45.510

He or she that's.

730

01:50:47.190 --> 01:50:51.690

SJC Redistricting: And bouncing all over the place that kind of takes away from that compact issue we had.

731

01:50:53.610 --> 01:50:55.290

SJC Redistricting: Like a little bit more was D, I know that.

732

01:50:57.780 --> 01:50:59.970

SJC Redistricting: Changes I know the other out but.

733

01:51:01.800 --> 01:51:01.980

SJC Redistricting: Thanks.

734

01:51:03.180 --> 01:51:04.920

SJC Redistricting: What would it look like with Ashkelon.

735

01:51:06.540 --> 01:51:07.590

SJC Redistricting: Big areas small.

736

01:51:15.780 --> 01:51:16.260

SJC Redistricting: Emily do.

737

01:51:17.580 --> 01:51:21.360

SJC Redistricting: not interrupt I see I see one ag Community there frankly.

738

01:51:23.370 --> 01:51:33.540

SJC Redistricting: mean I see I see mountain house and I see river islands eaten up that whole delta island community of an all that AG in there and then, can you can you go back out again yeah.

739

01:51:35.760 --> 01:51:37.920

SJC Redistricting: yeah so we got, for I mean does that.

740

01:51:40.350 --> 01:51:45.570

SJC Redistricting: mean and to continue to grow profit, possibly, a lot of people somewhere else, I mean you're talking about.

741

01:51:47.130 --> 01:51:48.840

SJC Redistricting: One supervisor there, possibly.

742

01:51:57.780 --> 01:52:05.250

SJC Redistricting: we've been assuming that the laser up river island area needs be, in the same district as Tracy and matt.

743

01:52:06.780 --> 01:52:08.760

SJC Redistricting: And I and your comments.

744

01:52:10.470 --> 01:52:25.050

SJC Redistricting: and got me thinking about that assumption, and perhaps it isn't the best of assumptions because growth is happening and spreading through our county it's not just going to be in this.

745

01:52:26.220 --> 01:52:33.240

SJC Redistricting: South West corner of the county and so a question I would pose to.

746

01:52:35.400 --> 01:52:49.140

SJC Redistricting: Steve and others who know the mantega laser up area well, perhaps we should concentrate district three or have district three embrace some of laser up.

747

01:52:50.190 --> 01:52:56.040

SJC Redistricting: Have a little bit less of what's North and maybe more of what's North it goes into district four and.

748

01:52:57.150 --> 01:52:57.450

SJC Redistricting: and

749

01:52:59.490 --> 01:53:10.050

SJC Redistricting: To be just you can just enter get just getting more you get larger we split that up and then you don't want to split up that cities right, you have river islands.

750

01:53:11.880 --> 01:53:22.650

SJC Redistricting: mean I don't know if we want to consider that as him, I mean he interests, of course, but I don't know I mean what would you do if you took mantega and put river island there.

751

01:53:23.760 --> 01:53:28.350

SJC Redistricting: That mean at do anything for there I don't know if I would do anything.

752

01:53:30.750 --> 01:53:38.430

SJC Redistricting: At the end, the 120 where yeah i'm sorry I just don't know exactly to the end of 125.

753

01:53:41.160 --> 01:53:48.690

SJC Redistricting: accomplished I hate to see us just go into not done for such a small piece, but I think the issue is going to be.

754

01:53:49.980 --> 01:53:56.580

SJC Redistricting: If you I mean if you want to split later, you all you can but you're going to have to.

755

01:53:58.140 --> 01:54:07.050

SJC Redistricting: Put population back into five right, and the only place for it to really go is you can go and split mantega again, which I don't think you want to do.

756

01:54:08.400 --> 01:54:15.270

SJC Redistricting: And the other option would be to taking part of Stockton into district five right because that's another population Center.

757

01:54:16.380 --> 01:54:21.000

SJC Redistricting: Or maybe doing a swap with French camp, I guess, between three and five.

758

01:54:23.100 --> 01:54:33.300

SJC Redistricting: And I don't know so taking basically moving this into five and then moving this and right into where i'm trying to figure out where.

759

01:54:36.570 --> 01:54:43.740

SJC Redistricting: you're not going to get much population out of that French camp area yeah it's not a what's French gap a lot i've been googling it.

760

01:54:45.090 --> 01:54:46.170

SJC Redistricting: and not a lot of people.

761

01:54:54.750 --> 01:55:00.150

SJC Redistricting: Roughly like 3000 people in that block and a half of escalade.

762

01:55:01.200 --> 01:55:01.530

SJC Redistricting: It now.

763

01:55:03.540 --> 01:55:06.840

SJC Redistricting: But I think the when you're when you start thinking about.

764

01:55:08.430 --> 01:55:16.620

SJC Redistricting: Moving population around like if we wanted to keep laser Pole and we wanted to move it into district three that would create a total.

765

01:55:17.550 --> 01:55:26.760

SJC Redistricting: map change right total architecture change that we haven't I think there was one map that did that, and that was map see, but that was kind of the map that we.

766

01:55:28.410 --> 01:55:32.040

SJC Redistricting: wish the size, I guess last cycle, we can always bring that back.

767

01:55:33.570 --> 01:55:41.280

SJC Redistricting: For discussion if if you'd like, but a lot of the things that

we've talked through our accomplish in that map.

768

01:55:43.050 --> 01:55:50.940

SJC Redistricting: This roster, I just wanted to remind everyone of something that I think two or three meetings ago one of the other Commissioners said, which is.

769

01:55:52.770 --> 01:56:02.310

SJC Redistricting: Later up in the River islands and that kind of commuter corridor there if we're talking about a community of interest and it's the third third criterion.

770

01:56:03.900 --> 01:56:23.280

SJC Redistricting: I think there is something to be said about the shared interests as it relates to traffic and the people going over to the bay between what is in the current miss district five map and the fact that it's so close to dead on it only point three five over I hate to see that broken up.

771

01:56:25.230 --> 01:56:35.820

SJC Redistricting: Considering that, as a community of interest the kind of commuters of the bay, whether we like it or not, that's a real thing and that's a real that's a real group of people and they're not.

772

01:56:37.410 --> 01:56:41.370

SJC Redistricting: As our friend, on the other side of this diocese pointed out it's going to continue to grow.

773

01:56:43.200 --> 01:56:52.560

SJC Redistricting: And you're absolutely right, because he, in my view, you do not want to split the River island and later up in a way that's that's all has to be one.

774

01:56:55.800 --> 01:57:02.100

SJC Redistricting: Grand scheme yeah I would just you know so for throwing district five and we're throwing all that ag all that Delta, you know.

775

01:57:03.300 --> 01:57:05.340

SJC Redistricting: The population is going to.

776

01:57:06.480 --> 01:57:10.020

SJC Redistricting: commuters people that are moving here which there are more than welcome but.

777

01:57:11.580 --> 01:57:12.240

SJC Redistricting: They are going to get.

778

01:57:14.610 --> 01:57:31.230

SJC Redistricting: there's not a shared interest in the shared history of what that delta means and what that means, and so you know you end up sacrificing a bit of that and, and this is things are just getting you know put up and thrown up, and I would hate to see it just.

779

01:57:32.520 --> 01:57:36.990

SJC Redistricting: Mass population we love the money in the county and all that we get our we get our fees, but.

780

01:57:38.460 --> 01:57:44.070

SJC Redistricting: You know, there is a culture, and this is still an ad county for as many years it might change in 10 years but.

781

01:57:46.440 --> 01:57:47.070

SJC Redistricting: Look, we.

782

01:57:48.900 --> 01:57:49.800

SJC Redistricting: Just don't want to see as.

783

01:57:52.080 --> 01:57:55.650

SJC Redistricting: Partial boff you know just because people are moving here and.

784

01:57:57.060 --> 01:58:02.760

SJC Redistricting: I don't mind separating things, but I understand the point, but I don't mind separating things.

785

01:58:04.740 --> 01:58:05.520

we're looking at.

786

01:58:07.380 --> 01:58:14.220

SJC Redistricting: You know I would hate to see just that just be just the population taken into consideration, I know that's what we're doing that's how we're doing things.

787

01:58:16.500 --> 01:58:23.640

SJC Redistricting: Go ahead i'm sorry I I have an alternative point of view, I know some of the River islands people, and I know some of the mountain house people.

788

01:58:23.970 --> 01:58:34.230

SJC Redistricting: And they moved here from the bay and they are very concerned about the delta and one of the things I when I saw this map, I was excited about because those folks.

789

01:58:34.770 --> 01:58:43.380

SJC Redistricting: are concerned about the delta the contra Costa, people are the East Bay people all are concerned about the Delta, so I think that they might be a plus.

790

01:58:46.140 --> 01:58:49.800

SJC Redistricting: Very well, could be very well could be I think that's a fair point.

791

01:58:51.990 --> 01:58:52.590

SJC Redistricting: Absolutely.

792

01:58:53.790 --> 01:59:02.610

SJC Redistricting: repairing rights and delta farm is not always the same as recreation river river islands and such so amanda that's to be taken in consideration as well.

793

01:59:02.940 --> 01:59:12.810

SJC Redistricting: We can educate them to a lot of its environmental base to that you know that some of those people from the over the other side of the hill like more about that and people over this side.

794

01:59:14.730 --> 01:59:16.680

SJC Redistricting: that's why they went care more about the Delta.

795

01:59:18.990 --> 01:59:23.910

SJC Redistricting: Just I know we still have a few minutes, but I went to consensus to move on day 15.

796

01:59:25.980 --> 01:59:26.370

SJC Redistricting: Good fight.

797

01:59:29.550 --> 01:59:30.420

SJC Redistricting: And we'll go from there.

798

01:59:31.890 --> 01:59:35.250

SJC Redistricting: might be a third, though I just wondering if.

799

01:59:36.690 --> 01:59:42.690

SJC Redistricting: Plan D if there's any other map variations that you guys want to work through.

800

01:59:47.310 --> 01:59:52.800

SJC Redistricting: So i'd like to ask a question, is there a problem with the current.

801

01:59:53.970 --> 02:00:05.910

SJC Redistricting: date map D, the for changes or however many changes, you made from the people on Betty I saw Chris shake his head no so from from yeah.

802

02:00:06.990 --> 02:00:09.690

SJC Redistricting: So could you just expand it is, can we expand that map.

803

02:00:12.270 --> 02:00:18.180

SJC Redistricting: Fortunately, as large as I can make it, but I can we can go into bowser details.

804

02:00:21.270 --> 02:00:23.670

SJC Redistricting: Like if you want to look at the district's.

805

02:00:25.650 --> 02:00:27.750

SJC Redistricting: No man can you move it yeah.

806

02:00:29.490 --> 02:00:33.120

SJC Redistricting: You can see in district five so we've got mountain house Tracy later, a Pole.

807

02:00:34.230 --> 02:00:50.280

SJC Redistricting: district three mantega French camp, the up to Waterloo and then part of Stockton in district for all district one, you can see, we have country club whole harding as the line and then Wilson.

808

02:00:52.170 --> 02:01:05.100

SJC Redistricting: Western ranch or within district one, and then the airport area district to then northern Stockton, the Northwest corner being all the way up to a mile road following five down.

809

02:01:05.520 --> 02:01:18.720

SJC Redistricting: And then across with the remainder of northern Stockton in district four with Lodi lock for Victor and then it wrapping around and picking up repin and so on.

810

02:01:24.390 --> 02:01:42.120

SJC Redistricting: Personally, you know when I when I looked at the maps and then I looked at it again, and then I put it away and I came back and I looked at it again and I came back the third time I felt that this was the map that that we should be looking at.

811

02:01:44.430 --> 02:01:51.240

SJC Redistricting: First of all, it, it puts you know Lodi lock for London, the farming communities all together.

812

02:01:53.100 --> 02:01:55.410

SJC Redistricting: Remember it's like i'm always said.

813

02:01:56.640 --> 02:02:07.290

SJC Redistricting: don't want to start talking about ag with your mouthful that wasn't me who said that that was somebody who long, long time ago, made that comment, and I think that.

814

02:02:08.520 --> 02:02:27.840

SJC Redistricting: we've looked at a situation of putting the delta get together and and I think that we looked at majority of all those maps when you had four and five that were that were put together and we're looking at protecting protecting the delta, which is a is a must.

815

02:02:29.430 --> 02:02:39.570

SJC Redistricting: 800 pound gorilla sits right in the middle and that's what you're what you're dealing when you're when you're dealing with Stockton, and its size and.

816

02:02:41.250 --> 02:02:47.220

SJC Redistricting: Get the necessary splits that you have to get those things you have to work with we realized that.

817

02:02:49.830 --> 02:02:57.000

SJC Redistricting: I know Mr brennan made the comment was talking about the growth and you felt that maybe men take it was was one of them.

818

02:02:58.080 --> 02:03:14.280

SJC Redistricting: we've certainly had a lot of growth in mantega but you look at the Tracy and and mountain house lot of significant growth has come from those areas, and I think at the end of the day when when it's all said and done, and I.

819

02:03:16.950 --> 02:03:28.050

SJC Redistricting: See mantega as being whole and and we've tried to do that with every city that's on this map, making sure that they are staying whole.

820

02:03:29.730 --> 02:03:38.430

SJC Redistricting: Whether your written or your escalade or you know anything in between it we've tried to everything together.

821

02:03:39.210 --> 02:03:51.810

SJC Redistricting: And you know it's it's been said, the pure many times fact it when we're going to continue to realize what takes place over the next 10 years growth is inevitable.

822

02:03:52.530 --> 02:04:04.440

SJC Redistricting: And it's coming it's weird words going to land and then majority of that growth is going to take place in South county as we continue to see taking place.

823

02:04:05.190 --> 02:04:13.710

SJC Redistricting: So you know I for 1am very satisfied with this map that now, I think that tweaking starts to begin.

824

02:04:14.670 --> 02:04:28.350

SJC Redistricting: What do we do here what do we move this line or that lined or ever, but this is, I think, has got to be our primary map that that we are working with because i'm listening to the people is.

825

02:04:30.240 --> 02:04:31.170

SJC Redistricting: Better you know.

826

02:04:32.250 --> 02:04:32.700

SJC Redistricting: i'm in it.

827

02:04:33.810 --> 02:04:46.860

SJC Redistricting: From the audience are out there, looking at this very, very important so and I think that you know we we probably should look at another alternative Dave and and you know and say this is.

828

02:04:47.340 --> 02:04:57.270

SJC Redistricting: alternative to that, I think this has got to be our primary map that we've got to focus on and that's steve's opinion and more with.

829

02:04:58.950 --> 02:05:07.320

SJC Redistricting: So JEREMY Oh, are we looking for we shouldn't see if this is the mapping want to work with, I would prefer to put that in the form of emotion.

830

02:05:07.770 --> 02:05:23.880

SJC Redistricting: Right i'd be in favor of Ocean to work with this map, but the next meeting to tweak it as we need to to narrow it down, so we can get something done otherwise we ever come to a conclusion meeting, so please accept this map to work with.

831

02:05:24.900 --> 02:05:29.670

SJC Redistricting: him today till the next second a second property movement second.

832

02:05:31.320 --> 02:05:36.090

SJC Redistricting: Second okay all in favor signify by saying Aye Aye.

833

02:05:39.270 --> 02:05:39.480

SJC Redistricting: Okay.

834

02:05:40.500 --> 02:05:41.040

SJC Redistricting: So.

835

02:05:43.710 --> 02:05:44.010

SJC Redistricting: Yes.

836

02:05:44.700 --> 02:05:46.110
SJC Redistricting: i'd like to make a motion.

837

02:05:47.880 --> 02:06:00.750
SJC Redistricting: suggested that we consider a second alternative map yes i'd actually like to make motion that we not consider a second alternative map, because I think that would distract us too much and i'll I.

838

02:06:01.410 --> 02:06:07.020
SJC Redistricting: Think that's what you meant that's what I meant or go with this now okay i'll second that too okay.

839

02:06:08.850 --> 02:06:27.060
SJC Redistricting: And that and that's that's great we can do that just I just before we go on to the boat when I make the presentation on the 10th the board of directors are should say the board of supervisors is going to look at that and they could tear this map and every which way.

840

02:06:28.200 --> 02:06:32.730
SJC Redistricting: You can imagine and and that's fine we we've.

841

02:06:34.860 --> 02:06:47.520
SJC Redistricting: You know, done what we've been asked to do to put that together, so there is a motion on the floor, that we do not have any second to not have any other map and we present this map only.

842

02:06:48.720 --> 02:06:52.380
SJC Redistricting: All in favor signify by saying Aye Aye pose.

843

02:06:55.740 --> 02:07:00.120
SJC Redistricting: We have is that we have that unanimous, or do we have a no.

844

02:07:04.170 --> 02:07:06.660
SJC Redistricting: Okay, very good so.

845

02:07:07.860 --> 02:07:09.300
iPhone x: This is a map we're going to work with.

846

02:07:09.480 --> 02:07:10.170
SJC Redistricting: I would like that.

847

02:07:11.700 --> 02:07:12.990

SJC Redistricting: Yes, Sir, yes, sir.

848

02:07:25.830 --> 02:07:35.640

SJC Redistricting: You know, we keep splitting in this way that way I don't think the maps currently take anything near consideration to the different communities of interest.

849

02:07:38.340 --> 02:07:47.970

SJC Redistricting: growing up there, Joe or seventh generation we're going to have to, or we just focus more on that, on the next map I don't know how anyone else feels from soccer, but I just don't think we've focused enough.

850

02:07:48.480 --> 02:07:58.140

SJC Redistricting: we're like oh it's too big hey let's just split it okay well that's great let's split it the right way if we're going to do that we're fine tune in next time let's spend a lot of time and focus on that.

851

02:07:59.850 --> 02:08:11.850

SJC Redistricting: It hasn't been near enough time for the size of the city that it is and we're going to do a big disservice if we don't focus a good amount of time, and you know some of it will be.

852

02:08:13.200 --> 02:08:18.420

SJC Redistricting: You know, is, I can be controversial, but I think a lot of people that have grown up here will really appreciate the time that we take.

853

02:08:20.310 --> 02:08:28.200

SJC Redistricting: really look into that so I don't know if we need another meeting, but we do need to spend a lot of time fine tuning this and those districts that split.

854

02:08:29.310 --> 02:08:37.860

SJC Redistricting: doctrine up, so I don't know if we can make that a special item, or you know that'll go into the next meeting, because there will not be another meeting after that right.

855

02:08:39.000 --> 02:08:41.340

SJC Redistricting: That is a that's what i've been told right.

856

02:08:42.990 --> 02:08:46.530

SJC Redistricting: Now, can the supervisors throw it back to us and we have to do something with it, or what do they do.

857

02:08:47.610 --> 02:08:49.920

SJC Redistricting: But once the Chair presents.

858

02:08:54.210 --> 02:08:59.370

SJC Redistricting: So once Charlie brown presents then it's in the hands of the Board of Supervisors.

859

02:09:00.990 --> 02:09:08.760

SJC Redistricting: They say know what happens so they will work with it and they can make any amendments to the map, they deem necessary.

860

02:09:10.620 --> 02:09:19.890

SJC Redistricting: Well, we spend a lot of time for that on all that for them to just take the Crown out about that we that's why i'm telling you I would have shown up the less.

861

02:09:21.330 --> 02:09:23.490

SJC Redistricting: I doubt that they'll do the yes, sir.

862

02:09:24.720 --> 02:09:26.520

SJC Redistricting: Sir roster Mr Casey.

863

02:09:28.110 --> 02:09:32.310

SJC Redistricting: relative to the question that Commission or just raised grand scheme raised about.

864

02:09:34.080 --> 02:09:36.690

SJC Redistricting: Making tweaks to Stockton, I just want to.

865

02:09:37.800 --> 02:09:45.660

SJC Redistricting: So what am I thinking over the next two weeks before we get to those changes in the next meeting, because of the vr vr a requirement in district one.

866

02:09:46.710 --> 02:09:57.510

SJC Redistricting: Could you now ad hoc give us any kind of indication of your perception of what is the realm of changes that could be made given.

867

02:09:58.170 --> 02:10:07.740

SJC Redistricting: That you have to start with the requirements, the very requires that we do it, so does their maps that we have to have that district one kind of look a certain way.

868

02:10:08.760 --> 02:10:13.590

SJC Redistricting: is empty wiggle room do we have is the question, so I think, can you put the.

869

02:10:14.850 --> 02:10:15.330

SJC Redistricting: I agree.

870

02:10:19.260 --> 02:10:19.440

SJC Redistricting: But.

871

02:10:22.680 --> 02:10:23.310

SJC Redistricting: Give me a second.

872

02:10:39.030 --> 02:10:40.200

SJC Redistricting: So you can see.

873

02:10:43.410 --> 02:10:45.300

SJC Redistricting: You can't see our.

874

02:10:46.920 --> 02:10:47.970

SJC Redistricting: Famous last words.

875

02:10:49.500 --> 02:10:57.750

SJC Redistricting: So stocked in here is in this like this rose color and the line of district two is is brown maybe we should make that a different color so it's.

876

02:11:05.460 --> 02:11:07.740

SJC Redistricting: So I think really what's in play.

877

02:11:09.030 --> 02:11:09.480

SJC Redistricting: Is.

878

02:11:10.800 --> 02:11:12.720

SJC Redistricting: These this cut here.

879

02:11:13.740 --> 02:11:21.330

SJC Redistricting: Between district to district four in the northern part and then in district three along the Northeast.

880

02:11:22.710 --> 02:11:35.820

SJC Redistricting: I would, I mean it's not locked in, but I think with district one at 48.96 I don't think we want to change its configuration too much we're using harding we've got country club a whole.

881

02:11:37.800 --> 02:11:44.970

SJC Redistricting: And you know it, it has the porthole has Western less than ranch goes down takes on the airport, so I feel like.

882

02:11:46.290 --> 02:12:01.410

SJC Redistricting: district one is nearly locked and I don't want to say it's fully locked but it's 90%, so I think it's really the the this line, the line between two and three on the east side, and then the northern border between two and four.

883

02:12:02.430 --> 02:12:05.220

SJC Redistricting: Those are, I think, really what's at play.

884

02:12:07.650 --> 02:12:08.850

SJC Redistricting: Within the city of Stockton.

885

02:12:09.930 --> 02:12:11.580

SJC Redistricting: And in these three districts.

886

02:12:16.050 --> 02:12:32.760

SJC Redistricting: So it's i'm looking right now district three is in white well actually that the cities are are the cities in the census designated places are colored the, the only lines of the districts are the black lines okay.

887

02:12:35.340 --> 02:12:45.900

SJC Redistricting: So right where you're at right now yeah this is unincorporated county as and but in district three in district three yeah, but it is that that's in.

888

02:12:47.310 --> 02:12:58.170

SJC Redistricting: Stockton well it's just right below murata is that yeah so so what i'm what i'm saying is like this line here that i'm tracing the stockings and rose this rose color.

889

02:12:59.520 --> 02:13:04.260

SJC Redistricting: This line between two and three, this is the border currently.

890

02:13:05.490 --> 02:13:20.490

SJC Redistricting: And that's what I think we can we can talk about changing or jumping and then this line along here between four and two and for this northern strip here we can talk about changing that too, and I think you can see.

891

02:13:22.050 --> 02:13:27.390

SJC Redistricting: And I don't know district three is is under-populated so it has to take in more of Stockton.

892

02:13:29.220 --> 02:13:34.680

SJC Redistricting: I mean, he could I guess take out you could take a little bit out because we have the it's only at 6%.

893

02:13:36.270 --> 02:13:40.080

SJC Redistricting: So you could move the line and make three more under-populated.

894

02:13:41.340 --> 02:13:45.570

SJC Redistricting: But if you were trying to balance right three would grow who would shrink.

895

02:13:48.510 --> 02:13:51.030

SJC Redistricting: Would you grow three let's go on.

896

02:13:52.380 --> 02:13:53.220

SJC Redistricting: Starting.

897

02:13:56.550 --> 02:14:05.220

SJC Redistricting: A so you could do like a three or four way swap right, but then you start getting into what what cities, do you want to switch right So if you move.

898

02:14:07.440 --> 02:14:10.470

SJC Redistricting: escalate over repin over.

899

02:14:14.520 --> 02:14:19.380

SJC Redistricting: yeah it, we can get into it and we can look at like the shifts you'd have to do.

900

02:14:20.880 --> 02:14:35.820

SJC Redistricting: i'm so i'm just thinking out loud on the fact that, if we move over to escalate London somewhere along the line there's gonna be an island yeah no I think you would you'd have to make everything contiguous, of course, but right, so the This is where.

901

02:14:37.290 --> 02:14:47.280

SJC Redistricting: The shifts are not as easy right, yes I bet no, I think that our fundamental challenge with the city of Stockton is so large.

902

02:14:47.760 --> 02:15:12.600

SJC Redistricting: That if we recognize that our average size of the districts each district should be about 150 5000 people and stuck in itself, is it 320 2000 so we can't just split Stockton in two separate district Stockton, will have to have some.

903

02:15:13.650 --> 02:15:19.050

SJC Redistricting: spreading out into neighboring districts and that that's the challenge, because we know that.

904

02:15:21.060 --> 02:15:28.650

SJC Redistricting: They won't necessarily be as integrated in to the issues facing the other districts, but we don't have a choice of.

905

02:15:30.420 --> 02:15:40.140

SJC Redistricting: The growth will come from the the East, I mean will come from rod area and general plan you're never gonna be able to build on chima track over there in the West district.

906

02:15:41.280 --> 02:15:43.320

SJC Redistricting: Western by five most likely so.

907

02:15:44.400 --> 02:15:57.540

SJC Redistricting: there's no population growth there again I five the west of I five should be possible partitioned off that should be in some type of either some shared interest of bobby's ag.

908

02:16:02.340 --> 02:16:06.210

SJC Redistricting: I don't know stock he seems very disjointed right now, to be honest, maybe it's just.

909

02:16:09.150 --> 02:16:14.430

SJC Redistricting: By the way, my screen is not showing anything in the dark here, I can i'm not saying anything.

910

02:16:23.100 --> 02:16:25.080

SJC Redistricting: Thank you for the technical solution, I appreciate that.

911

02:16:27.750 --> 02:16:32.490

SJC Redistricting: Do we have any other questions up here any questions from anyone.

912

02:16:34.320 --> 02:16:38.910

SJC Redistricting: Think when you split the like, he says it West I five and then basically the.

913

02:16:40.410 --> 02:16:49.020

SJC Redistricting: Boston right now the weights split you know going West I five is basically just covering all the residential is not really covering all.

914

02:16:50.160 --> 02:16:52.230

SJC Redistricting: Egg are you going to stop and.

915

02:16:53.580 --> 02:16:55.110

SJC Redistricting: When you go into the egg areas.

916

02:16:56.550 --> 02:16:57.840

SJC Redistricting: They fall into district five.

917

02:16:59.760 --> 02:17:00.120

SJC Redistricting: i'm not.

918

02:17:01.350 --> 02:17:02.610
SJC Redistricting: pretty good split to me.

919
02:17:03.900 --> 02:17:04.260
SJC Redistricting: I don't.

920
02:17:10.860 --> 02:17:20.790
SJC Redistricting: Well, I guess, my point is the growth will come from the East over there marotta and such so it's skewed that way there's nothing that's going to be approved in a flood zone.

921
02:17:21.960 --> 02:17:22.710
SJC Redistricting: A floodplain.

922
02:17:25.500 --> 02:17:31.560
SJC Redistricting: There any growth would just on the east side is just going to help district three gain or correct.

923
02:17:33.000 --> 02:17:44.430
SJC Redistricting: It needs between that that that growth in the broad area that that East area and the growth that three would have in the Tracy area would be beneficial.

924
02:17:47.310 --> 02:17:50.430
SJC Redistricting: beneficial as far as a population growth or yeah.

925
02:17:58.440 --> 02:18:01.080
SJC Redistricting: Any other questions or your question answered.

926
02:18:02.670 --> 02:18:04.020
Okay, any other questions.

927
02:18:06.000 --> 02:18:08.550
SJC Redistricting: With census will move to 830.

928
02:18:09.990 --> 02:18:17.670
SJC Redistricting: And then, but at this point in time, I am going to ask for any public comment opening back up public comment.

929

02:18:20.190 --> 02:18:22.440

SJC Redistricting: One in the audience first the Commission.

930

02:18:27.120 --> 02:18:27.990

SJC Redistricting: And then we'll.

931

02:18:29.970 --> 02:18:31.110

SJC Redistricting: fishers have any comments.

932

02:18:35.850 --> 02:18:40.230

SJC Redistricting: I will, maybe we're not going to go to 830, but I have a motion to adjourn.

933

02:18:41.760 --> 02:18:49.830

SJC Redistricting: Second, and this has been properly moving second to adjourn all in favor signify by saying Aye Aye opposed same sign ocean Karen.
