Hello,

My name is Camillia Butler. I would like to be apart of whats going on and get more involved with the community. If I can get some resources please to stay up-to-date and in the now.

Comments:

Dear Staff and Representatives, Thank you for your hard work on the SJ redistricting process. At this time, my recommendation is the implementation of Map B.

Redistricting Comments

Name: Robert Swift

Email: [REDACTED]

Phone: [REDACTED]

Comments:

Hello, this is Robert Swift, Escalon City Councilmember and I am writing the committee today to voice my objection to Supervisorial Districts Recommended Map B, which would include the rural community of Escalon with suburban and heavily Bay Area influenced communities such as Tracy and Mountain House. My concern is that our socioeconomic base aligns much closer with the eastern half of San Joaquin County, and if we are combined with much greater populations with an entirely different socioeconomic base, culture and outlook, our voice will surely be lost in terms of our representation in the county. Please keep us in a District 4 that includes the eastern half of the county. Thank you.

Re-sending this as I do not believe it was read during the last meeting. Please read this at the meeting this afternoon-

> Good evening to the Redistricting Advisory Committee. My name is Dan Evans and I'm a 25 year resident of Tracy. I'm writing in support of the North & Lodi map, called

> 2021-11-09 77720 PLAN - North and Lodi.

>

> I'm in favor of drawing our lines per that map as it provides the best balance of population count and voting populations, as well as a very fair geographic distribution. As well, I see this map as providing the best balance for our communities of interest.

>

> The next best option to support the redistricting requirements, would be Plan E, specifically called 2021-11-08 77324 PLAN - E except Escalon in 4.

>

> Please ensure our districts are drawn per one of these two maps to ensure fairness for our communities. Both maps are fair and do their best to maintain whole cities and towns and provide for all of our communities.

>

> Thank you,

>

> Dan Evans
